

ESTTA Tracking number: **ESTTA755871**

Filing date: **07/01/2016**

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Notice of Opposition

Notice is hereby given that the following party opposes registration of the indicated application.

Opposer Information

Name	TRUPHONE LIMITED
Granted to Date of previous extension	07/03/2016
Address	25 Canada Square Canary Wharf London, E14-5LQ UNITED KINGDOM
Attorney information	LEIGH ANN LINDQUIST Sughrue Mion, PLLC 2100 Pennsylvania Avenue NW WASHINGTON, DC 20037 UNITED STATES tm@sughrue.com, llindquist@sughrue.com, vmullineaux@sughrue.com Phone:202.663.7409

Applicant Information

Application No	86521332	Publication date	01/05/2016
Opposition Filing Date	07/01/2016	Opposition Period Ends	07/03/2016
Applicant	Spectra Systems Corporation 321 S. Main Street, Suite 102 Providence, RI 02903 UNITED STATES		

Goods/Services Affected by Opposition

Class 009. First Use: 0 First Use In Commerce: 0 All goods and services in the class are opposed, namely: Labels carrying magnetically, chemically or spectrally recorded or encoded information; downloadable software in the nature of a mobile application for reading or decoding magnetically, chemically or spectrally recorded or encoded information
Class 035. First Use: 0 First Use In Commerce: 0 All goods and services in the class are opposed, namely: Business consulting services, namely providing consulting on strategy for tracking customer and market information, and identifying and authenticating merchandise
Class 042. First Use: 0 First Use In Commerce: 0 All goods and services in the class are opposed, namely: Consulting services pertaining to the technology of recording or encoding information for identification and authentication, and reading or decoding recorded or encoded information for identification and authentication; consulting services in the field of tracking customer and market information, and product identification and authentication; non-downloadable software for accessing information about the identification and authentication of products and for tracking customer and market information

Goods/Services	<p>Class 009. First use: First Use: 0 First Use In Commerce: 0</p> <p>Telecommunications, telephonic and communications apparatus and instruments, namely, radio telephones, mobile and fixed telephones; digital telecommunications apparatus, namely, telephones, switches, routers; software for connecting and providing access to communication apparatus and instruments, namely, apparatus for transmission of communication; software that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; software featuring voice over Internet protocol (VOIP) technology or GSM (Global System for Mobile Communications) that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; computer game programs; computer game software incorporating computer games; electronic satellite navigational and positional apparatus and instruments and global positioning systems; software that enables the location of wireless communication networks and computer networks; software incorporating address book management systems and contact management systems for organizing and managing addresses; electrical and electronic accessories and peripheral equipment designed for use with telecommunications and communications apparatus, computers, computer networks, namely, mouse, keyboards, battery chargers, headsets, hands free kits for phones, headphones, adapter plugs for telephones;</p>		

software for secure data storage and retrieval and transmission of confidential customer information used by individuals, companies and financial institutions; computer hardware and software used to identify subscribers on telecommunications apparatus and SIM cards; magnetically encoded credit cards, debit cards and payment cards and cards containing an integrated circuit chip (smartcards); magnetically encoded identity cards; magnetically encoded club membership cards; magnetically encoded loyalty cards; Subscribed identity module (SIM) cards for cellular telephones; radio frequency identification devices in the nature of transponders; radio, television, cable and satellite recordings featuring information regarding voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment; media for storage and reproduction of sound and visual images, namely, blank digital storage media; sound and video recordings featuring information regarding voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment; interactive and multi-media software featuring information regarding voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment; electronic media apparatus, namely, electronic book reader; mouse pads and other computer accessories, namely, mice, keyboard anti-static mats, data transmitters and receivers, print selector switches, auto data switches, network adapter cards, power surge protection bars, computer systems mounting racks and stands; publications in electronic form in the nature of user guides and customer magazines in the field of voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment; computer game software incorporating computer games for mobile telephones; software featuring voice over Internet protocol (VOIP) technology for providing telecommunications access; communications software featuring GSM (Global System for Mobile Communications) for providing telecommunications access; downloadable computer games delivered via telecommunications and wireless communications networks; computer programs for sales purposes, namely, an application allowing sales and field service employees to update and receive data stored in an enterprise's computer databases in real time, using a mobile device, with full telephony integration with the telephone and/or software features of the mobile device; Computer programs for sales purposes, namely, an application for use with computer databases of customer or potential customer data, for marketing use by sales employees

Class 035. First use: First Use: 0 First Use In Commerce: 0

Operation and administration of telecommunications systems featuring voice over Internet protocol (VOIP) technology or GSM (Global System for Mobile Communications) for others; operation of telecommunication systems featuring multiple mobile subscriber identity module technology; providing online directory information services also featuring hyperlinks to other websites; business management advisory services; advertising services, and on-line and interactive media advertising services; online business and professional networking services; the organization, operation and supervision of loyalty and incentive programs; market and public opinion polling; the management of market research campaigns by mail, telephone, SMS, interview or via the Internet; advertising services provided via the Internet; production of television, radio and print advertisements; production of online and interactive advertising; accountancy services; business data analysis services; organizing trade fairs; data processing and database management services; provision of business information and competitive industry information; marketing in the nature of promoting or advertising the goods and services of others, namely, computer software, hardware, and telecommunications, telephonic and communications apparatus and instruments; marketing in the nature of promoting or advertising the goods and services of others, namely, telecommunications services; marketing services in the nature of promoting or advertising the goods and services of others provided via

telecommunications; marketing services in the nature of promoting or advertising the goods and services of others provided via a global network; direct mail advertising; business data analysis; data based stock control in the nature of inventory control; data based stock location services in the nature of inventory management; clerical services for the taking of sales orders; sales promotion services; retail store and online retail store services in the field of computer software, hardware, and telecommunications, telephonic and communications apparatus and instruments, and parts and fittings therefor; presentation of communications goods on communication media, for retail purposes; administrative processing of purchase orders; arranging subscriptions to telecommunication services for others; providing on-line directory information services also featuring hyperlinks to other websites; the bringing together, for the benefit of others, of computer software, hardware, and telecommunications, telephonic and communications apparatus and instruments, and parts and fittings therefor, enabling customers to conveniently view and purchase those goods in a retail store, from an Internet website, from a mail order catalogue or by means of telecommunications

Class 038. First use: First Use: 0 First Use In Commerce: 0

Telecommunications access services; communications services, namely, wireless electronic transmission of voice, data, images, audio, video, signals, software, information, games, ring tones and messages, and wireless roaming communication services; providing access to telecommunications networks via wireless communications and computer networks; communications services, namely, telephone message collection and transmission, mobile telephone message collection and transmission, message collection and transmission, radiopaging, call diversion, phone answering in the nature of voice mail services, directory enquiries and electronic mail services; transmission, electronic delivery and reception of sound, data, images, games, music and information; personal numbering services in the nature of telephony communications services; providing telecommunications connections to computer databases, the Internet or other electronic networks; providing user access to the Internet; providing access to databases including through wireless networks; electronic delivery of audio, video and data by telecommunications; communications services, namely, electronic transmission of audio, video and other data and documents among computers; provision of advice and information in relation to the aforesaid communications and communication technologies services

Class 041. First use: First Use: 0 First Use In Commerce: 0

On-line non-downloadable publications in the nature of user guides and customer magazines in the field of voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment; educational services, namely, conducting programs in the field of voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment; educational services, namely, design and development of training programs for telecommunications systems and services; organizing entertainment, sporting and cultural exhibitions for entertainment purposes; electronic games services provided by means of the Internet; organizing seminars, conferences and exhibitions in the field of communication goods and services; providing on-line non-downloadable electronic publications in the nature of user guides and customer magazines in the field of voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment from the Internet; electronic publishing services in the nature of publishing of electronic publications; Multimedia entertainment services in the nature of recording, production and distribution of films, video and audio recordings, radio and television programs; organizing awards events relating to communications services for entertainment purposes; providing non-downloadable computer games delivered via telecommunications and wireless communications networks

	<p>Class 042. First use: First Use: 0 First Use In Commerce: 0 Provision of internet search engines; computer software services, namely, troubleshooting of computer software problems via a call in help-desk, online help-desk and via chat and emails; industrial analysis and research services in the field of telecommunications services; Scientific and technological services, namely, scientific analysis and research services relating to telecommunications services; Scientific and technological services, namely, scientific analysis and research services relating to computer hardware and software; design and development of telecommunications hardware and software, and parts and fittings therefor; design and development of computer hardware, computer games and software, and parts and fittings therefor; design, development of websites; creating, maintaining or hosting web sites for others in the field of communication goods and services; installation, maintenance and repair of computer software; design and development of online programming content and interactive media</p> <p>Class 045. First use: First Use: 0 First Use In Commerce: 0 Legal services relating to telecommunications; intellectual property services; legal research and development of intellectual property</p>

TRUPHONE	4869517
TRUFIND	4887617

4. Truphone is also the owner of pending U.S. Trademark Application Serial No. 85/832,769 for the mark TRUPHONE (stylized).

5. Copies of the status information for the registrations mentioned in paragraph 3 and the application mentioned in paragraph 4 above are attached hereto as Exhibit 1. Together these marks are hereinafter referred to as the TRU Marks.

6. Applicant, Spectra Systems Corporation, has applied to register the following trademarks:

Mark	Serial No.	Goods/Services
	86521332	<p>Labels carrying magnetically, chemically or spectrally recorded or encoded information; downloadable software in the nature of a mobile application for reading or decoding magnetically, chemically or spectrally recorded or encoded information, in Class 9</p> <p>Business consulting services, namely providing consulting on strategy for tracking customer and market information, and identifying and authenticating merchandise, in Class 35</p> <p>Consulting services pertaining to the technology of recording or encoding information for identification and authentication, and reading or decoding recorded or encoded information for identification and authentication; consulting services in the field of tracking customer and market information, and product identification and authentication; non-downloadable software for accessing information about the identification and authentication of products and for tracking customer and market information, in Class 42</p>
TRUBRAND	86521569	<p>Labels carrying magnetically, chemically or spectrally recorded or encoded information; downloadable software in the nature of a mobile application for reading or decoding magnetically, chemically or spectrally recorded or encoded information, in Class 9</p> <p>Business consulting services, namely providing consulting on strategy for tracking customer and market information, and identifying and authenticating merchandise, in Class 35</p> <p>Consulting services pertaining to the technology of recording or encoding information for identification and authentication, and reading or decoding recorded or encoded information for identification and authentication; consulting services in the field of tracking customer and market information, and product identification and authentication; non-downloadable software for accessing information about the identification and authentication of products and for tracking customer and market information, in Class 42</p>

7. Both these applications filed by Applicant were filed on February 2, 2015, based on an intent to use the marks in connection with the goods and services listed in the applications. Together these marks are hereinafter referred to as "TRUBRAND marks".

8. Applicant was on constructive notice of Opposer's TRU Marks and registrations at the time Applicant filed its applications to register the TRUBRAND marks by virtue of Section 22 of The Lanham Act, 15 U.S.C. §1072.

9. The goods and services in the opposed applications are related to Opposer's goods and services sold under its TRU Marks. Applicant's goods and services would be likely to be thought to have emanated from the same source as Opposer's goods and services, or to have been approved, endorsed or sponsored by Opposer, or to be related to Opposer's goods and services.

10. The trademarks in the opposed applications, as applied to the goods and services set forth in that applications, are confusingly and deceptively similar to Opposer's previously used and registered TRU Marks.

11. Opposer believes and therefore alleges that the use and registration of the alleged TRUBRAND marks by Applicant will damage Opposer, for the reasons, among others:

a. That purchasers and persons in the trade will be deceived as to the source and origin of Applicant's goods and services sold and offered under the TRUBRAND marks; and

b. Purchasers, persons in the trade and others will assume, contrary to fact, that Applicant's goods and services are associated with, approved by, sponsored by or otherwise related to Opposer.

12. Registration of the marks sought by Applicant herein are barred by the provisions of Section 2(d) of the Trademark Act of 1946 for the reason that they consist of or comprise marks which so resemble Opposer's previously used and registered trademark, when applied to the goods and services of Applicant, to cause confusion, mistake or deception.

WHEREFORE, it is respectfully requested that this opposition be sustained and that registration to Applicant be refused.

With this electronic submission, authorization is provided to debit a credit card of the undersigned in the amount of \$1800 for the government filing fee in connection with this Notice of Opposition. Please charge any difference or credit any overpayment to the undersigned's Deposit Account No. 19-4880.

Respectfully submitted,

TRUPHONE LIMITED

Mark: TRU

TRU

US Serial Number: 85180189

Application Filing Date: Nov. 18, 2010

US Registration Number: 4181663

Registration Date: Jul. 31, 2012

Register: Principal

Mark Type: Trademark, Service Mark

Status: Registered. The registration date is used to determine when post-registration maintenance documents are due.

Status Date: Jul. 31, 2012

Publication Date: May 15, 2012

Mark Information

Mark Literal Elements: TRU

Standard Character Claim: Yes. The mark consists of standard characters without claim to any particular font style, size, or color.

Mark Drawing Type: 4 - STANDARD CHARACTER MARK

Color(s) Claimed: Color is not claimed as a feature of the mark.

Foreign Information

Foreign Registration Number: 2421751

Foreign Registration Date: Jul. 27, 2007

Foreign Application/Registration Country: UNITED KINGDOM

Foreign Expiration Date: May 12, 2016

Goods and Services

Note: The following symbols indicate that the registrant/owner has amended the goods/services:

- Brackets [...] indicate deleted goods/services;
- Double parenthesis ((.)) identify any goods/services not claimed in a Section 15 affidavit of incontestability; and
- Asterisks *..* identify additional (new) wording in the goods/services.

For: Telecommunications, telephonic and communications apparatus and instruments, namely, telephone switchers and routers, telephone memory cards, wireless access points, wireless routers, wireless repeaters; radio telephones, mobile and fixed telephones; digital telecommunications apparatus, namely, telephones; software for communication apparatus and instruments, namely, software that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; software and apparatus featuring voice over Internet protocol (VOIP) technology; computer games software; software incorporating computer games; electronic and satellite navigational and positional apparatus and instruments including global positioning systems; software that enables the location of wireless communication networks and computer networks; software incorporating address book management systems and contact management systems; electrical and electronic accessories and peripheral equipment designed for use with telecommunications and communications apparatus, computers, and computer networks, namely, dongles, SIM cards, and computer network hubs, computer switches and computer routers designed to provide in-home voice over Internet protocol (VOIP) communications, global system for mobile communications (GSM), WAP, CDMA and Internet telephony; software for secure data storage and retrieval and transmission of confidential customer information used by individuals, companies and financial institutions; magnetically encoded credit cards, magnetically encoded debit cards and magnetically encoded payment cards, namely, cards containing an integrated circuit chip, namely, blank smartcards; magnetically encoded identity cards; magnetically encoded club membership cards; magnetically encoded loyalty cards; radio frequency identification devices, namely, transponders; radio, television, cable and satellite recordings featuring music; media for storage and/or reproduction of sound and/or visual images, namely, memory cards, memory discs, computer memory hardware devices, memory chips, phones, data dongles, mobile tablets, and personal computers; sound and video recordings featuring music; interactive and multimedia software for mobile telephones, mobile tablets and mobile devices that allows users to pair and connect easily with other devices to share information and data between two devices, to get information or start an application by touching the device to a designated area, and to use their device to pay for services or transit tickets; computer application software for mobile phones, namely, software that enables transmission, retrieval, search, synchronization, access, organization and management

of voice mail, text messaging, instant messaging, web messaging, images, video, audio, and data content via the Internet, computer networks and other communication networks; computer software for use in recording, organizing, transmitting, manipulating, and reviewing voice, text, data, audio files, video files, in connection with computers, handheld computers, tablet computers, mobile phones, and portable and handheld digital electronic devices; software featuring voice over Internet protocol (VOIP) technology for entertainment to download ringtones, call tones, images, data, text, games and music for communications, namely, software that transforms text, voice, music, and images into data and vice versa; software incorporating computer games for mobile phones; electronic media apparatus, namely, telephones, mobile phones, and PDAs; mouse pads and other computer accessories, namely, memory cards; downloadable electronic publications in the nature of user guides and customer magazines in the field of in the field of voice over Internet protocol (VOIP) telephony services and equipment and global system for mobile communications (GSM) and equipment; on-line publications, namely, downloadable electronic publications in the nature of user guides and customer magazines in the field of in the field of voice over Internet protocol (VOIP) telephony services and equipment, global system for mobile communications (GSM) and equipment, WAP and equipment, CDMA and equipment, and Internet telephony and equipment; telecommunication systems comprised of computer software for transmitting voice and data over Internet protocol (VOIP) technology

International Class(es): 009 - Primary Class

U.S Class(es): 021, 023, 026, 036, 038

Class Status: ACTIVE

Basis: 44(e)

For: Answer phone, namely, telephone answering service; directory enquiries, namely, telephone directory assistance services; providing online directory information services also featuring hyperlinks to other websites; research and development of intellectual property, namely, development and marketing research of brands for businesses; Consulting services in the field of managing intellectual properties; Business services, namely, assisting the owners of intellectual property and intangible assets in finding investors; Consulting regarding intellectual property business risk mitigation processes

International Class(es): 035 - Primary Class

U.S Class(es): 100, 101, 102

Class Status: ACTIVE

Basis: 44(e)

For: Telecommunications services, namely, local and long distance transmission of voice, data, images, audio, video and graphics by means of telephone, telegraphic, cable, and satellite transmissions and by means of broadband, copper and optical or wireless networks, the Internet, VOIP, GSM, WAP, CDMA and internet telephony and wireless telephony and wireless broadband communications services for the transmission of voice and data; providing access to telecommunications networks via wireless communications and computer networks; telephone services, namely, Internet, GSM, VOIP, CDMA, WAP and internet telephony telephone services, local telephone services, long distance telephone services, cellular telephone services, mobile telephone services, message collection and transmission services, radio-paging services, call diversion, namely, call forwarding services, and electronic mail services; electronic transmission, delivery and reception of sound, data, images, games, music and information; personal numbering services, namely, call forwarding services; providing telecommunications connections to computer databases, the Internet or other electronic networks; providing multiple user wireless access to the Internet; providing access to databases including through wireless networks; delivery of audio, video and data by telecommunications; providing access to a computer database via a dedicated line

International Class(es): 038 - Primary Class

U.S Class(es): 100, 101, 104

Class Status: ACTIVE

Basis: 44(e)

For: Industrial analysis and research services in the field of telecommunications services; design and development of telecommunications hardware and software; design and development of computer games and software; design, development and commissioning, namely, hosting and maintenance of websites; creating, maintaining and hosting web sites; installation, maintenance and repair of computer software; design and development of online programming content and interactive media, namely, on-line computer games, websites, CD ROMs; operating search engines, namely, provision of search engines for the Internet

International Class(es): 042 - Primary Class

U.S Class(es): 100, 101

Class Status: ACTIVE

Basis: 44(e)

Goods and Services

Note: The following symbols indicate that the registrant/owner has amended the goods/services:

- Brackets [...] indicate deleted goods/services;
- Double parenthesis ((.)) identify any goods/services not claimed in a Section 15 affidavit of incontestability; and
- Asterisks *.* identify additional (new) wording in the goods/services.

For: Telecommunications, telephonic and communications apparatus and instruments, namely, telephone switchers and routers, telephone memory cards, wireless access points, wireless routers, wireless repeaters; radio telephones, mobile and fixed telephones; digital telecommunications apparatus, namely, telephones; software for communication apparatus and instruments, namely, software that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; software and apparatus featuring voice over internet protocol (VOIP) technology; computer games software; software incorporating computer games; electronic and satellite navigational and positional apparatus and instruments including global positioning systems; software that enables the location of wireless communication networks and computer networks; software incorporating address book management systems and contact management systems; electrical and electronic accessories and peripheral equipment designed for use with telecommunications and communications apparatus, computers, and computer networks, namely, dongles, SIM cards, and computer network hubs, computer switches and computer routers designed to provide in-home voice over Internet protocol (VOIP) communications, global system for mobile communications (GSM), WAP, CDMA, and internet telephony; software for secure data storage and retrieval and transmission of confidential customer information used by individuals, companies and financial institutions; hardware and software used to identify subscribers on telecommunications apparatus and SIM cards for cellular telephones, mobile devices and dongles; magnetically

encoded credit cards, magnetically encoded debit cards and magnetically encoded payment cards, namely, cards containing an integrated circuit chip, namely, blank smartcards; magnetically encoded identity cards. magnetically encoded club membership cards; magnetically encoded loyalty cards; SIM cards for cellular telephones and other mobile devices; radio frequency identification devices, namely, transponders; radio, television, cable and satellite recordings featuring music; media for storage and/or reproduction of sound and/or visual images, namely, memory cards, memory discs, computer memory hardware devices, memory chips, phones, data dongles, mobile tablets, and personal computers; sound and video recordings featuring music; interactive and multimedia software for mobile telephones, mobile tablets and mobile devices that allows users to pair and connect easily with other devices to share information and data between two devices, to get information or start an application by touching the device to a designated area, and to use their device to pay for services or transit tickets; computer application software for mobile phones, namely, software that enables transmission, retrieval, search, synchronization, access, organization and management of voice mail, text messaging, instant messaging, web messaging, images, video, audio, and data content via the Internet, computer networks and other communication networks; computer software for use in recording, organizing, transmitting, manipulating, and reviewing voice, text, data, audio files, video files, in connection with computers, handheld computers, tablet computers, mobile phones, and portable and handheld digital electronic devices; software featuring voice over Internet protocol (VOIP) technology for entertainment to download ringtones, call tones, images, data, text, games and music for communications, namely, software that transforms text, voice, music, and images into data and vice versa; software incorporating computer games for mobile phones; electronic media apparatus, namely, telephones, mobile phones, and PDAs; mouse pads and other computer accessories, namely, memory cards; downloadable electronic publications in the nature of user guides and customer magazines in the field of voice over internet protocol (VOIP) telephony services and equipment, global system for mobile communications (GSM) and equipment, WAP and equipment, CDMA and equipment, and internet telephony and equipment; on-line publications, namely, downloadable electronic publications in the nature of user guides and customer magazines in the field of in the field of voice over internet protocol (VOIP) telephony services and equipment, global system for mobile communications (GSM) and equipment, WAP and equipment, CDMA and equipment, and internet telephony and equipment, telecommunication systems comprised of computer software for transmitting voice and data over internet protocol (VOIP) technology, software providing downloadable computer games delivered via telecommunications and wireless communications networks

International Class(es): 009 - Primary Class

U.S Class(es): 021, 023, 026, 036, 038

Class Status: ACTIVE

Basis: 44(e)

For: Answer phone, namely, telephone answering service; directory enquiries, namely, telephone directory assistance services; providing online directory information services also featuring hyperlinks to other websites; operation of telecommunications systems featuring voice over Internet protocol (VOIP), GSM, WAP, CDMA and internet telephony technology for others; operation of telecommunication systems featuring multiple mobile subscriber identity module technology for others

International Class(es): 035 - Primary Class

U.S Class(es): 100, 101, 102

Class Status: ACTIVE

Basis: 44(e)

For: Telecommunications services, namely, local and long distance transmission of voice, data, images, audio, video and graphics by means of telephone, telegraphic, cable, and satellite transmissions and by means of broadband, copper and optical or wireless networks, the Internet, VOIP, GSM, WAP, CDMA and internet telephony and wireless telephony and wireless broadband communications services for the transmission of voice and data; communications services, namely, transmission of voice, audio, visual images and data by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks, transmitting streamed sound and audiovisual recordings via the Internet, providing co-location services for voice, video and data communications applications; providing access to telecommunications networks via wireless communications and computer networks; Internet, GSM, VOIP, CDMA, WAP and internet telephony telephone services, local telephone services, long distance telephone services, cellular telephone services, mobile telephone services, message collection and transmission services, radio-paging services, call diversion, namely, call forwarding services, and electronic mail services; electronic transmission, delivery and reception of sound, data, images, games, music and information; personal numbering services, namely, call forwarding services; providing telecommunications connections to computer databases, the Internet or other electronic networks; providing multiple user wireless access to the Internet; providing access to databases including through wireless networks; delivery of audio, video and data by telecommunications; providing access to a computer database via a dedicated line; peer-to-peer network computer services, namely, electronic transmission of audio, video and other data and documents among computers

International Class(es): 038 - Primary Class

U.S Class(es): 100, 101, 104

Class Status: ACTIVE

Basis: 44(e)

For: Computer software services, namely, troubleshooting of computer software problems via a call in help-desk, online help-desk and via chat and emails; industrial analysis and research services in the field of telecommunications services; design and development of telecommunications hardware and software and parts and fittings therefor; design and development of computer games and parts and fittings therefor; design, development and commissioning, namely, hosting and maintaining of websites; creating, maintaining and hosting web sites; installation, maintenance and repair of computer software; design and development of online programming content and interactive media, namely, on-line computer games, websites, CD ROMs; operating search engines, namely, provision of search engines for the Internet, Provision of advice and information in the form of technical support for software in relation to communications and communication technologies

Mark: TRU APP

Tru App

US Serial Number: 85489406

Application Filing Date: Dec. 07, 2011

US Registration Number: 4345100

Registration Date: Jun. 04, 2013

Register: Principal

Mark Type: Trademark, Service Mark

Status: Registered. The registration date is used to determine when post-registration maintenance documents are due.

Status Date: Jun. 04, 2013

Publication Date: Mar. 19, 2013

Mark Information

Mark Literal Elements: TRU APP

Standard Character Claim: Yes. The mark consists of standard characters without claim to any particular font style, size, or color.

Mark Drawing Type: 4 - STANDARD CHARACTER MARK

Color(s) Claimed: Color is not claimed as a feature of the mark.

Disclaimer: "APP"

Related Properties Information

Claimed Ownership of US Registrations: 3363211, 3462355, 4017989, 4181663 and others

Foreign Information

Foreign Registration Number: 2583584

Foreign Registration Date: Sep. 09, 2011

Application/Registration Country: Foreign UNITED KINGDOM

Foreign Expiration Date: Jun. 06, 2021

Goods and Services

Note: The following symbols indicate that the registrant/owner has amended the goods/services:

- Brackets [...] indicate deleted goods/services;
- Double parenthesis ((.)) identify any goods/services not claimed in a Section 15 affidavit of incontestability; and
- Asterisks *.* identify additional (new) wording in the goods/services.

For: Telecommunications, telephonic and communications apparatus and instruments, namely, radio telephones, mobile and fixed telephones; digital telecommunications apparatus, namely, telephones; computer software for use in recording, organizing, transmitting, manipulating, and reviewing voice, text, data, audio files, video files, in connection with computers, handheld computers, tablet computers, mobile phones, and portable and handheld digital electronic devices, communications software featuring GSM (Global System for Mobile Communications) for providing telecommunications access, software for communication apparatus and instruments, namely, software that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants, computer software that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones, handheld and personal digital assistants; computer software and apparatus featuring voice over Internet protocol (VOIP) technology; computer software and apparatus featuring voice over Internet protocol (VOIP) technology featuring GSM, Global System for Mobile communications, technology; computer games, namely, Computer game cartridges, Computer game cartridges and discs, Computer game cassettes, Computer game discs, Computer game equipment, namely, discs, Computer game programs, Computer game programs, cartridges, and cassettes, Computer game programs, Computer

game programs downloadable via the Internet, Computer game software; software incorporating computer games; electronic and satellite navigational and positional apparatus and instruments, namely, global positioning systems; computer software that enables the location of wireless communication networks and computer networks; computer software incorporating address book management systems and contact management systems; electrical and electronic accessories, namely, designed for use with telecommunications and communications apparatus, computers, and computer networks, namely, dongles, SIM cards, and computer network hubs, computer switches and computer routers designed to provide in-home voice over Internet protocol (VOIP) communications, global system for mobile communications (GSM), WAP, CDMA, and internet telephony; computer peripheral equipment designed for use with telecommunications and communications apparatus, computers, computer networks; computer software for secure data storage and retrieval and transmission of confidential customer information used by individuals, companies and financial institutions; computer hardware and software used to identify subscribers on telecommunications apparatus and SIM cards; Magnetically encoded credit cards, debit cards and payment cards, blank smart cards, magnetic identifying cards, encoded identity cards, magnetically encoded club membership cards; magnetically encoded loyalty cards; subscribed identity module (SIM) cards for cellular telephones; radio frequency identification devices, namely, transponders; prerecorded radio, television, cable and satellite audio tapes, audio cassettes, digital audio tapes, video cassettes featuring music, pre-recorded digital media featuring music, media for storage and/or reproduction of sound and/or visual images, pre-recorded electronic media featuring music, prerecorded video tapes featuring music; interactive and multi-media software for mobile telephones, mobile tablets and mobile devices that allows users to pair and connect easily with other devices to share information and data between two devices, to get information or start an application by touching the device to a designated area, and to use their device to pay for services or transit tickets, electronic media apparatus, namely, telephones, mobile phones, and PDAs, mouse pads and parts therefore; downloadable electronic publications in the nature of user guides and customer magazines in the fields of voice over internet protocol (VOIP) telephony services and equipment, global systems for mobile communications (GSM) and equipment, WAP and equipment, CDMA and equipment, and internet telephony and equipment; electronic publications in the nature of user guides and customer magazines in the field of voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications), telephony services and equipment recorded on computer media, software incorporating computer games for mobile telephones; computer application software for mobile phones featuring voice over Internet protocol (VOIP) technology; computer software featuring global system for mobile communications technology; computer software providing downloadable computer games delivered via telecommunications and wireless communications networks; computer programs, namely, software for use in database management for retail sales purposes

International Class(es): 009 - Primary Class

U.S Class(es): 021, 023, 026, 036, 038

Class Status: ACTIVE

Basis: 44(e)

For: Operation and administration of telecommunication systems and networks for others featuring voice over internet protocol (VOIP) services, operation and administration of telecommunication systems and networks for others featuring GSM or Global System for Mobile Communications technology, telephone answering service; telephone directory assistance services, telecommunications network management services, namely, the operation and administration of telecommunication systems and networks for others, operation of telecommunication systems featuring multiple mobile subscriber identity module technology, providing online directory information services also featuring hyperlinks to other websites, commissioning of works of websites

International Class(es): 035 - Primary Class

U.S Class(es): 100, 101, 102

Class Status: ACTIVE

Basis: 44(e)

For: Telecommunications services and communications services, namely, telecommunication access services, namely, providing access to telecommunications networks via wireless communications and computer networks, voice over internet protocol (VOIP) services, communications services, namely, telephone, mobile telephone, message collection and transmission, radio-paging, call diversion, and electronic mail services, data transmission and reception services via telecommunication means, namely, transmission, delivery and reception of sound, data, images, games, music and information, mobile telephony, providing telecommunications connections to computer databases, the Internet or other electronic networks, providing multiple user wireless access to the Internet, providing access to databases through wireless networks, Transmission of sound and vision via satellite or interactive multimedia networks, Transmission of sound, picture and data signals, Transmission of sound, video and information, telecommunications consultation, namely, provision of advice and information in relation to telecommunication access services; peer-to-peer network computer services, namely, electronic transmission of audio, video and other data and documents among computers

International Class(es): 038 - Primary Class

U.S Class(es): 100, 101, 104

Class Status: ACTIVE

Basis: 44(e)

For: Computer software services, namely, troubleshooting of computer software problems via a call in help-desk, online help-desk and via chat and emails, computer system analysis, research services in the field of telecommunications technology, research services relating to computer hardware and software, design and development of telecommunications hardware and software and parts therefor, design and development of computer hardware and computer software, and parts therefor, design and development of computer games and parts therefor, design and development of websites, creating, maintaining or hosting web sites, installation, maintenance and repair of computer software, design and development of online programming content and interactive media, provision of Internet search engines

International Class(es): 042 - Primary Class

U.S Class(es): 100, 101

Class Status: ACTIVE

Basis: 44(e)

Goods and Services

Note: The following symbols indicate that the registrant/owner has amended the goods/services:

- Brackets [...] indicate deleted goods/services;
- Double parenthesis (..) identify any goods/services not claimed in a Section 15 affidavit of incontestability; and
- Asterisks *.* identify additional (new) wording in the goods/services.

For: Telecommunications, telephonic and communications apparatus and instruments, namely, mobile and fixed telephones; digital telecommunications apparatus, namely, telephones, switches, routers; computer software, namely, software for connecting and providing access to communication apparatus and instruments, namely, apparatus for transmission of communication; software that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; software featuring voice over Internet protocol (VOIP) technology or GSM (Global System for Mobile Communications) that provides customers with access to and use of global wireless communication and computer networks via personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; computer programs for sales purposes, namely, an application allowing sales and field service employees to update and receive data stored in an enterprise's computer databases in real time, using a mobile device, with full telephony

integration with the telephone and/or software features of the mobile device; Computer programs for sales purposes, namely, an application for use with computer databases of customer or potential customer data, for marketing use by sales employees; computer game software incorporating computer games for mobile telephones; computer software downloadable from global computer information networks, namely, downloadable computer games delivered via telecommunications and wireless communications networks; communication software featuring GSM (Global System for Mobile Communications) for providing telecommunications access, and interactive and multi-media software featuring information regarding voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment to facilitate communication; telecommunication software, namely, software that enables the location of wireless communication networks and computer networks, and software incorporating address book management systems and contact management systems for organizing and managing addresses to facilitate communication; telephony software, namely, software applications for establishing and performing video conferencing and virtual video conferencing over a variety of networks in the nature of the internet; apparatus for recording, transmission, processing and reproduction of sound, images or data, and software for use in relation thereto to facilitate communication; software for communication apparatus and instruments to facilitate communication; software that provides customers with access to and use of global wireless communication and computer networks via computers, portable computers, personal computers and other wireless devices, cellular phones or handheld and personal digital assistants; software featuring voice over Internet protocol (VOIP) technology to facilitate communication; apparatus featuring voice over Internet protocol (VOIP) technology, namely, SIM cards, dongles and wireless devices; software that enables the location of wireless communication networks and computer networks to facilitate communication; software incorporating address book management systems and contact management systems to enable communications and to enable contact management of address book contacts to permit contact across networks; electrical and electronic accessories and peripheral equipment designed for use with telecommunications and communications apparatus, computers, portable computers, personal computers and other wireless devices, cellular phones or handheld and personal digital assistants, and with computer networks, namely, mouse, keyboards, battery chargers, headsets, hands free kits for phones, headphones, adapter plugs for telephones; dongles; software for secure data storage and retrieval and transmission of confidential customer information used by individuals, companies and financial institutions; hardware and software used to identify subscribers on telecommunications apparatus and SIM cards; caller display software; magnetically encoded payment cards including cards containing an integrated circuit chip, namely, smartcards; SIM cards; radio frequency identification devices in the nature of transponders; media for storage and reproduction of sound and visual images, namely, blank digital storage media; interactive and multi-media software featuring information regarding voice over internet protocol (VOIP) telephony services and equipment and GSM (Global System for Mobile Communications) telephony services and equipment to provide users with operation information; electronic media apparatus, namely, electronic book reader; mouse pads and other computer accessories, namely, mouses, keyboard anti-static mats, data transmitters and receivers, print selector switches, auto data switches, network adapter cards, power surge protection bars, computer systems mounting racks and stands; software featuring voice over Internet protocol (VOIP) technology for providing telecommunications access

International Class(es): 009 - Primary Class

U.S Class(es): 021, 023, 026, 036, 038

Class Status: ACTIVE

Basis: 44(e)

For: Operation of telecommunications systems for others; operation of telecommunications systems featuring voice over Internet protocol (VOIP) technology for others; operation of telecommunications systems featuring Global System for Mobile Communications (GSM) for others; operation of telecommunications systems featuring Code Division Multiple Access (CDMA) for others; operation of telecommunication systems featuring multiple mobile subscriber identity module technology for others; providing online directory information services also featuring hyperlinks to other websites; providing on-line directory information services also featuring hyperlinks to other websites

International Class(es): 035 - Primary Class

U.S Class(es): 100, 101, 102

Class Status: ACTIVE

Basis: 44(e)

For: Telecommunications access services; telecommunications services, namely, telephone services, telephone message collection and transmission, mobile telephone message collection and transmission, message collection and transmission, radio-paging, call diversion forwarding services, phone answering in the nature of voice mail services, telephone call completion services for directory assistance customers and electronic mail services; communications services, namely, wireless electronic transmission of voice, data, images, audio, video, signals, software, information, games, ring tones and messages, and wireless roaming communication services; providing access to telecommunications networks via wireless communications and computer networks; Communications services, namely, telephone services, mobile telephone services, message collection and transmission, call diversion in the nature of call forwarding and call barring services, answer phone in the nature of call screening services, directory enquiries in the nature of telephone call completion services for directory assistance customers, and electronic mail services; transmission, delivery and reception of sound, data, images, music and information; personal numbering services in the nature of telephony communications services; call recording services; providing telecommunications connections to computer databases, the Internet or other electronic networks; providing user access to the Internet; providing access to databases including through wireless networks; delivery of audio, video and data by telecommunications; leasing of access time to a computer database via a dedicated line
