BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

S&C Electric Co.,

Opposer,

v.

Ranial System Inc. dba Ranial System Inc.,

Applicant.

Serial No. 86/700,441

Opposition No. _____

Mark: IntelliEMS

NOTICE OF OPPOSITION

S&C Electric Co. (“S&C”), a Delaware corporation with a place of business at 6601 North Ridge Boulevard, Chicago, Illinois 60626, United States, believes that it will be damaged by the registration of the mark IntelliEMS, assigned Application Serial No. 86/700,441, for various goods in International Classes 4 and 9 (the “Opposed Mark”), applied for by Ranial System Inc. dba Ranial System Inc. (“Applicant”), a New Jersey corporation with a place of business at 100 Franklin Square Drive, Suite 210, Somerset, New Jersey 08873.

S&C hereby opposes registration of the Opposed Mark on the basis of a likelihood of confusion under Section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d), and lack of *bona fide* intent to use the Opposed Mark under Section 1(b) of the Lanham Act, 15 U.S.C. § 1051(b).

In support of its Opposition, S&C states as follows:

S&C’s Family of Well-Known “INTELLI” Marks

1. S&C is a leading provider of switching, protection, and control solutions for electric power systems. In addition, S&C offers a wide range of engineering, laboratory, and testing services for electric utilities and commercial, industrial, and institutional power systems.

2. Since at least as early as 1995, S&C has adopted and used a family of marks beginning with “INTELLI” for various computer software programs, communication system devices, and

related apparatus and instruments in the field of electric power systems, and S&C has obtained common law rights in its family of INTELLI- marks through its continuous and extensive use of the marks.

3. Additionally, S&C owns the following trademark registrations on the Principal Register of the United States Patent and Trademark Office (“USPTO”):

Mark	Reg. No.	Status
INTELLICAP	2,100,230	Incontestable
INTELLICAP PLUS	2,684,714	Incontestable
INTELLICOM	4,129,462	Registered
INTELLILINK	2,502,422	Incontestable
INTELLIRUPTER	3,503,034	Incontestable
INTELLITEAM	2,098,255	Incontestable
INTELLITEAM DESIGNER	4,084,738	Registered
INTELLITEAM SG	3,979,139	Registered

A schedule listing these registrations, true and correct copies of each registration certificate, and the current Trademark Status and Document Retrieval status page for each registration are attached hereto as Exhibit A (hereinafter the “INTELLI- Registrations”). S&C’s foregoing trademark registrations and common law rights are hereinafter collectively referred to as the “INTELLI- Marks.”

4. S&C has expended substantial sums of money in marketing, advertising, and promoting its INTELLI- Marks and, through such sales and advertising, has generated substantial goodwill and customer recognition in its INTELLI- Marks. As a result, the public has come to associate the INTELLI- Marks exclusively with S&C.

5. S&C has derived substantial revenues from the sale of its products and services under the INTELLI- Marks.

6. S&C’s extensive use and advertising of the INTELLI- Marks has resulted in consumer recognition that the INTELLI- Marks identify S&C as the source of products and services of

high quality. The INTELLI- Marks are distinctive of S&C's products and services and are well known, and valuable goodwill has been generated in the INTELLI- Marks. Such goodwill was generated long before Applicant's filing date for the Opposed Mark on July 21, 2015.

7. The INTELLI- Marks have been so extensively used and advertised together that the INTELLI- family "surname" is recognized by consumers as an identifying trademark or service mark in and of itself when it is combined with or followed by additional letters or terms. As a result, the INTELLI- Marks constitute an easily recognizable family of marks that identify S&C as the source of the goods and services provided.

Count I: Likelihood of Confusion
15 U.S.C. § 1052(d)

8. S&C reasserts and incorporates Paragraphs 1 through 7 above as if fully set forth herein.

9. On July 21, 2015, long after S&C commenced use of the INTELLI- Marks in association with S&C's aforementioned products and services, Applicant filed Application Serial No. 86/700,441, seeking registration of the Opposed Mark for use in connection with "Electrical energy; Renewable energy, namely, solar energy, wind energy and geothermal energy" in Class 4 and "Automated process control system, namely, micro-processor based hardware and software used to monitor the status of industrial processes, namely, power generation, electrical distribution and oil and gas processing; Battery monitoring devices that may be attached to a battery to monitor the performance of the battery and operating software for use therewith, sold as a unit; Broadband power line communication systems for transferring broadband data over electrical power lines, comprised of computer hardware, software and modems; Compiler software; Computer software for wireless content delivery; Computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; Electrical energy utilization

metering devices complete with related software; Electrical leak detection hardware and operating software; Electronic communications systems comprised of computer hardware and software for the transmission of data between two points; Home and office automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, HVAC, security, safety and other home and office monitoring and control applications; Home and office electrical power automation systems comprising wireless and wired controllers, controlled devices, and software for appliances, lighting, HVAC, security and other home and office electrical power monitoring and control applications; Pipeline communication systems for transferring data over oil, gas, water and heat distribution pipeline networks, comprised of computer hardware, software, modems and communication cables; Software for monitoring and controlling communication between computers and automated machine systems; Software programmable microprocessors; Telecommunications hardware and software for monitoring and alerting remote sensor status via the Internet” in International Class 9.

10. Applicant’s Opposed Mark, when used on or in connection with the applied-for goods, is likely to cause confusion, mistake, or deception that Applicant's goods are those of S&C or are otherwise endorsed, sponsored, or approved by S&C, or cause confusion, mistake, or deception as to the affiliation, connection, or association between Applicant and S&C.

11. S&C believes that it would be damaged by the registration sought herein by Applicant because such registration would support and assist Applicant in the confusing and misleading use of Applicant’s Opposed Mark and would give color of exclusive statutory rights to Applicant in violation and derogation of the prior superior rights of S&C.

12. Accordingly, Applicant’s application to register the Opposed Mark must be refused registration under Section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d), as amended.

Count II: Lack of *Bona Fide* Intent
15 U.S.C. § 1051(b)

13. S&C reasserts and incorporates Paragraphs 1 through 12 above as if fully set forth herein.

14. The Opposed Mark is void *ab initio* because Applicant lacked the requisite bona fide intent to use the Opposed Mark in commerce under Section 1(b), 15 U.S.C. § 1051(b), on or in connection with the goods listed in Application Serial No. 86/700,441, as of the filing date of the application on July 21, 2015.

PRAYER FOR RELIEF

WHEREFORE, S&C prays that the Opposed Mark shown in Application Serial No. 86/700,441 be refused registration, and that this Notice of Opposition be sustained in favor of S&C.

Respectfully submitted,

S&C Electric Co.

David J. Kyffers

Director of the United States Patent and Trademark Office

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

Requirements in the First Ten Years*

What and When to File:

First Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. *See* 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

Second Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.*
See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**The United States Patent and Trademark Office (USPTO) will NOT send you any future notice or
reminder of these filing requirements.**

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the USPTO. The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. *See* 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. *See* 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

Requirements in the First Ten Years*

What and When to File:

First Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. *See* 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

Second Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.*
See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**The United States Patent and Trademark Office (USPTO) will NOT send you any future notice or
reminder of these filing requirements.**

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the USPTO. The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. *See* 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. *See* 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.
