Opposer,

v.

IPLATEIA, INC.,
Applicant.

Opposition No. _____

NOTICE OF OPPOSITION

UNITED STATES PATENT AND TRADEMARK OFFICE

Trademark Trial and Appeal Board
P.O. Box 1451
Alexandria, Virginia 22313-1451

Dear Sir or Madam:

Dolby Laboratories Licensing Corporation (“Dolby” or “Opposer”), a New York Corporation, located and doing business at 1275 Market Street, San Francisco, CA 94103-1410, believes that it will be damaged by the registration of the mark **DOBI.TV** for the Class 9 goods identified in Application Serial No. 85/698,290 (the “Application”), filed by IPlateia Inc., a Republic of Korea Corporation with an address at 2F, 46, Nonhyeon-Ro 151-Gil, Gangnam-Gu, Seoul, Republic of Korea (“Applicant”), under Section 1(B) of the Trademark Act and based on a foreign filing under Section 44(D) of the Trademark Act, and published in the *Official Gazette* on November 10, 2015, and hereby opposes registration thereof.

As grounds for opposition, Opposer alleges as follows:

1. Opposer, a San Francisco-based technology company that was founded in 1965, is a world leader in sound technologies, with a world revenue exceeding \$970 million. Opposer’s

proprietary technologies are used in a wide variety of products worldwide, including, for example, audio, imaging, and voice technologies that enhance entertainment and communication experiences at cinemas, at home, at work and on the go through mobile devices.

2. Opposer's house mark, used continuously since at least as early as the 1970s on nearly all of its goods and services, is DOLBY. The mark has been used alone and as part of a composite mark that includes other words, all in connection with a broad range of goods and services.

3. Opposer's broad range of products and services include, but are not limited to:

- Dolby Atmos®, a moving audio system used, *inter alia*, in cinemas, home theaters, and mobile phones;
- Dolby Digital® Plus, an advanced surround sound audio technology built into, *inter alia*, home theaters, smart phones, operating systems, and browsers;
- Dolby Theatre®, a Hollywood landmark that showcases the latest innovations from the leader in entertainment technology, and home to the Academy Awards®;
- Dolby Vision™, imaging technology that transforms cinema and TV viewing experiences with astonishing brightness, contrast, and vivid color reproduction;
- Dolby Audio™, rich, clear, powerful sound in, *inter alia*, cinemas, at home, and on the go through mobile devices;
- Dolby Cinema™, which combines the most powerful image and sound technologies with inspired cinema design to create captivating cinematic events; and

- Dolby Pro Logic® IIx, a sound system that allows users to expand their listening environments.

4. Opposer is so renowned in the entertainment and technological space that it has been awarded several Gordon E. Sawyer Awards (Oscar®), as well as numerous Scientific and Engineering Awards, Awards of Commendation, and John A. Bonner Medals of Commendation during the Academy Awards®. For example, in 2015, Opposer was awarded the Scientific and Engineering Award for its series of “stable, accurate representation of images with the entire luminance range and color gamut used in contemporary theatrical feature presentation.” In 2014 Opposer, was awarded an Oscar® for its technological contributions. *See* Exhibit 1 for a representative printout of Opposer’s Academy Award® honors.

5. Opposer has also been honored with several Emmy® Awards by the National Academy of Television Arts and Science (NATAS) and the Academy of Television Arts and Sciences (ATAS) in recognition of its achievements within the entertainment and technology industries. For example, in 2015, Opposer was awarded an Emmy® for its Outstanding Special Class Animated Program for Silent (NATAS). In 2012, Opposer was recognized for its Outstanding Achievement in Engineering Development for the Dolby® Professional Reference Monitor PRM-4200 (NATAS) (ATAS). *See* Exhibit 2 for a representative printout of Opposer’s Emmy® Award honors.

6. Opposer is the owner of numerous U.S. registrations on the Principal Register for the DOLBY mark for a wide variety of audio- and video-related goods and services, including, without limitation, those identified below:

- No. 0992985 for DOLBY for “Noise suppressors which combat noise in transmission or recording systems” in Class 9. Opposer’s application for this

registration was filed on August 30, 1972, and the mark was first used with these goods at least as early as June 1, 1970, and has been used continuously in commerce since that time. The application matured into registration on September 10, 1974, and has gained incontestable status.

- No. 1040867 for DOLBY for “electronic recording/reproducing apparatus embodying noise reduction circuits for use in connection with audio signals—namely, magnetic tape recorders, cassette recorders, radio receivers, and motion picture sound track recording and reproducing apparatus; magnetic tapes, and motion picture sound tracks of electrical signals which have been subjected to dynamic range compression prior to recording” in Class 9. Opposer’s application for this registration was filed on February 8, 1974, and the mark was first used in commerce on July 1, 1972, and has been used continuously in commerce since that time. The application matured into registration on June 8, 1976, and has gained incontestable status.
- No. 1647252 for DOLBY for “apparatus for use in connection with the processing, recording, reproduction, transmission, and reception of electronic signals; integrated circuits; and video discs recorded with encoded signals for playback using a noise reduction system and/or surround sound decoder; cinematographic films; and alignment and test equipment for apparatus for use in connection with the processing, recording, reproduction, transmission, and reception of electronic signals” in Class 9. Opposer’s application for this registration was filed on November 15, 1989, and the mark was first used with these goods at least as early as June 30, 1970, and has been used continuously

in commerce since that time. The application matured into registration on June 11, 1991, and has gained incontestable status.

- No. 2274043 for DOLBY for “providing a website on global computer networks featuring information in the fields of sound reproduction and recording, and sound reproduction and recording products and services in the cinema, professional, home theater, multi-media, telecommunications, and computer network fields” in Class 42. Opposer’s application for this registration was filed on May 4, 1998, and the mark was first used with these services at least as early as July 14, 1995, and has been used continuously in commerce since that time. The application matured into registration on August 31, 1999, and has gained incontestable status.
- No. 1652605 for DOLBY for “repair of sound recording and reproducing equipment” in Class 37. Opposer’s application for this registration was filed on January 19, 1990, and the mark was first used with these services at least as early as October 30, 1970, and has been used continuously in commerce since that time. The application matured into registration on July 30, 1991, and has gained incontestable status.
- No. 1702237 for DOLBY for “consultation, inspection and quality control, all relating to the making of sound recordings, to the transfer of sound recordings onto film, to the duplication of audio or video recordings, to the surveying of theaters and of cinemas for the installation of sound reproducing equipment, to the installation of sound reproducing equipment in theaters and in cinemas, and to the design and manufacture of consumer audio equipment and

professional recording equipment” in Class 42. Opposer’s application for this registration was filed on January 19, 1990, and the mark was first used with these services at least as early as December 22, 1969, and has been used continuously in commerce since that time. The application matured into registration on July 21, 1992, and has gained incontestable status.

7. The above-identified registrations are valid and in full force and effect.

8. Opposer is also the owner of numerous other United States Registrations that include the DOLBY mark, including but not limited to the following examples:

- No. 1645844 for DD DOLBY for “Apparatus for use in connection with the processing, recording, reproduction, transmission, and reception of electronic signals; integrated circuits; audio and video tapes and video discs recorded with encoded signals for playback using a noise reduction system and/or surround sound decoder; cinematographic films; and alignment and test equipment for apparatus for use in connection with the processing, recording, reproduction, transmission, and reception of electronic signals” in Class 9. Opposer’s application for this registration was filed on November 15, 1989, and the mark was first used with these goods at least as early as June 30, 1970, and has been used continuously in commerce since that time. The application matured into registration on May 28, 1991, and has gained incontestable status.
- No. 3728823 for DOLBY VOLUME for “Digital signal processing chips, integrated circuits, set top cable boxes, satellite receivers, television receivers, digital television receivers, audio and video players and recorders, audio and

video surround sound controllers; electronic equipment for measuring, analyzing and controlling audio volume level; portable audio equipment, namely, portable and handheld digital electronic devices for processing, recording, reproducing, transmitting, receiving, and playing audio and video files; computer software for processing audio and video sound signals and for playing audio files, and computer software that delivers audio sound from DVDs loaded into a computer; multi-channel sound processors; audio/video amplifiers and receivers; cable television receivers and decoders; computer programs having sound generating capabilities, namely, software used to digitally encode and decode multi-channel sound for pre-recorded audio discs; video discs, laser discs, DVD video discs, and DVD audio discs; software used to measure, analyze, and control audio volume level; electronic broadcast signal processors; electronic satellite broadcast processors, and electronic audio encoders and decoders for digital audio sound signals, cable television, high definition television and radio” in Class 9. The application for this registration was filed on January 5, 2007, and the mark was first used with these goods at least as early as December 2007, and has been used continuously in commerce since that time. The application matured into registration on Dec. 22, 2009, and has gained incontestable status.

- No. 1989524 for DOLBY SURROUND for “multi-channel sound processors; integrated circuits; audio and audio-video amplifiers and receivers; television receivers; video monitors; video tuners; audio and video recorders; audio and video tape and disc players and, audio and video tape and disc dubbing decks;

prerecorded audio tapes and discs featuring the spoken word, music, sound effects, entertainment and general information; cable television receivers and decoders; remote control units for these goods; computers; computer programs having sound generating capability; recorded video tapes and discs having the sound of the spoken word, music, sound effects, entertainment and general information; electronic broadcast signal processors; and electronic satellite broadcast signal processors” in Class 9. The application for this registration was filed on October 7, 1994, and the mark was first used with these goods at least as early as June 1985, and has been used continuously in commerce since that time. The application matured into registration on July 30, 1996, and has gained incontestable status.

- No. 2347473 for VIRTUAL DOLBY DIGITAL and Design () for “multi-channel sound processors; integrated circuits; audio/video amplifiers and receivers; television receivers; stereo audio receivers; video monitors; video tuners; audio and video recorders; audio and video disc players; cable television receivers and decoders; computers; and computer programs used for generating, processing and playing audio signals and sounds” in Class 9. The application for this registration was filed on May 20, 1997, and the mark was first used with these goods at least as early as January 1999, and has been used continuously in commerce since that time. The application matured into registration on May 2, 2000, and has gained incontestable status.
- No. 2361147 for DD DOLBY DIGITAL for “Cinema sound processors for motion picture soundtracks; a feature of motion picture cinematographic film

used to digitally process and enhance the recording and playback of sound effects and sound tracks; multi-channel sound processors; integrated circuits; audio/video amplifiers and receivers; television receivers; video monitors; video tuners; audio and video recorders; audio and video disc players; audio and video disc dubbing decks; a feature of pre-recorded audio discs, video discs, laser discs, and DVD video discs used to digitally process and enhance the recording and playback of audio sound, sound effects and sound tracks; cable television receivers and decoders; remote control units for these goods; computers; computer programs used to digitally process and enhance the recording and playback of audio sound, sound effects and sound tracks; electronic broadcast signal processors; and electronic satellite broadcast signal processors” in Class 9. The application for this registration was filed on February 4, 1998, and the mark was first used with these goods at least as early as June 1995, and has been used continuously in commerce since that time. The application matured into registration on June 27, 2000, and has gained incontestable status.

- No. 2484193 for DOLBY DIGITAL for “Apparatus for use in connection with the processing, recording, reproduction, transmission, and reception of electronic signals, namely; cinema sound processors for motion picture sound tracks; a feature of motion picture cinematographic films featuring the spoken word, music, sound effects, entertainment and general information; multi-channel sound processors; integrated circuits; audio/video amplifiers and receivers; television receivers; video monitors; video tuners; audio and video

recorders; audio and video disc players; audio and video disc dubbing decks; a feature of pre-recorded audio discs, video discs, laser discs, DVD video discs, and DVD audio discs; all featuring the sound of the spoken word, music, and sound effects, entertainment and general information; DVD players; cable television receivers and decoders; remote control units for these goods; computers; a feature of computer programs having sound generating capabilities, namely, software used to digitally encode and decode multi-channel sound for pre-recorded audio discs, video discs, laser discs, DVD video discs, and DVD audio discs; electronic broadcast signal processors; electronic satellite broadcast signal processors” in Class 9. The application for this registration was filed on December 2, 1998, and the mark was first used with these goods at least as early as October 1995, and has been used continuously in commerce since that time. The application matured into registration on September 4, 2001, and has gained incontestable status.

- No. 2685790 for DOLBY HEADPHONE for “Digital signal processing chips, integrated circuits, DVD video players, DVD audio players, computers, audio and video surround sound controllers, multimedia speakers, and portable audio equipment, namely, compact-disc players; computer software for playing audio files, and computer software that delivers audio sound from DVDs loaded into a computer “ in Class 9. The application for this registration was filed on November 8, 2001, and the mark was first used in connection with these goods at least as early as May 1, 1999, and has been used continuously in commerce since that time. The application matured into

registration on February 11, 2003, and has gained incontestable status.

- No. 3189853 for DOLBY HOME THEATER for “Computers; Components of computers and other digital devices namely, computer hardware and software used to enhance audio and video sound” in Class 9. The application for this registration was filed on February 9, 2004, and the mark was first used with these goods at least as early as January 5, 2006, and has been used continuously in commerce since that time. The application matured into registration on December 26, 2006, and has gained incontestable status.
- No. 3803652 for DD DOLBY and Design ( DOLBY) for “House mark for a full line of audio and video equipment, apparatus, components and accessories used for generating, processing, measuring, analyzing, recording, amplifying, enhancing, producing, reproducing, transmitting, controlling, testing, receiving and playing, audio signals, files, and sounds, and visual signals, files and images; computer programs, computer software, computer hardware and components of computers and other digital devices used for generating, processing, measuring, analyzing, recording, amplifying, enhancing, reproducing, transmitting, controlling, testing, receiving and playing audio signals, files and sounds, and visual signals, files and images, and instructions manuals for all the aforesaid goods sold as a unit; video game machines for use with televisions or external display screens; video game software; 3-D glasses; wireless telecommunications devices, namely, mobile telephones and handheld electronic digital devices for use in reproducing, transmitting, receiving and playing audio signals, files and sounds, and visual signals, files

and images; components of computer hardware, namely, sound cards and motherboards; integrated circuits, digital signal processing chips; discs and electronic files featuring the spoken word, music, sound effects, entertainment and general information; cinematographic films, cinematographic equipment, alignment and test equipment for apparatus for use in connection with audio and video equipment, apparatus, components, and accessories” in Class 9. The application for this registration was filed on February 7, 2008, and the mark was first used with these goods at least as early as January 7, 2008, and has been used continuously in commerce since that time. The application matured into registration on June 15, 2010.

- No. 3880498 for DOLBY AXON for “Computer software platform for supporting, enabling and enhancing voice and sound experience in multiplayer interactive online computer games and video games” in Class 9. The application for this registration was filed on September 18, 2008, and the mark was used with these goods at least as early as Sept. 15, 2008, and has been used continuously in commerce since that time. The application matured into registration on November 23, 2010, and has gained incontestable status.
- No. 3998602 for DD DOLBY DIGITAL and Design () for “cinematographic film embedded with a feature that digitally processes and enhances the recording and playback of sound effects and sound tracks; multi-channel sound processors; audio/video amplifiers and receivers; television receivers; set-top boxes for receiving television and audio programming; digital media streaming devices; video monitors; video tuners; audio and

video recorders; audio and video disc players; audio and video disc dubbing decks; magnetic, optical and digital storage media, namely, pre-recorded computer discs, compact discs, audio discs, video discs, digital versatile discs, digital video discs, high definition digital discs, optical and magneto-optical discs and downloadable audio and video recordings, embedded with a feature that digitally processes and enhances the recording and playback of audio sound, sound effects and sound tracks contained therein featuring music, sound effects, spoken word, entertainment and general information in the field of sports, travel, health, music, comedy, movies, education, games, fashion, video and computer games, television, radio, literature, politics, economy, finance, books, travel, entertainment in the field of music, comedy and variety shows, ecology, mathematics, science, language, news in the field of entertainment, current events and politics, and art; magnetic storage media, optical storage media and digital storage media, namely, DVDs and downloadable audio and video files featuring music, voice, audiovisual, multimedia, and digital data streams, embedded with information for audio coding, decoding, recording and playback, in the field of sports, travel, health, music, comedy, movies, education, games, fashion, video and computer games, television, radio, literature, politics, economy, finance, books, travel, entertainment in the field of music, comedy, and variety shows, ecology, mathematics, science, language, news in the field of entertainment, current events and politics, and art; cable television receivers and decoders; remote controls for cable television receivers and decoders, televisions; audio/video

amplifiers and receivers, television receivers, set-top boxes for receiving television and audio programming; digital media streaming devices; video monitors; video tuners; audio and video recorders; audio and video disc players; audio and video disc dubbing decks; computer programs used to digitally process and enhance the recording and playback of audio sound, sound effects and sound tracks; electronic broadcast signal processors; portable and handheld digital electronic devices for recording, transmitting, manipulating, and reviewing audio, image and video files; electronic satellite broadcast signal processors; computer and video game consoles for use with an external display screen or monitor” in Class 9. The application for this registration was filed on February 6, 2009, and the mark was used with these goods at least as early as January 7, 2008, and has been used continuously in commerce since that time. The application matured into registration on July 19, 2011.

9. Opposer’s family of DOLBY marks, including but not limited to the above-referenced marks, are collectively referred to as its “DOLBY Marks.” Copies of the TSDR Records for the above-referenced marks are attached as Exhibit 3.

10. Opposer has used Opposer’s DOLBY Marks extensively, exclusively, and continuously throughout the United States and elsewhere since at least as early as 1974, with constructive use priority as early as 1970. Opposer, and its distributors and resellers, have extensively advertised the goods and services offered under Opposer’s Marks, which include, but are not limited to, audio and video equipment, cinematographic films and equipment, and digital media, including television programming. Opposer’s goods and services have been very well

received by the consuming public and has been the subject of positive publicity over the years.

11. By virtue of Opposer's extensive use and promotion of Opposer's Marks, and substantial sales of products and services bearing Opposer's Marks, Opposer has established valuable goodwill in the marks, and the public has come to associate these marks with Opposer. As such, the public has come to know the DOLBY mark in connection with the products and services that originate from Opposer.

12. Opposer also owns extensive common law rights in Opposer's Marks through its long use of Opposer's Marks in connection with various goods and services, as described above.

13. Notwithstanding Opposer's prior rights, on August 8, 2012, Applicant filed U.S. Trademark Application Serial No. 85/698,290 to register Applicant's DOBI.TV Mark for "Downloadable Computer programs for providing information related to the media or broadcasting contents played on a mobile phone or computer; Computer application software for mobile phones, namely, software for providing information related to the media or broadcasting contents played on a mobile phone or computer; Computer software for providing information related to the media or broadcasting contents played on a mobile phone or computer; Downloadable Computer application software for mobile phones, namely, software for providing information related to the media or broadcasting contents played on a mobile phone or computer" in Class 9 ("Applicant's Goods").

14. Opposer is timely filing this Notice of Opposition.

15. Opposer has priority over Applicant. Opposer's DOLBY Mark was first used in commerce more than forty years prior to the filing date of Applicant's Application Serial No. 85/698,290 and long prior to any use by Applicant of Applicant's Mark in U.S. commerce.

16. Opposer owns incontestable registrations for its DOLBY Marks.

17. Applicant filed the Application based on an intent-to-use the mark in U.S. commerce and upon a foreign filing.

18. Applicant's goods are identical to, related to, and/or overlapping with the goods and services Opposer has long offered and provided in connection with the DOLBY Marks, and for which Opposer owns various registrations and has earned worldwide recognition.

19. The most dominant part of Applicant's DOBI.TV mark is DOBI, as the ".TV" suffix is a generic term, and/or a non-source-identifying gTLD that merely indicates the type of entity using the domain name. Accordingly, the commercial impression of the mark is created by the second-level domain name: DOBI. The structural similarity of DOBI and DOLBY render them nearly identical in visual similarity and pronunciation. The addition of the non-source-identifying ".TV" is insufficient to avoid consumer confusion.

20. Applicant's Mark is confusing similar to Opposer's DOLBY Marks.

21. Applicant's goods are identical or highly related to, if not directly competitive with, the goods and services offered under the DOLBY Marks.

22. Opposer owns numerous registrations/applications for DOLBY covering categorically identical or highly related goods and services in International Classes 9, 38, and 41.

23. Opposer uses the DOLBY Marks in connection with computer hardware, computer software, and computer programs for a wide variety of technological purposes, including media content, broadcasting, televisions and television programming, theaters, electronic handheld devices, and mobile phones; and the Application similarly purports to offer "computer programs for providing information related to the media or broadcasting contents played on a mobile phone or computer."

24. With such a high degree of similarity, consumers encountering Applicant's

DOBI.TV Mark in connection with Applicant's Goods, are likely to mistakenly associate the mark with Opposer.

25. As a result of the similarity between Opposer's DOLBY Marks and Applicant's DOBI.TV Mark, and the highly related nature of the parties' respective goods and services, Opposer will be damaged by the registration of Applicant's DOBI.TV Mark. Applicant's DOBI.TV Mark is likely to cause confusion, mistake or deception in the trade and among purchasers as to the source, origin or sponsorship of the parties' respective goods and services in violation of Section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d).

26. Furthermore, any objection complained of in connection with Applicant's Goods marketed under Applicant's DOBI.TV Mark would necessarily reflect upon and seriously injure the reputation that Opposer has established for its goods and services, resulting in damage to Opposer under the provisions of § 43(c) of the Lanham Act, 15 U.S.C. § 1125(c).

27. If Applicant is permitted to register the mark, the registration would presumptively entitle Applicant to *prima facie* exclusive ownership and rights to Applicant's Mark in connection with Applicant's goods. Such registration would cause confusion among consumers as to the separate and distinct sources of Applicant's goods and Opposer's goods and services and the relationship of Opposer and Applicant, thereby damaging Opposer's goodwill in its marks, and resulting in irreparable harm to Opposer's business and reputation, all to the detriment of Opposer, who has expended considerable sums and effort in promoting its marks.

WHEREFORE, Opposer prays that this Opposition be sustained and that registration of U.S. Trademark Application Serial No. 85/698,290 be denied.

Academy Awards

The Academy of Motion Picture Arts and Sciences has honored Dolby Laboratories with Academy Awards for these achievements.

YEAR	CLASS	CATEGORY	RECIPIENT	FOR
2015 (88th)	Scientific and Engineering Award	Scientific/Technical	Trevor Davies, Scott Miller, Matthew Robinson, Jared Smith, and Thomas Wan	Design of the Dolby Professional Reference Monitor series for stable, accurate representation of images with the entire luminance range and color gamut used in contemporary theatrical feature presentation
2014 (87th)	Gordon E. Sawyer Award (Oscar®)	Scientific/Technical	David W. Gray	An individual in the motion picture industry whose technological contributions have brought credit to the industry

2006 (79th)	Award of Commendation	Scientific/Technical	Ioan Allen (Dolby), J. Wayne Anderson, Mary Ann Anderson, Ted Costas (Dolby), Paul R. Goldberg, Shawn Jones, Tom Kuhn, Dr. Alan Masson, Colin Mossman, Martin Richards (Dolby), Frank Ricotta, and Richard C. Sehlin	Contributions to the environmentally responsible industry conversion from silver-based to cyan dye analog soundtracks
2003 (76th)	John A. Bonner Medal of Commendation	Scientific/Technical	Douglas Greenfield	Outstanding service and dedication in upholding the high standards of the Academy of Motion Picture Arts and Sciences
2000 (73rd)	Award of Commendation	Scientific/Technical	Ioan Allen, Robin Bransbury, and Mark Harrah (Disney Co.)	The concept, design, and implementation of the Trailer Audio Standards Association (TASA) Loudness Standard
1998 (71st)	John A. Bonner Medal of Commendation	Scientific/Technical	David W. Gray	Outstanding service and dedication in upholding the high standards of the Academy of Motion Picture Arts and Sciences
1997 (70th)	Scientific and Engineering Award	Scientific/Technical	Kirk Handley, Ray Meluch, Scott Robinson, Wilson H. Allen, and John Neary	Design, development, and implementation of the Dolby CP500 Digital Cinema Processor

1995 (68th)	Scientific and Engineering Award	Scientific/Technical	Dolby Laboratories	Design and development of the SR-D Digital Sound System for motion picture exhibition
1992 (65th)	Scientific and Engineering Award	Scientific/Technical	Claus Wiedemann, Robert Orban, and Dolby Laboratories	Design and development of the Dolby Laboratories "Container"
1988 (61st)	Academy Award® of Merit (Oscar)	Scientific/Technical	Ray Dolby and Ioan Allen	Their continuous contributions to motion picture sound through the research and development programs of Dolby Laboratories
1987 (60th)	Technical Achievement Award	Scientific/Technical	Ioan Allen	The Cat. 43 playback-only unit and its practical application to motion picture sound recordings
1978 (51st)	Scientific and Engineering Award	Scientific/Technical	David P. Robinson, Stephen M. Katz, Ray M. Dolby, Ioan R. Allen, and Philip S. J. Boole	Development and implementation of an improved sound recording and reproducing system for motion picture production and exhibition

Emmy Awards

Following is a list of accolades from the National Academy of Television Arts & Sciences (NATAS) and the Academy of Television Arts & Sciences (ATAS).

DATE OF AWARD	RECIPIENTS	ACHIEVEMENT AND AWARDING GROUP
2015	Dolby Laboratories, Inc. (Vince Voron, Executive Producer, Angus McGilpin, Producer), Moonbot Studios (William Joyce, Executive Producer, Lampton Enochs, Producer & Trish Farnsworth-Smith, Producer)	Outstanding Special Class Animated Program for Silent (NATAS)
2012	Dolby Laboratories, Inc.	Outstanding Achievement in Engineering

DATE OF AWARD	RECIPIENTS	ACHIEVEMENT AND AWARDING GROUP
	ITU-R Study Group 6; International Telecommunications Union; Dolby Laboratories, Inc.; Communications Research Center; Dr. Gilbert Soulodre; and Craig Todd	Development for the Dolby® Professional Reference Monitor PRM-4200 (NATAS) (ATAS)
2012	ITU-R Study Group 6; International Telecommunications Union; Dolby Laboratories, Inc.; Communications Research Center; Dr. Gilbert Soulodre; and Craig Todd	Standardization of loudness metering for use in broadcast audio (NATAS)
2011	Dolby Laboratories, Inc.; Linear Acoustic, Inc.	Development of audio metadata process for conforming audio to the ATSC digital TV standard (NATAS)
2009	Dolby Laboratories, Inc. (Stew Murrie, Farhad Farahani, Patrick Lummis, John Neary, Steve Love, Brett Crockett, and Jeff Riedmiller)	Dolby DP600 Program Optimizer (ATAS)
2009	Advisory Committee on Advanced Television Services (ACATS), Advanced Television Systems Committee (ATSC), Advanced Television	(plaque) Standardization of the ATSC Digital System (NATAS)

DATE OF AWARD	RECIPIENTS	ACHIEVEMENT AND AWARDING GROUP
	Test Center, and the Advanced Television Evaluation Laboratory	
2008	Joint Video Team (JVT) Standards Committee: Dolby Laboratories, Inc. (Walter Gish, Eric Gsell, Walt Husak, Kevin Stec, Alexis Tourapis), with 14 other persons from Broadcom, Docomo, Fraunhofer Heinrich Hertz Institute, Microsoft, Motorola, Panasonic, Sony, and Thomson	(plaque) For developing the H.264/MPEG-4 AVC High Profile (ATAS)
2005	Dolby Laboratories, Inc.	Dolby E audio coding (ATAS)
2004	Dolby Laboratories, Inc.	Dolby LM100 Broadcast Loudness Meter with Dialogue Intelligence™ (ATAS)
2003	Ray Dolby	Charles F. Jenkins Lifetime Achievement Award (ATAS)
2003	Dolby Laboratories, Inc., Jim Fosgate, and Peter Scheiber	Development of surround sound for television (NATAS)

DATE OF AWARD	RECIPIENTS	ACHIEVEMENT AND AWARDING GROUP
1999	Dolby Laboratories, Inc., Philips, Sony, Toshiba, Warner Home Video, and Matsushita	Development of DVD technology (NATAS)
1998	Dolby Laboratories, Inc.	Development of a multichannel digital audio bit-rate reduction system, standardized for the ATSC high-definition and standard- definition television systems, and for worldwide digital versatile discs (NATAS)
1990	Ray Dolby	Outstanding Achievement in Engineering Development: For audio noise reduction systems for professional television tape recorders (NATAS)
1989	Ray Dolby	Outstanding Individual Achievement (NATAS, San Francisco/Northern California Chapter)
