Alexandria, VA 22313-1451**

Mailed: April 4, 2007

Cancellation No. 92040569

Saint-Gobain Abrasives, Inc.

v.

Unova Industrial Automation  
Systems, Inc.

Cindy B. Greenbaum, Attorney:

On December 28, 2006, the parties filed registrant's proposed amendment to its Registration No. 2516176, with petitioner's consent, but without paying the requisite fee. See Trademark Rule 2.6. On January 3, 2007, petitioner filed a withdrawal of the petition to cancel pursuant to a settlement agreement, contingent on the Board's acceptance of the proposed amendment.

By the proposed amendment, registrant seeks to change the identification of goods **from** "power operated abrasive wheels and abrasive disks" **to** "bonded abrasive inserted nut disc and cylinder wheels for face grinding."

Amendments to the identification of goods may be approved if, among other things, the resulting amendment serves to clarify or limits the goods as published.

Additions to the identification of goods will not be permitted. See Trademark Rule 2.71(b).

Here, the deletion of the prefatory phrase "power operated" from the identification of goods results in an identification of goods that is broader than the current identification of goods. In view thereof, the requested amendment to the identification of goods cannot be approved.

Under the circumstances, the parties are allowed until **thirty days** from the mailing date of this order to submit an amendment which overcomes the deficiency noted above or to otherwise inform the Board how they wish to proceed in this matter. Registrant is allowed the same **thirty days** to submit the requisite fee. See Trademark Rule 2.6.

Proceedings are otherwise suspended.
