Incyte Corporation (“Incyte”), a Delaware corporation having a principal place of business at 1801 Augustine Cut-Off, Wilmington, Delaware 19803, and Incyte Holdings Company (“ICH”), a Delaware corporation and a wholly owned subsidiary of Incyte, also having a principal place of business at 1801 Augustine Cut-Off, Wilmington, Delaware 19803, (collectively, “Opposers”), believe they will be damaged by the registration of the mark NCYTE, which is the subject of Application Serial No. 86/141,367, published in the Official Gazette on December 30, 2014. Opposers hereby oppose the registration of said mark and request that registration be refused. As grounds in support of their opposition, Opposers states as follows:

1. Opposers are a biopharmaceutical company focused on the discovery, development, and commercialization of proprietary small molecule drugs, primarily for oncology and the treatment of inflammation.

2. Opposers have continuously and regularly used the mark INCYTE in connection with products and services in interstate commerce and nationwide since at least as early as 2004. Opposers currently use the INCYTE mark for pharmaceuticals, pharmaceutical preparations, printed medical publications, scientific and medical research services, and related website services.

3. Opposers have spent significant time and resources promoting their Marks. As a result of Opposers' use, promotion, and rendering of products and services under the INCYTE mark, and Incyte's registration of the INCYTE and INCYTE & Design marks, the INCYTE mark has gained significant recognition and goodwill among the purchasing public.

4. Incyte owns U.S. Trademark Registration No. 3,044,806, filed on May 11, 2004 and registered on January 17, 2006, for the mark INCYTE for use with "Pharmaceuticals, namely pharmaceutical preparations for the treatment of human immunodeficiency virus, or HIV, inflammatory disorders, cancer and diabetes" in International Class 5. The current TSDR and Assignment records for Registration No. 3,044,806 are attached hereto as Exhibit 1 and made a part hereof by this reference.

5. Incyte owns U.S. Trademark Registration No. 4,052,607, filed on March 25, 2011 and registered on November 8, 2011, for the mark INCYTE & Design (depicted below),

for use with "Pharmaceutical preparations for the treatment of viral, hematological, oncological, auto-immune, inflammatory, metabolic, and dermatological disorders" in International Class 5, "Printed medical publications namely reports, manuals, brochures, newsletters, leaflets" in International Class 16, "Scientific and medical research relating to viral, hematological,

oncological, auto-immune, inflammatory, metabolic, and dermatological disorders” in International Class 42, and “Providing a web site featuring information relating to viral, hematological, ontological, auto-immune, inflammatory, metabolic and dermatological disorders” in International Class 44. The current TSDR and Assignment records for Registration No. 4,052,607 are attached hereto as Exhibit 2 and made a part hereof by this reference.

6. On December 11, 2013, Kent A. Murphy, an individual (“Applicant”), filed an application to register the mark NCYTE for “Medical apparatus and instrument for diagnostic use, namely, apparatus for medical diagnostic testing in the fields of cancer or other tissue-based diagnostic testing, cytology and cell-based testing” in International Class 10, and was assigned Serial No. 86/141,367. The NCYTE mark was published in the Official Gazette on December 30, 2014.

7. Later, on November 29, 2014, Applicant filed additional applications for the marks NCYTE DX PRO (Serial No. 86/467,079), NCYTE DX (Serial No. 86/467,077), and NCYTE DX SYSTEM (Serial No. 86/467,071). On November 30, 2014, Applicant filed additional applications for the marks NCYTE DX PAC (Serial No. 86/467,180), and NCYTE DX NABLE (Serial No. 86/467,178). All these marks were filed in International Class 10. These marks have not yet been published for opposition.

8. Prior to Applicant’s date of filing of December 11, 2013, Opposers had been using the INCYTE mark in interstate commerce for many years.

9. Incyte’s registrations for its INCYTE and INCYTE & Design marks have earlier filing dates and earlier priority dates than Applicant’s application for the mark NCYTE; hence, Incyte’s registrations have priority over Applicant’s application.

10. Applicant’s application for the mark NCYTE is filed based on Applicant’s intent-to-use the mark under Section 1(b) of the Trademark Act; accordingly, Applicant has not made any use of its mark in commerce, and Opposers’ use and registrations have priority.

11. The goods on which Applicant intends to use the mark NCYTE, as evidenced by Applicant's application, are highly related to the goods and services on which Opposers use the INCYTE and INCYTE & Design marks, as evidenced by Incyte's registrations.

12. The mark NCYTE, as evidenced by Applicant's application, is nearly identical in sight, sound, and meaning to Opposers' INCYTE and INCYTE & Design marks.

13. The relevant purchasers and consumers of Applicant's NCYTE branded products greatly overlap with the relevant purchasers and consumers of Opposers' INCYTE branded products and services. Healthcare providers and researchers in the oncology space are likely to be aware of and potentially purchase and use products and services of both parties. In addition, it is likely that there will be overlap with the promotion of the parties' products and services through promotion at conferences and trade shows directed toward the oncological professional.

14. The mark NCYTE, as evidenced by Applicant's application, so resembles Opposers' INCYTE and INCYTE & Design marks as to be likely to cause confusion, mistake, or deception, when used in connection with highly related goods and/or services, within the meaning of Section 2(d) of the Lanham Trademark Act.

15. The mark NCYTE is pronounced identically to Opposers' INCYTE and INCYTE & Design marks, and is a nearly identical replica of Opposers' INCYTE mark, only differing in the removal of the one letter "I." As such, Applicant's NCYTE mark will mislead consumers into believing the goods on which Applicant uses or intends to use the NCYTE mark are an extension, expansion, or collaboration with Opposers' INCYTE products and/or services, or are otherwise associated with Opposers, when they are not.

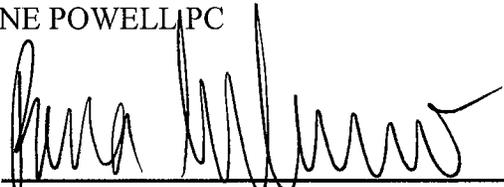

16. Accordingly, Opposers will be damaged by the registration Applicant seeks because the registration will assist and support Applicant in the confusing and misleading use of the mark NCYTE and will give color of exclusive statutory rights to Applicant in violation and derogation of Opposers' prior rights.

WHEREFORE, Opposers pray that the opposition be sustained and that registration to Applicant be refused.

DATED: April 29, 2015

Respectfully Submitted,

LANE POWELL PC
