Common Law Trademark Sources

Thomson & Thomson's Common Law trademark search covers the most extensive and unique compilation of sources available, identifying unregistered and registered trademarks that may be protected under Common Law.

Our Common Law search covers:

- ◆ 1.5 million proprietary references
- ◆ 21 million business names from the D&B and ABI databases
- ◆ 1.9 million records from print and CD-ROM publications
- ◆ 20 million online references
- ◆ Over 2 million domain names (see separate Domain Name Search section)

We include both general and industry-related resources in our search, to meet your need for comprehensive source coverage. And because we know that many critical sources aren't available online, we license much of our valuable trademark information directly from the publishers. This methodical approach ensures that you always have the most powerful common law trademark coverage available.

Effective Common Law coverage comes from searching a broad range of sources, but then selecting references relevant to the mark being searched. We accomplish this by using our unparalleled combination of trademark-specific sources, enriched by the enhancements we make to retrieve, goods-based references. And the currentness and relevancy of T&T's information is second to none.

Please refer to the enclosed Source List for a complete listing of T&T's Common Law resources.

20,000,000 Records from Online Databases

To complement the exceptional coverage in our other sources, we now conduct an identical search of over 20 million records from online databases. These databases comprise more than 5,000 sources from a variety of industries, providing broad source coverage for every search. T&T licenses this information for use on our in-house trademark search system. We capture and search trademark-related information, including, but not limited to, brand names, product names, trade names, business names, slogans and publication titles. Timeliness is ensured with our daily updates.

T&T's Exclusive Common Law Database of 1,500,000 Marks

We have developed our own proprietary collection of over 1.5 million trademarks, compiled from more than 150 sources, including recent publications and trade sources as well as product and service listings provided to T&T by major manufacturers and trade associations.

21,000,000 Business Names

This database offers you nationwide coverage, reporting business names from large cities to small towns. The broad range of information is compiled from the Dun & Bradstreet® and American Business Information® databases. Monthly updates to our database ensure you have the complete, current business name information you need.

T&T's Common Law Library

Because some unique Common Law sources just aren't available in any other format, we maintain and search a library of print and CD-ROM publications. We search trade journals, buyer's guides, catalogs and directories from specific industries related to your trademark.

Common Law Source List

Following is a sampling of sources from Thomson & Thomson's extensive common law trademark coverage, totaling nearly 45 million records. Our unparalleled collection of common law resources includes: general and industry-specific online databases, business name databases, industry-specific directories, catalogs and buyers guides licensed from the publishers, CD-ROMs and our own proprietary listings of trademark and brand names obtained directly from the owners. Because it is impractical to list all the sources in our collection, we have chosen representative titles for each category. For example, in addition to the 12 major newspapers listed in our Miscellaneous Goods & Services category, we also search over 125 national and regional newspapers for every search.

Because we license so many of these sources for use on our own search system, we are able to conduct flexible, highly-targeted, trademark-specific searches that no other provider can match. We can search these sources for every search we perform; use the appropriate search strategy for each particular source; and spend as much time as needed for each search without concern about online expense.

Over 42 million records are searched for every Thomson & Thomson U.S. Full Search, providing you with the most exhaustive coverage in the industry. We will search other sources tailored to the type of search being performed and to the specific goods and services of the mark being searched.

Article Title: The art of digression: Blake Edwards's "Skin Deep."
Name Of Work: Skin Deep (Motion picture); Criticism, interpretation, etc.
Journal Information:
 Name: Literature-Film Quarterly
 Publication Date: April, 1996
 Volume: 24 Number: 2 Page: 177
Abstract: Despite the fact that Blake Edwards' film "Skin Deep" was not well-received by critics, it does effectively demonstrate some of Edwards' directorial strengths. The films frequent digressions may appear disorganized, but there is a structure to them that Edwards uses to introduce characters. Edwards is particularly adept at portraying the rapid decline of his main character, a drunken womanizing writer played by John Ritter. Edwards' comic elements shine because of his willingness to use abstractions, both visual and aural, that are more extreme, and funnier, than reality.

Domain Name Search

Domain Name Search

Thomson & Thomson's Domain Name Search takes advantage of our sophisticated, proprietary search system and the expertise of our trained research analysts.

Domain names are addresses requested by applicants setting up sites on the Internet (Web sites). Companies often register their trademarks as domain names so that these sites can be located quickly and easily.

Thomson & Thomson includes a Domain Name Search as part of your trademark search, to ensure you have the most current and comprehensive information available as you make your trademark decisions. Our search provides you with information from all Internet Corporation for Assigned Names and Numbers (ICANN) accredited registrars, including Network Solutions Inc. (NSI), register.com and others.

Sources Searched

For U.S. Reports

- ◆ Domain names registered with all ICANN-accredited registrars.

Important Notice

For the reasons detailed below, we strongly recommend a search at <http://www.nsiregistry.net> be conducted prior to attempting to register a domain name or forming a final opinion about the availability of a trademark.

- * The dynamic nature of the World Wide Web allows for the registration of new domain names virtually 24 hours a day.
- * All steps are taken to ensure the completeness and accuracy of our database however, due to registrar administrative procures during domain name registration, some top-level domain names may not be present in our database.
- * Due to the nature of the web, and because we do not filter web content, it is possible that the web page lookups included in this report may contain objectionable material. If you wish to avoid the possibility of receiving such material, please contact us to "opt out" of web page lookups.

Data Information

This report is the result of a computerized search of our database of top-level Domain Names. Our database includes domain names from all ICANN-accredited registrars and domain names with the suffixes .com, .net, .org, .edu and .gov and from the Canadian Domain Name Registrar with the suffix .ca.

This report covers domain names entered into our database through the following date: **AUG 07, 2002**

Please Note: Our last update to .ca Canadian domain names was on December 11, 2000. This is due to a change in the governing authority from the University of British Columbia to CIRA-Canadian Internet Registration Authority. This new authority has not yet developed its policy on distributing domain name information.

REPORTED OWNER INDEX

The following is an alphabetical listing of names reported in the OWNER field of records cited in this search report, with all marks owned by a single entity carried under that entity. (Due to inconsistent spellings, corporate designations, and other discrepancies in data collected by T&T from diverse sources, multiple listings of what are in fact the same owner may occur.) The Business Name, Domain Name and Gale Database sections of the report are not included in this index.

This tool is designed to facilitate your review of the search report and to help you identify trends in data. There has been no analysis made to determine if the company name listed is the actual owner of the trademark. In the case of USPTO listings, only officially reported owners are included; assignees are not considered owners for the purpose of this index.

Internet E-Mail Address

While the application may list an e-mail address for the applicant, applicant's attorney, and/or applicant's domestic representative, only one e-mail address may be used for correspondence, in accordance with Office policy. The applicant must keep this address current in the Office's records.

Check here to authorize the USPTO to communicate with the applicant or its representative via e-mail.

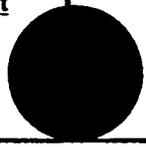

NOTE: By checking this box, the applicant acknowledges that it is solely responsible for receipt of USPTO documents sent via e-mail. The applicant should periodically check the status of its application through the Trademark Applications and Registrations Retrieval (TARR) database, to see if the assigned examining attorney has e-mailed an Office Action. If an action has been sent to the provided e-mail address, the USPTO is not responsible for any e-mail not received due to the applicant's security or anti-spam software, or any problems within the applicant's e-mail system.

Mark Information

Before the USPTO can register your mark, we must know exactly what it is. You can present a mark in one of two ways: (1) standard character format; or (2) stylized or design format. When you click on one of the two circles below, and follow the specific instructions, the system will automatically create a separate page that displays your mark. Only one mark may be submitted per application. Also, you may not be able to correct your mark after filing this application. While minor changes in the mark are sometimes permitted, any material alteration will not be permitted and will result in a refusal being issued on that ground.

WARNING: AFTER SEARCHING THE USPTO DATABASE, EVEN IF YOU THINK THE RESULTS ARE "O.K.," DO NOT ASSUME THAT YOUR MARK CAN BE REGISTERED AT THE USPTO. AFTER YOU FILE AN APPLICATION, THE USPTO MUST DO ITS OWN SEARCH AND OTHER REVIEW, AND MIGHT REFUSE TO REGISTER YOUR MARK.

Standard Character Format

Click on this circle to register a word(s), letter(s), and/or number(s), or any combination thereof, with no design element and without claim to any particular font style, size or color.

Enter the mark here: (Note: The entry can be in capital letters, lower case letters, or a combination thereof.)

OR

Stylized or

Click on this circle to register a stylized word(s); letter(s); number(s); or a design, either by itself or combined with stylized word(s), letter(s), and/or number(s).

Design Format

Click on the 'Browse' button to select a properly-sized JPG image file (the only accepted format) from your local drive that shows the complete, overall mark (e.g., the stylized representation of the words; or, for a mark consisting of a design and words, the image of the complete "composite" mark, not just the design element alone). If claiming color, you must submit a color image; otherwise, the image must be clear black-and-white.

Browse...

For any image that also includes a word(s), letter(s), and/or number(s), enter the LITERAL ELEMENT only of the mark here:

NOTE: Do not enter any word(s), letter(s), or number(s) that do not appear in the attached image; the image file must reflect the overall mark, consisting of the design and the word(s), letter(s), and or number(s).

Check here if you are claiming that the mark is presented in standard character format without claim to any particular font style, size or color. **NOTE:** Do not check this box if you have already made an entry in the standard character section, above.

Check here if claiming color as a distinctive feature of the mark, and identify the colors (e.g., enter red and blue):

If other than a mark in standard characters, describe the mark, and if appropriate, list the portions of the mark that are in color and the corresponding color for each:

Basis for Filing and Goods and/or Services Information

Section 1(a), Use in Commerce: The applicant is using the mark in commerce, or the applicant's related company or licensee is using the mark in commerce, or the applicant's predecessor in interest used the mark in commerce, on or in connection with the identified goods and/or services. 15 U.S.C. § 1051(a), as amended. Applicant attaches or will later submit one specimen for each class showing the mark as used in commerce on or in connection with any item in the class of listed goods and/or services. If filing a specimen electronically, applicant must attach a JPG specimen image file for each international class, regardless of whether the mark itself is in a typed drawing format or is in a stylized format or a design. Unlike the mark image file, a specimen image file may be in color (i.e., if color is being claimed as a feature of the mark, then the specimen image should show use of the actual color(s) claimed).

Specimen Image File

NOTE: For attachment, JPEG image file(s) showing specimen(s) must be on your local drive.

Note: a separate window will be launched for the attachment(s). **MULTIPLE specimens CAN be attached.**

Mark Information

Before the USPTO can register your mark, we must know exactly what it is. You can present a mark in one of two ways: (1) standard character format; or (2) stylized or design format. Mark Information

Before the USPTO can register your mark, we must know exactly what it is. You can present a mark in one of two ways: (1) standard character format; or (2) stylized or design format. When you click on one of the two circles below, and follow the specific instructions, the system will automatically create a separate page that displays your mark. Only one mark may be submitted per application. Also, you may not be able to correct your mark after filing this application. While minor changes in the mark are *sometimes* permitted, any material alteration will not be permitted and will result in a refusal being issued on that ground.

WARNING: AFTER SEARCHING THE USPTO DATABASE, EVEN IF YOU THINK THE RESULTS ARE "O.K.," DO NOT ASSUME THAT YOUR MARK CAN BE REGISTERED AT THE USPTO. AFTER YOU FILE AN APPLICATION, THE USPTO MUST DO ITS OWN SEARCH AND OTHER REVIEW, AND MIGHT REFUSE TO REGISTER YOUR MARK.

Standard Character Format

Click on this circle to register a word(s), letter(s), and/or number(s), or any combination thereof, with no design element and without claim to any particular font style, size or color.

Enter the mark here: (Note: The entry can be in capital letters, lower case letters, or a combination thereof.)

Click on this circle to register a stylized word(s); letter(s); number(s); or a design, either by itself or combined with stylized word(s), letter(s), and/or number(s).

Design Format

Click on the 'Browse' button to select a properly-sized JPG image file (the only accepted format) from your local drive that shows the complete, overall mark (e.g., the stylized representation of the words; or, for a mark consisting of a design and words, the image of the complete "composite" mark, **not just the design element alone**). If claiming color, you **must submit a color image**; otherwise, the image must be clear black-and-white.

Browse...

For any image that also includes a word(s), letter(s), and/or number(s), enter the LITERAL ELEMENT only of the mark here:

NOTE: Do not enter any word(s), letter(s), or number(s) that do not appear in the attached image; the image file **must** reflect the overall mark, consisting of the design and the word (s), letter(s), and or number(s).

Check here if you are claiming that the mark is presented in standard character format without claim to any particular font style, size or color. **NOTE:** Do not check this box if you have already made an entry in the standard character section, *above*.

Check here if claiming color as a distinctive feature of the mark, and identify the colors (e.g., enter red and blue):

If other than a mark in standard characters, describe the mark, and if appropriate, list the portions of the mark that are in color and the corresponding color for each:

Basis for Filing and Goods and/or Services Information

Section 1(a), Use in Commerce: The applicant is using the mark in commerce, or the applicant's related company or licensee is using the mark in commerce, or the applicant's predecessor in interest used the mark in commerce, on or in connection with the identified goods and/or services. 15 U.S.C. § 1051(a), as amended. Applicant attaches or will later submit one specimen for *each class* showing the mark as used in commerce on or in connection with any item in the class of listed goods and/or services. If filing a specimen electronically, applicant must attach a JPG specimen image file for each international class, regardless of whether the mark itself is in a typed drawing format or is in a stylized format or a design. Unlike the mark image file, a specimen image file may be in color (i.e., if color is being claimed as a feature of the mark, then the specimen image should show use of the actual color(s) claimed).

Specimen Image File

NOTE: For attachment, **JPEG image file(s) showing specimen(s) must be on your local drive.**

Click here to Attach/Remove Image(s)

Note: a separate window will be launched for the attachment(s). **MULTIPLE specimens CAN be attached.**

WARNING: The image size cannot exceed 2 megabytes per attachment.

Describe what the specimen submitted consists of:

International Class	044 If known, enter class number 001 - 045
* Listing of Goods and/or Services USPTO Goods/Services Manual	<p>NOTE: Do not enter a Class Number or any other code in the field below. You must enter only the common commercial name for the specific goods and/or services associated with the mark.</p> <p>medical services; healthspa services, namely cosmetic body care services; cosmetician services; physician services</p>

Fee Information

Note: The total fee is computed based on the Number of Classes in which the goods and/or services associated with the mark are classified.

\$ 335 = Number of Classes Paid x \$335 (per class)

* Amount

\$ 335

NOTE: Three payment options (credit card, automated deposit account, and Electronic Funds Transfer) will appear after clicking on the PAY/SUBMIT button, which is available on the bottom of the Validation Page after completing and validating this form.

Text Form for Handwritten Signature Scanning

Check here if you want to use a Text Form (available after clicking on the Validate Form button, below) that will be signed by the proper signatory(ies) in the traditional "pen-and-ink" manner (i.e., you will attach a scanned handwritten signature in JPG format to the Portable Form for the final submission.) **NOTE:** If you later determine that you do NOT want to use the handwritten pen-and-ink signature option, but instead now want to file with no signature (acceptable for filing date purposes), you may "uncheck" the box and continue the submission process. However, to sign directly, you must return to the initial form wizard and answer NO to the final question about obtaining a signature via the text form.

Click on the 'Browse' button to select JPG image file that contains the scanned declaration/signature from applicant's local drive. (NOTE: the attachment is for portable form use only.)

Browse...

NOTE: If necessary, the actual signatory may complete the following fields directly on the Text Form:

Signatory's Name

Jannette Martello

Signatory's Position

owner

Click on the desired action:

The "Validate Form" function allows you to run an automated check to ensure that all mandatory fields have been completed. You will receive an "error" message if you have not filled in one of the five (5) fields that are considered "minimum filing requirements" under the Trademark Law Treaty Implementation Act of 1998. For other fields that the USPTO believes are important, but not mandatory, you will receive a "warning" message if the field is left blank. This warning is a courtesy, if non-completion was merely an oversight. If you so choose, you may by-pass that "warning" message and validate the form (however, you cannot by-pass an "error" message).

Note: To either print the completed application, in whole or in part, download and save the validated application, or electronically submit the application to the USPTO, click on the Validate Form button.

Privacy Policy Statement

The information collected on this form allows the PTO to determine whether a mark may be registered on the Principal or Supplemental register, and provides notice of an applicant's claim of ownership of the mark. Responses to the request for information are required to obtain the benefit of a registration on the Principal or Supplemental register. 15 U.S.C. §1051 et seq. and 37 C.F.R. Part 2. All information collected will be made public. Gathering and providing the information will require an estimated 12 or 18 minutes (depending if the application is based on an intent to use the mark in commerce, use of the mark in commerce, or a foreign application or registration). Please direct comments on the time needed to complete this form, and/or suggestions for reducing this burden to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, Washington D.C. 20231. Please note that the PTO may not conduct or sponsor a collection of information using a form that does not display a valid OMB control number.

The Detroit News

The Oakland Press

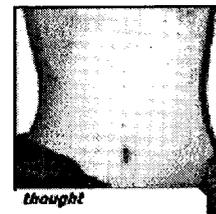

With the arrival of Dr. Michael W. Gray, D.O. to Detroit, Michigan the status quo of cosmetic surgery in the area has been dramatically changed. He has been sought for guest appearances on 95.5 with "Meet the Plastic Surgeon" with Danny Bonaduce and Kevin O'Neal; 950 am WWJ with Laura Teisher; as well as Channel 2-Fox, 4-WDIV, 12 (Flint), 50-UPN. Not only has radio and television reporters been interested in Dr. Gray, but the local press all have actively pursued interviews with him. (The

Oakland Press, The Detroit News, The Jewish News, Hour Magazine and Style Magazine to name a few.)

Dr. Michael Gray, specializes in all areas of cosmetic surgery. Following several years of schooling, internship, residency, fellowships and positions in various educational institutes and hospitals throughout the country, Dr. Gray most recently decided to call the metro Detroit area home. As a cosmetic surgeon, he specializes in Total body aesthetic surgery and today is a leading surgeon in Endoscopic Breast Augmentation and Ultrasonic Liposuction to name a few. He was one of the first surgeons in Michigan to perform Internal Ultrasonic assisted Liposuction and the safer form of the same procedure known as External Ultrasonic assisted Liposuction. Having performed hundreds of these procedures he has become a local expert in this area. As one of a few surgeons in the country formally trained to perform Endoscopic Breast Enlargement (ENDO BAM for short) and the first to perform this procedure in Michigan, he has been performing this procedure with excellent results since 1993. This procedure, hailed as a cosmetic breakthrough allows breast enlargement surgery to be performed in a Scarless manner with minimal to no discomfort and short recovery. Due to his extensive experience, Dr. Gray can typically perform this operation in less than 30 minutes thus reducing the time required for anesthesia. One patient's husband stated, "You have exceeded our expectations." His wife added, "Endobam is the best gift I have ever treated myself to." M.K. a 26 year old nurse went on to say, "No scars, no pain, and I went from an A-cup to a good C in minutes." A mother of a new born is quoted, "I chose this procedure for faster recovery. I have a baby to care for. It was so easy I wished I did this years ago!" These are only a few of the hundreds of favorable comments made to our Doctor.

TRADEMARK ASSIGNMENT AND LICENSING AGREEMENT

This Trademark Assignment and Licensing Agreement ("Agreement") is made as of 12/14/05 (date) by and between Sara Herrick, R.N. on the one hand ("Assignor") and Jeannette Martello, M.D. ("Assignee") (hereinafter collectively referred to as the "Parties" and individually as a "Party").

RECITALS

WHEREAS, Assignor is the owner of all common law rights to the trademark SKIN DEEP as used in connection with her medical, spa and skin care business entitled SKIN DEEP Skin Care, Inc. ("Mark") together with the goodwill of the business connected with and symbolized with this Trademark.

WHEREAS, Assignor desires and agrees to sell, assign, and transfer to Assignee all rights, title and interest in and to the Mark, together with the goodwill of the business in connection with which the Mark is used.

WHEREAS, Assignee desires to acquire all right, title and interest in and to the Mark.

NOW THEREFORE, for good and valuable consideration, the receipt and adequacy of which are acknowledged, the Parties hereby agree as follows:

1. **Assignment.** Assignor hereby irrevocably assigns, conveys, sells, grant and transfers to Assignee all of its rights, title and interest of every kind and character throughout the world, including moral rights, in and to the Mark to the full extent of its ownership or interest therein; including without limitation, all federal, state, foreign, statutory and common law and other rights; all domestic and foreign trademark applications and registration therefore (and all extensions and renewals of such applications and registrations, and the right to

apply for any of the foregoing); all goodwill associated therewith symbolized by the Marks and the portion of the business of the Assignor to which the Mark pertains; all rights to causes of action and remedies related thereto (including the right to sue for past, present or future infringement, misappropriation or violation of rights related to the foregoing); any priority right that may arise from the Mark; and any and all other rights and interests arising out of, in connection with or in relation to the Mark ("Rights").

2. License. Assignee shall grant Assignor a non-exclusive license to use the Mark for a period of two years for the sum of one dollar. Assignee may renew the license for an additional two year term ("First Extension") for \$100, provided that notice is given to, and payment is received by, Assignee prior to the expiration of the term of the license. Assignee and Assignor agree to discuss in good faith any additional extensions of the license period beyond the First Extension. All rights will revert back to Assignor following the expiration of the initial term or any extensions thereto.

3. **Consideration.** Assignee will pay Assignor the total sum of \$250 in three installments: i) \$100 within ten days of its receipt of a fully executed copy of this Agreement; ii) \$100 within 60 days of its receipt of a fully executed copy of this Agreement; and iii) \$50 within 90 days of its receipt of a fully executed copy of this Agreement.

4. **Representations and Warranties.**

- 4.1 Assignor has the full legal right, power and authority required to enter into this Agreement and to perform fully its obligations hereunder.
- 4.2 Assignor is the sole legal and beneficial owner of the Mark free and clear of any third party interests, claims, liens or other encumbrances or other rights or restrictions whatsoever.

- 4.3 No license, assignment or legal or equitable charge has been granted or made with respect to the Mark or any interest therein.
- 4.4 There are no notices, actions, suits, proceedings, claims, complaints, disputes, arbitrations or investigations (collectively "Claims") pending, or to Assignor's knowledge, threatened, at law or in equity related to the Mark.

5. General.

- 5.1 Assignor agrees to take all actions and to sign and execute any documents which may be reasonably required to facilitate the transfer of the Rights granted herein.
- 5.2 Notices or other communications required to be given pursuant to this Agreement shall be delivered by email, fax and U.S. mail as set forth below. Any such notice shall be deemed to be effective within five days after the date of deposit in the U.S. mail.
