**RUCHI SOYA INDUSTRIES LIMITED'S FIRST AMENDED RESPONSES AND  
OBJECTIONS TO OPPOSER/REGISTRANT'S FIRST SET OF INTERROGATORIES  
TO APPLICANT/PETITIONER**

Pursuant to Rules 26 and 33 of the Federal Rules of Civil Procedure and the TBMP,  
Applicant, Ruchi soya Industries Limited ("Applicant"), by their attorneys of record, hereby  
further responds and objects to opposer/respondent's, Ferrero, S.p.A. ("Opposer"),

Opposer/Registrant's First Set Of Interrogatories To Applicant/Petitioner (the "Interrogatories") (collectively the "Responses"), as follows:

**GENERAL RESPONSES AND OBJECTIONS**

Applicant's responses to individual Interrogatories are all subject to the following general objections (the "General Objections"):

1. Applicant objects to the Interrogatories to the extent individual Interrogatories consist of multiple subparts and therefore the total number of Interrogatories exceeds the number of interrogatories permitted by the TBMP.

2. Applicant further objects to the Interrogatories to the extent they are cumulative and/or duplicative of Plaintiffs' document requests and pursuant to Federal Rule of Civil Procedure 33(d), Applicant's specific Responses to each Interrogatory may in part be answered by reference to documents produced by Applicant in response to Plaintiff's document requests.

3. Applicant objects to the Definitions and the Interrogatories to the extent that they exceed or are inconsistent with the requirements of the Federal Rules of Civil Procedure, the TMBP, regulations and/or law, and to the extent that they seek information or documents beyond what can be made available from a reasonable investigation.

4. Applicant further objects to the Interrogatories to the extent any Interrogatories seek documents or information for a time period for which such documents or information is not reasonably accessible or available, and further to the extent any Interrogatories seek documents from, and/or information concerning, any period of time beyond the time period relevant to any of Opposer's allegations set forth in its Opposition.

5. Applicant further objects to the Interrogatories to the extent that they may seek, or would result in, the disclosure of documents, communications and other information protected by the attorney-client privilege, and/or materials produced by or for attorneys in anticipation of, or

during trademark application prosecution at the USPTO and/or litigation and protected from disclosure by the attorney work-product doctrine. In the event that any privileged information is disclosed, such disclosure shall be deemed unintentional and shall not constitute a waiver of the privilege, and Applicant reserves the right to request such privileged information be returned and/or destroyed.

6. Applicant further objects to the Interrogatories to the extent that they seek confidential, sensitive and/or proprietary trade secrets, and/or financial and/or other confidential business information or information subject to rights of privacy and/or publicity (the “Confidential Information”). Applicant will only produce Confidential Information pursuant to, and in accordance with, a protective order issued in this case. Applicant further reserves the right to withhold disclosure of any documents and information subject to the privacy and/or publicity rights of any third party, or that it is bound to keep confidential pursuant to any contract or agreement with any third party from whom Applicant cannot obtain a waiver or consent.

7. Applicant further objects to the Interrogatories to the extent that they purport to require Applicant to obtain information from unaffiliated third parties and/or otherwise identify and obtain documents that are not within its possession, custody and/or control.

8. Applicant further objects to the Interrogatories to the extent that they call for unreasonably cumulative or duplicative documents and/or information.

9. Applicant further objects to the Interrogatories to the extent that they seek the discovery of information that Opposer itself is able to obtain by less burdensome and/or costly means than formal discovery requests, whether because responsive documents and/or information can be obtained from non-parties, is publicly available, is already in Opposer’s possession and/or control, or otherwise.

10. Applicant further objects to each Interrogatory to the extent that it is overly broad, unduly burdensome and/or not reasonably calculated to lead to the discovery of admissible evidence and/or compliance with the Interrogatory would be cost-prohibitive, impractical and/or impossible; Applicant will nevertheless endeavor to reasonably comply with each such Interrogatory, and reserves the right to seek an extension of time to respond accordingly.

11. Applicant further objects to Instruction “E” in the Interrogatories to the extent it is overly broad and overly burdensome.

12. Applicant further objects to Instruction “G” in the Interrogatories to the extent it is improper and/or non-compliant with Rule 33(d).

13. Applicant further objects to Instruction “H” in the Interrogatories to the extent it is overly broad and overly burdensome.

14. Applicant’s Responses are as complete and as accurate as is possible given the state of Applicant’s current knowledge and investigation. Applicant’s investigations are ongoing and Applicant reserves the right to correct and/or supplement its Responses to the extent its ongoing investigations yield different and/or additional information.

15. Applicant’s specific objections to each Interrogatory are in addition to the objections set forth in these General Objections. The General Objections form a part of Applicant’s Responses to each and every Interrogatory, and are set forth here to avoid the duplication and repetition of restating them for each response. The absence of a reference to a General Objection is not to be construed as a waiver of the General Objections as to a specific Interrogatory.

As stated above, each of Applicant's General Objections is incorporated into each of the following specific Responses and Objections ("Specific Objections") to Opposer's Interrogatories as numbered below:

Grate the coconut, add 2 cups of water and take out a container. Strain.  
 Blend the raw rice and cooked rice in a blender, add nut milk. Remove from the blender and add the sugar, the remaining coconut milk and salt.  
 Mix the yeast with a little warm water, add to the rice paste and mix very well. The batter should be dropping consistency.  
 Cover and Rest for 2 to 3 hours.  
 Pour 1/2 the amount of the batter into a deeper non-stick saucy, slowly pour the water on top (1/2 to 1/3 of the batter) to make it a little and the middle is a white part.  
 Cover and cook for 15 minutes. The middle part will be fluffy, the sides will be firm and crisp.
