United States Patent and Trademark Office
Trademark Trial and Appeal Board
P.O. Box 1451
Arlington, VA 22313-1451

Autonet Mobile, Inc., (hereinafter "Autonet"), a Delaware Corporation with offices at 3636 N. Laughlin, #150, Santa Rosa, CA 95403, believes that it will be damaged by registration of the mark (hereinafter the "Opposed Mark") shown in Application Serial No. 86/200,673 (hereinafter "Opposed Application") by JCE LTD (hereinafter "JCE") and hereby opposes same.

As grounds for opposition, Autonet alleges as follows:

1. Autonet is and for many years has been engaged in the business of manufacturing, distributing, selling and providing a wide variety of goods and

services under and in connection with, inter alia, its valuable AUTONET® and AUTONET MOBILE® marks.

2. Beginning at least as early as March 31, 2006, Autonet adopted and commenced use of its AUTONET® and AUTONET MOBILE® marks in commerce in connection with mobile routers for vehicles and related services.

3. Autonet is the owner of various trademark registrations for its AUTONET® and AUTONET MOBILE® marks (including certain stylized versions of same).

4. Autonet is the owner of U.S. Trademark Registration No. 3,633,195 registered June 2, 2009 for the mark **Autonet** in class 038 for “Telecommunications services, namely, electronic, electric, and digital transmission of voice, data, images, signals, and messages; electronic mail services; internet telephony services; broadcasting programs via a global computer network; voice-over IP telephone services; wireless broadband communication services; cellular telephone services; satellite communication services; mobile radio communication; cable television transmission, television transmission services; transmission of information by electronic communications networks; mobile wireless broadband communication services for vehicles, boats, cars, truck, trains.”

5. Autonet is the owner of U.S. Trademark Registration No. 4,232,643

registered October 30, 2012 for the mark **AUTONET** in class 009 for “Wireless communications equipment, namely, wireless mobile routers for use in vehicles; wireless mobile routers providing LAN (local area network) in vehicles; wireless mobile routers providing mobile internet hotspots in vehicles; wireless mobile routers for use in vehicles for accessing wireless internet hotspots.”

6. Autonet is the owner of U.S. Trademark Registration No. 3,945,949, registered April 12, 2011 for the mark  in class 038 for “Mobile high-speed Internet service provider enabling wireless Internet connectivity in automobiles, boats, cars, trucks, and trains; Telecommunications services, namely, providing users wireless access to the Internet and other communication and data networks by utilizing personal computers, PDAs and other wireless devices; providing multiple-user access to a global computer information network for the transfer and dissemination of a wide range of information; Electronic, electric, and digital transmission of voice, data, images, signals, messages via telephony networks; electronic mail services; communications via fixed wire line, wireless, cellular, radio transmission and satellite; Television transmission via cable, satellite, and closed circuit; television broadcasting services; mobile media and entertainment services in the nature of electronic transmission of entertainment media content, news, traffic and weather information.”

7. Autonet is the owner of U.S. Trademark Registration No. 4,178,388, registered on July 24, 2012 for the mark **AUTONET MOBILE** in class 009 for

“Wireless communications equipment, namely, wireless mobile routers for use in vehicles; wireless mobile routers providing LAN (local area network) in vehicles; wireless mobile routers providing mobile internet hotspots in vehicles; wireless mobile routers for use in vehicles for accessing wireless internet hotspots.”

8. Autonet is the owner of U.S. Trademark Registration No. 4,665,761, registered on January 6, 2015 for the mark **AUTONET MOBILE CARKEY** in class 009 for “Downloadable application software for wireless units and devices, mobile phones, handheld computers, tablet computers, and personal mobile electronic devices to provide control operations of a vehicle equipped with a mobile router or remote control unit; Downloadable application software for wireless units and devices, mobile phones, handheld computers, tablet computers, and personal mobile electronic devices to provide control operations of a vehicle; Application software for wireless units and devices, mobile phones, handheld computers, tablet computers, and personal mobile electronic devices to provide control operations of a vehicle; Application software for wireless units and devices, mobile phones, handheld computers, tablet computers, and personal mobile electronic devices to provide control operations of a vehicle equipped with a mobile router or remote control unit.”

9. The Registration Certificates for the above-identified registrations are attached as Exhibit A.

10. Each of the registrations referenced herein above are valid, subsisting and in full force and effect and therefore constitute evidence of the validity of the marks therein and of Autonet's exclusive right to use said marks in connection with the identified goods and services. Moreover, U.S. Registration 3,633,195 is incontestable pursuant to 15 U.S.C. §1065.

11. Autonet Mobile's AUTONET® and AUTONET MOBILE® marks are inherently distinctive and serves to distinguish Autonet and its wide variety of goods and services from those of others and to distinguish the source of Autonet's goods and services.

12. Autonet, has expended substantial amounts of time, money, and effort in advertising and promoting Autonet's goods and services offered under and in connection with the AUTONET® and AUTONET MOBILE® marks. As a result, Autonet has developed substantial goodwill in the AUTONET® and AUTONET MOBILE® marks.

13. JCE applied for registration of the Opposed Mark in the Opposed Application for goods and services in class 042 for "cloud computing services, namely, cloud hosting provider services; computer programming; computer software design; computer system design; duplication of computer programs; installation of computer software; providing services for temporary use of non-downloadable computer software, namely, providing temporary use of on-line non-downloadable

software for use in database management for use as a spreadsheet and for word processing; processing of computer data; conversion of data or documents from physical to electronic media; data conversion of computer programs and data, not physical conversion; planning, design and development of on-line websites for third parties; hosting of websites; computer security services, namely, restricting access to and by computer networks to and of undesired websites, media and individuals and facilities; engineering services, namely, planning and design of burglar-proof equipment; engineering services, namely, planning and design of central monitoring and control systems.”

14. The Opposed Application was filed under Section 1B as an intent-to-use application and no statement of use has been filed.

15. JCE was on constructive notice of Autonet’s prior and exclusive rights in the AUTONET® and AUTONET MOBILE® marks by virtue of Autonet’s federal registrations for those marks, pursuant to Section 22 of the Lanham Act, 15 U.S.C. §1072.

16. JCE was on actual notice of Autonet’s prior and exclusive rights in the AUTONET® and AUTONET MOBILE® marks by virtue of JCE’s abandoned Trademark Application Serial No. 85/689,440 filed July 28, 2012 under Section 1(b) for the mark AUTONET and abandoned March 7, 2013 after being refused registration in an Office Action dated September 6, 2012 on the basis of a likelihood

of confusion with the above-identified Registration No. 4,178,388 and pending application Serial No. 85/454,391 that matured into above-identified Registration No. 4,232,643.

17. The Opposed Mark is identical to and/or confusingly similar to Autonet's AUTONET® and AUTONET MOBILE® marks in sight, sound, and commercial impression.

18. Upon information and belief, Autonet's services and JCE's services are directed to the same class of purchasers and travel in the same channels of commerce.

19. Autonet is the senior user and registrant of the marks AUTONET® and AUTONET MOBILE® and priority is not at issue in this proceeding.

20. Autonet believes and alleges that the Opposed Mark when applied to the services in the Opposed Application is likely to cause confusion or mistake or to deceive, and will deceive and mislead the trade and the purchasing public into believing that JCE's services are the same services of Autonet, or that JCE's services are sponsored, approved, or endorsed by Autonet, or that JCE is authorized, licensed, or controlled by Autonet, or that JCE is in some other way related to Autonet.

21. JCE's alleged mark should be denied registration under Section 2(d) of the Lanham Act in view of Autonet's prior, continuous, and ongoing use and registration of its AUTONET® and AUTONET MOBILE® marks.

WHEREFORE, Opposer, Autonet Mobile, Inc. respectfully requests that this opposition be sustained and that U.S. Trademark Application Serial No. 86/200,673 be refused registration, and for such other relief as may be proper.

Respectfully submitted,
Autonet Mobile, Inc.
