)	Applicant	

NOTICE OF OPPOSITION

Intuit Inc., and its related and predecessor companies (hereinafter collectively “Opposer” or “Intuit”), a Delaware corporation, having a principal place of business at 2535 Garcia Avenue, Mountain View, California 94041, believes that it will be damaged by the registration of the above-identified mark, and having been granted appropriate extensions of time to oppose the above-referenced application, hereby opposes same. Please charge any additional fees or credit any overpayment to Deposit Account No. (141437).

As grounds for this opposition it is alleged that:

Introduction

1. Intuit brings this Opposition due to the likelihood of confusion between its distinctive and well-known MINT and MINT family of marks and Applicant’s applied-for mark. Since 2007, Intuit’s MINT branded website and corresponding mobile software applications have allowed users to collect, edit, organize, modify, store, monitor, and track their financial data and information, engage in financial planning, and learn about personal finance. Additionally,

over time, Intuit's MINT branded website and corresponding mobile software applications have expanded to allow users to collect and monitor their credit ratings data, make payments on their mortgages and other bills (including payment processing services relating to these transactions), and set and monitor financial goals. Applicant's applied-for mark CATCHMINT incorporates the MINT mark, and like Opposer's MINT marks, is allegedly used in conjunction with goods related to computer software for the collection, editing, organization, modification, storage and manipulation of data, and other related goods and services. Such use is likely to cause confusion for the reasons described herein.

Applicant's Application

2. Application Serial No. 86/669,075 filed on June 20, 2015 to register the mark CATCHMINT for the goods "Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer software for intellectual rights management; Computer software, namely, software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content and other data for the facilitation of communications between two or multiple users via computer networks, communication networks and the global information network; computer software development tools; computer software for use as an application programming interface (API) for communications software facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Computer software that provides real time translations of text and messages exchanged between users to allow for multilingual communications" in International Class 9 was published for opposition in the Official Gazette of November 10, 2015 at page TM 3710.

3. This Notice of Opposition is timely filed. Three extensions of time to oppose Application Serial No. 86/669,075 were obtained, and the Trademark Trial & Appeal Board of the United States Patent and Trademark Office (“TTAB”) extended the time to oppose these two applications to May 8, 2016, which date fell on a Sunday, making the deadline to oppose May 9, 2016.

Intuit and its Flagship Brands Including its MINT Brand

4. Intuit, founded in 1983, provides software and services in a variety of accounting, small business, and personal finance areas. Intuit’s flagship products – QuickBooks, TurboTax, and Mint – define the company’s commitment to revolutionize the way people manage their personal finances, run small businesses, and manage taxes.

5. Intuit is the owner of multiple U.S. federal trademark registrations and applications featuring the trademark MINT listed in the table below and in the attached Exhibits A - E (the MINT Marks). These registrations and applications include computer software services, financial services, editorial content services, payment services, payment processing services, and money transfer services.

Mark	SN or Registration No.	Goods and Services

MINT	SN: 86313032 Priority Date: Dec. 18, 2013 Filing Date: Jun. 18, 2014	<u>Class 9</u> : Computer software for personal and small business financial management; computer software for online banking, transaction management, financial planning, financial management, bill tracking and management, expense tracking and management, accounting, and taxable item tracking and management; computer software for creating reports and graphs; computer software for forecasting and analysis of data; computer software for data aggregation; computer software for providing banking, financial and bill payment alerts; computer software for providing wireless access to data and databases; computer software for enabling users to retrieve financial account balances and financial transaction information using mobile phones, smart phones, and mobile telecommunication networks <u>Class 35</u> : Providing information, news, opinions and advice in the fields of accounting, tax preparation and planning, including via computer and communication networks, the internet, and social media; providing commercial information on, and comparisons of, the products and services of others, including through computer and communication networks, the internet, and social media; providing comparison of shopping services, including through

		<p>computer and communication networks, the internet, and social media; providing economic forecasting and analysis, including through computer or communication networks, the internet, and social media; taxable item tracking and management, namely, tracking of taxable income and expense data for the purpose of personal and business tax planning and filing</p> <p><u>Class 36</u>: Personal and small business financial management services; online banking; financial transaction services, namely, budget planning in the nature of income and expense transaction tracking; financial planning; financial management; financial analysis; bill payment services in the nature of scheduling and payment of bills; financial management services, namely, tracking of personal and business expenses; forecasting and analysis of financial data; financial data aggregation, namely, electronically collecting financial data from multiple accounts into a single location for financial review analysis; financial administration and management services for the management of credit and debit cards, loans, mortgages, investments and financial accounts; providing information, news, opinions and advice in the fields of banking, financial management, saving and financial planning and retirement financial planning, including via computer and communication networks, the internet, and social media; providing information, news, opinion and advice in the fields of personal budgeting and household budgeting, including via computer and communication networks, the internet, and social media; providing financial information, news, opinions and advice in the field of consumer spending, including via computer and communication networks, the internet, and social media</p>
--	--	---

6. U.S. Federal Registration 3,526,377 is in full force and effect, was declared incontestable on September 26, 2014, and matured to registration well before the January 1, 2015 first use in commerce date alleged in Application No. 86/669,075.

7. In 2009 Intuit purchased its predecessor-in-interest Mint Software, Inc., acquiring all of Mint Software, Inc.'s registered and common law trademark and trade name rights, including all goodwill associated therewith, as well as all other intellectual property rights, including but not limited to all rights in the above-referenced Registration No. 3,526,377 (MINT AND DESIGN Mark) and the word mark "MINT" (the Mint Word Mark).

8. Since the acquisition of Mint Software Inc. in 2009, Intuit has continued the use of the MINT AND DESIGN Mark and MINT Word Mark, and Intuit has been engaged continuously in the development, distribution and provision of a personal financial management service, enabled by a computer software platform and a range of software applications (desktop, web-based and mobile applications) for collection, editing, organization, modification, storage, monitoring, and tracking of personal and small business financial data. Intuit has continued to use the MINT Marks for related services (like alerts and financial editorial content services), and has provided web-based, automated and customized personal financial management, aggregation of personal data, personal data tracking services, and related computer software enabling users to retrieve financial account balance and transaction information via all major technology platforms, including the Web, the Apple iOS platform, the Android platform, the Windows platform and the Mac OS X platform. Intuit has also continued to expand its business in association with the MINT Marks in the course of its normal business activities, including enabling users to obtain credit score data, make payments, and providing the payment processing services for those payments. Intuit's expansion of its services also includes the ability to collect,

edit, organize, modify, store, and track digital currency account data, transaction data and balance data. The goods and services listed above are hereinafter referred to collectively as the “MINT Goods and Services.” Intuit also owns common law trademark rights in the MINT Marks for the MINT Goods and Services.

9. Intuit also has used and uses multiple trademarks comprising the term MINT plus another word or multiple words, and currently is using the marks MINT BILLS, MINTLIFE, MINT HELP, MY MINT STORY, and MINTFAMILY. Previously, Intuit also used the mark MINTANSWERS from May of 2010 to August of 2011, MINTSTYLE from February of 2012 to February of 2013 and MINT QUICKVIEW from July of 2012 to November of 2015. For the marks currently in use, the MINT BILLS mark has been in continuous use for payment processing, electronic payments, computer software relating to those services, and related services since at least as early as December 2, 2014 (which mark is registered as USPTO federal trademark Registration No. 4869554); the MINTLIFE mark has been in continuous use for financial information and editorial content services related to personal finance (including health-related expenditures and health insurance) since at least as early as August 4, 2009 (which mark is registered as USPTO federal trademark Registration No. 4820578); the MINT HELP mark has been in continuous use for personal financial services support provided to end-users since at least as early as June 14, 2011; the MY MINT STORY mark has been in continuous use in connection with editorial content services related to personal finance since at least as early as May 11, 2012; and the MINTFAMILY mark has been in continuous use for financial information and editorial content services related to personal finance and family goals since at least as early as February 27, 2012. Collectively the MINTLIFE, MINT HELP, MY MINT STORY, and MINTFAMILY trademarks are referred to herein as “the MINT Formative Marks.”

10. Each of the MINT Formative Marks, as well as the predecessor marks alleged in Paragraph 7 above, contains the distinctive element MINT.

11. Intuit used (and continues to use) a substantial number of the MINT Formative Marks, prior to Applicant's trademark filing for its CATCHMINT mark which is the subject of this opposition, in such a manner as to create public recognition coupled with an association of common origin predicated on the MINT element and/or the MINT element plus a word or multiple words (individually and/or collectively the "MINT Family Feature").

12. Intuit uses the marks alleged herein, including the MINT Formative Marks, on its website in connection with its various services in such a manner that consumers viewing the website are generally exposed to some or all of the MINT Formative Marks when looking at or using Intuit's tools and services available through its website. For example, consumers will encounter these marks together much as one might see marks with a common feature used throughout a catalog or brochure.

13. Intuit uses and promotes the marks alleged herein, including the trademarks MINT BILLS, MINTLIFE, MINT HELP, MY MINT STORY, and MINTFAMILY, on its website and in a variety of social media marketing activities. For example, Intuit uses its website to offer a variety of tools or services to consumers (actual or potential customers of Intuit's offerings) to collect, edit, organize, store, track, and manage their financial information, and also uses social media to market its products and services. The MINT Formative Marks are used by Intuit throughout its website and multiple of these marks are used in Intuit's social media marketing activities in connection with different MINT Goods and Services. These uses are in connection with different but related services offered by Intuit under the MINT brand and as a result consumers are generally exposed to several of the MINT Formative Marks when

reviewing or using Intuit's MINT website or when visiting Intuit's social media offerings. As a result of these uses of the MINT Formative Marks, all of which are available to both registered and unregistered visitors to the MINT.COM website, consumers associate Intuit's marks alleged herein bearing the MINT Family Feature with a common source.

14. Intuit's MINT Formative Marks are used by Intuit in a manner that creates public recognition and association of the MINT Family Feature with a single source. As a result, Intuit has developed a family of marks of which the common feature is the distinctive MINT element and a common term (the "family of MINT formative marks").

15. Intuit promotes and advertises, and has expended considerable resources and sums to promote and advertise, the MINT Marks, the MINT Formative Marks, and effectively its family of MINT formative marks in association with the MINT Goods and Services.

16. Intuit provides the MINT Goods and Services to registered users, including through its MINT website and through MINT branded mobile software applications for Apple "iOS" and Google "Android" operating systems, the first such software application of which was launched as early as December 2008. The website and corresponding mobile applications allow users to access the services, to collect, edit, organize, store, measure and manage personal finances and personal data, to receive bills, to pay bills, to track those bills and bills payments, and Intuit provides the payment processing for those payments. Intuit's MINT mobile software applications are now the most popular non-bank personal finance mobile applications in the U.S. market. Intuit's MINT business has garnered over 20 million registered users across North America since 2007 and Intuit has won multiple awards for its MINT Goods and Services (and related applications) from various nationally-recognized technology media outlets.

17. In addition to its federal trademark rights based upon its U.S. trademark Registration Nos. 4,869,554, 3,526,377, 4,820,578, and 4,929,239, and Application No. 86/313,032, Intuit also owns common law trademark rights separately in the each of the marks: MINT Word Mark, the MINT AND DESIGN Mark, the MINT LEAF Marks as depicted in U.S. trademark Application Nos. 86/481,189 and 86/923,915, each of the MINT Formative Marks, and in its family of MINT formative marks.

18. As a result of Intuit's use of the MINT Word Mark and MINT AND DESIGN Mark, as well as each of the MINT Formative Marks and/or its family of MINT formative marks, and in view of Intuit's extensive advertising, promotion and sale of the goods and services in association with these trademarks, the MINT Word Mark is distinctive and well known to the relevant trade and public as identifying and distinguishing Intuit's MINT Goods and Services.

19. As a result of Intuit's use of the MINT Word Mark and MINT AND DESIGN Mark, as well as each of the MINT Formative Marks and/or its family of MINT formative marks, and in view of Intuit's extensive advertising, promotion and sale of the goods and services in association with these trademarks, the MINT Word Mark, MINT AND DESIGN Mark, and MINT Formative Marks are distinctive and well known to the relevant trade and public as identifying and distinguishing Intuit's MINT Goods and Services.

20. As a result of Intuit's use of the MINT Word Mark and MINT AND DESIGN Mark, as well as each of the MINT Formative Marks and/or its family of MINT formative marks, and in view of Intuit's extensive advertising, promotion and sale of the goods and services in association with these trademarks, each of the MINT Formative Marks and/or its family of MINT formative marks is distinctive and well known to the relevant trade and public as

identifying and distinguishing the services identified in Paragraphs 8-9 above and also Intuit's MINT Goods and Services.

Applicant's Similar Goods and Services

21. Applicant allegedly uses CATCHMINT in connection with "Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; Computer software for intellectual rights management; Computer software, namely, software for the transmission, recording, reproduction, display, organization, management, manipulation and review of messages, text, images, files, audio, video and audio-visual content and other data for the facilitation of communications between two or multiple users via computer networks, communication networks and the global information network; computer software development tools; computer software for use as an application programming interface (API) for communications software facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Computer software that provides real time translations of text and messages exchanged between users to allow for multilingual communications" in International Class 9.

Applicant's Similar Mark

22. The applied-for mark, CATCHMINT, fully incorporates Opposer's distinctive MINT mark. Additionally, Applicant's mark is similar to Opposer's MINT Formative marks, because both contain the distinctive element MINT accompanied by a descriptive word or words, such as "life," "help," or "style," -- in the case of Opposer's MINT Formative marks -- and "catch" as in the case of Applicant's mark.

23. On information and belief, like Opposer, Applicant allegedly provides its products and services through a global computer network and/or through web- and/or mobile-based software applications and/or mobile devices.

24. On information and belief, Applicant's goods and services will be offered to at least some of the same classes of consumers and through at least some of the channels of trade as the MINT Goods and Services are offered under Intuit's MINT Marks. As applied to Applicant's goods and services, the CATCHMINT mark so resembles Intuit's MINT Marks as alleged herein as to be likely to cause confusion, or to cause mistake, or to deceive as to the source of the goods/services.

25. On information and belief, Applicant's goods and services will be offered to at least some of the same classes of consumers and through at least some of the channels of trade as the MINT Goods and Services above are offered under the MINT Formative Marks. As applied to Applicant's goods and services, the CATCHMINT mark so resembles each of the MINT Formative Marks as to be likely to cause confusion, or to cause mistake, or to deceive as to the source of the goods/services.

26. On information and belief, Applicant's goods and services will be offered to at least some of the same classes of consumers and through at least some of the channels of trade as the MINT Goods and Services are offered in connection with Intuit's family of MINT formative marks. As applied to Applicant's goods and services, the CATCHMINT mark so resembles Intuit's MINT Marks and family of MINT formative marks since the CATCHMINT mark contains the distinctive MINT element and/or since the CATCHMINT mark contains the distinctive MINT element accompanied by a descriptive word as to be likely to cause confusion, or to cause mistake, or to deceive as to the source of the goods/services.

27. Opposer will be damaged by Applicant's registration of the CATCHMINT mark for the goods and services identified in the 86/669,075 application as a result of the aforementioned confusion, mistake and deception.

WHEREFORE, Opposer prays that this Opposition be sustained, and the registration sought by Applicant be refused.

Dated: May 9, 2016

Respectfully submitted,

/Katherine M. Basile/

Katherine M. Basile
