3. Upon information and belief, Applicant's proposed mark was published for opposition on April 12, 2016. Opposer filed and the Trademark Trial and Appeal Board ("TTAB") approved two extensions of time to oppose the subject mark until October 9, 2016. This Notice of Opposition is timely filed.

4. Upon information and belief, the filing basis for Applicant's trademark is Section 44(e) of the Trademark Act, 15 U.S.C. §1126, and the foreign registration on which the subject application is based is Registration No. 012684981 registered with the European (EU) Office for Harmonization in the Internal Market (OHIM) ("Applicant's Foreign Registration"). A current printout of information from the OHIM electronic database of the record of said registration is attached hereto.

5. The identification of goods and services in the subject application exceeds the scope of the goods and services identified in Applicant's Foreign Registration. This violates 37 C.F.R. §2.32(a)(6).

6. Opposer is a Georgia corporation having a principal place of business at 3786 DeKalb Technology Parkway, Atlanta, Georgia 30340.

7. Opposer was founded in 1974, and is now one of the largest and well-known manufacturers, wholesalers and retailers of kamado style grills and smokers, known as EGG cookers, and related goods and services in the United States and worldwide.

8. Opposer owns a well-known family of EGG marks for use in connection with its goods and services, including the marks in the below chart (hereinafter, "Opposer's EGG Marks").

Opposer's EGG family of marks continues to grow, including the U.S. registered marks EGGMITT, EGGNITER and MINIMAXEGG.

9. Opposer's U.S. Registration Number 3046614 for EGG is incontestable under Section 15 of the Lanham Act, 15 U.S.C. §1065. Consequently, this registration is conclusive evidence of the registered mark and the validity of the registered mark, Opposer's ownership of the mark, and Opposer's exclusive right to use the mark in commerce under Section 33 of the Lanham Act, 15 U.S.C. §1115.

10. Opposer adopted and/or applied for registration of Opposer's EGG Marks prior to the Applicant's filing date. In addition, most of Opposer's EGG Marks were registered prior to the Applicant's filing date. Opposer continues to extensively and continuously use Opposer's EGG Marks. As a result of such widespread use, BGE has developed considerable goodwill in its marks and its goods and services have become well known to the trade and relevant public.

11. Opposer's EGG Marks and Opposer's entire EGG family of marks are of significant value to Opposer as an identification of source in connection with the promotion and offering of its goods and services and in connection with its business.

12. Priority is not an issue. Opposer's EGG Marks were adopted or filed (and most were registered) prior to Applicant's filing date. Applicant relies upon Section 44(e) as a basis for registration and does not claim any use in commerce. Opposer therefore has priority of use over Applicant with respect to the EGG Shaking proposed mark.

13. Upon information and belief, Applicant had knowledge of Opposer and Opposer's EGG Marks since at least as early as July 2014.

14. Applicant's use and registration of the mark EGG Shaking is likely to cause confusion with Opposer's EGG Marks resulting in damage to Opposer. *Trademark Act § 2(d) (15 U.S.C. § 1052(d))*

15. Applicant's proposed EGG Shaking mark is confusingly similar to Opposer's EGG Marks since the marks are similar in sight, sound and commercial impression, and Applicant's alleged goods and services are closely related to goods and services provided by the Opposer. Use of Applicant's proposed mark with the listed goods and services is likely to cause confusion, mistake and/or deception in that the public will wrongly assume that Opposer has

approved of Applicant, is affiliated with Applicant, or otherwise sanctioned or sponsored the goods and services of the Applicant.

16. Opposer would be damaged by the registration of Applicant's proposed EGG Shaking mark as the registration will result in confusion, mistake and/or deception, and Applicant will be able to trade on Opposer's goodwill and reputation.

17. Applicant's proposed mark EGG Shaking would dilute the distinctive quality of Opposer's famous mark EGG. Applicant's EGG mark is widely recognized by the general consuming public of the United States and elsewhere as a designation of source of the goods and services of Opposer, and has been long before Applicant's filing date. *Trademark Act § 43(c) (15 U.S.C. § 1125(c))*

18. Pursuant to the allegations stated above, registration of the mark shown in application Serial No. 86/255315 will result in damage to Opposer under the provisions of the Trademark Act.

WHEREFORE, Opposer prays that Applicant's Application Serial No. 86/255315 for EGG Shaking be rejected, that no registration be issued thereon to Applicant, and that this opposition be sustained in favor of Opposer.

Respectfully submitted,

The Big Green Egg, Inc.
