NOTICE OF OPPOSITION

Opposer Atlassian Pty Ltd (“Opposer”), an Australian Proprietary Limited Company with its principal place of business at 341 George Street, Level 6, Sydney, NSW 2000, Australia, believes that it would be damaged by issuance of a registration for the trademark CONFLUENT as applied for in Application Serial No. [86671920](#) (the “Application”), by Confluent, Inc. (the “Applicant”). Accordingly, Opposer, by and through its attorneys, hereby opposes the Application on the following grounds:

1. Opposer is a leading provider of software and related services featuring downloadable and cloud-based collaboration software for teams. It develops and provides a suite of products geared toward software developers, project managers and other teams and offers both

software and cloud-based software as a service (SAAS) in a number of areas including project and issue tracking, collaboration and content sharing, messaging, code collaboration, distributed version control systems, document and database management, continuous integration and deployment, test optimization and code quality, add-ons and training projects. Since as early as November 2003, Opposer has provided software and related cloud-based services for its CONFLUENCE product line. The CONFLUENCE product features collaboration software that allows users to access and share information, data and documents in real time from any location.

2. Opposer is also the owner of the following U.S. trademark registration (“Opposer’s Registration”):

Mark	Reg. No.	Filing Date	Registration Date
CONFLUENCE	3673264	August 12, 2008	August 25, 2009

Copies of Opposer’s Registration are enclosed as **Exhibit A**, along with print-outs from the Trademark Office’s electronic database showing the current status and title of Opposer’s Registration.

3. Since at least as early as November 2003, Opposer has substantially exclusively and continuously used, advertised, promoted and offered for sale software and cloud-based services under its CONFLUENCE mark. Opposer’s software and services are branded with the CONFLUENCE mark and are marketed and sold throughout the United States through Opposer’s website at <https://www.atlassian.com/software/confluence>.

4. As a result of Opposer’s long standing use and extensive advertising and promotion of the aforesaid services, and the quality of the services themselves, Opposer’s mark has attained an enviable reputation and goodwill that is exclusively associated with Opposer by

the consuming public, signifying services of the highest quality. As a result, Opposer's mark and the goodwill symbolized by it are of immeasurable value to the Opposer.

5. On June 23, 2015, Applicant filed the Application to register the following trademark on the Principal Register:

Mark	Ser. No.	Class/Goods
CONFLUENT	86671920	Class 42: Software as a service (SAAS) services, namely, hosting software for use in searching, storing, managing, organizing, processing, streaming and analyzing information and data in real-time; providing online non-downloadable software for use in searching, storing, managing, organizing, processing, streaming and analyzing information and data in real-time

Applicant's Application was published for opposition in the Official Gazette on January 19, 2016. On February 11, 2016, Opposer filed a 90 Day Request for Extension of Time to Oppose, which was granted on February 11, 2016, resulting in a deadline of May 18, 2016 to oppose. Accordingly, this Notice of Opposition is timely filed.

6. Opposer's rights are senior to any rights that Applicant may allege to have in its CONFLUENT Mark because (a) Opposer's Registration registered before the filing date of the Application; and (b) on information and belief, and in light of Applicant's 1(b) filing basis, Applicant may not currently use its mark in commerce.

7. The services listed in the Applicant's Application are highly similar to those listed in Opposer's Registration, and appear likely to be offered in the same commercial channels as the software and related services offered under Opposer's CONFLUENCE mark. Specifically, both the CONFLUENCE and CONFLUENT applications claim non-downloadable software and software-related hosting services in Class 42 that allow for management, searching and storage of information and data.

8. Applicant's CONFLUENT mark so resembles Opposer's CONFLUENCE mark, in sight, sound, meaning, and commercial impression, as to be likely, when applied to the goods named in the Application, to cause confusion or mistake or to deceive, or to create the false impression that Applicant's services are provided by, related to, endorsed by, or associated with Opposer, or otherwise cause injury to Opposer's rights in its CONFLUENCE mark, in violation of Lanham Act §2(d) (15 U.S.C. §1052(d)), with consequent damage to Opposer and the public.

WHEREFORE, it is respectfully requested that this opposition be sustained and that Applicant's Application be denied registration.

Dated: March 30, 2016

Respectfully submitted,

/John M. Kim/
