Overview

CrossBridge is a private equity fund managed by a group of highly experienced investment professionals at CrossBridge Ventures who have successfully teamed together in the past. The primary aim is to earn substantial capital gains by linking the explosive growth of Silicon Valley technology companies to the Asian markets.

CrossBridge employs the same Investment Strategy that produced 50% net annualized returns over a ten-year period ending December 1999. Over one-half of the investments made by the Fund Managers resulted in an IPO because of the excellent deal flow generated from their co-investment partners (leading U.S. venture capital firms) and their network of contacts in Asia and the U.S.

The Funds focus will be on early to late stage investments in U.S. companies and in their subsidiaries located in Asia. Targeted industries include communications, software, Internet (B2B,B2C, infrastructure), and semiconductors.

The CrossBridgeAdvantage is a hands-on approach that offers portfolio companies both timely and strategic access to the world's second largest market. Management consists of former senior partners at Silicon Valley Bank, JAFCO, and Techno-Venture in Tokyo who have extensive experience in venture capital investing in the United States and Asia.

DRAGONBRIDGE

Merchant Banking
Venture Capital for
Greater China
Emerging
Companies

Chinese Version:
Please click here to view the Chinese version of our web site

Starting with offices in Beijing, Shanghai, Hawaii and California, DragonBridge has been founded by Barry Weinman and Dr. Po Chi Wu, veteran Silicon Valley venture capitalists, and a team of professionals who believe that every company now competes in a global economy, and that only those companies that set standards can become global leaders.

DragonBridge will work principally with the most promising, rapidly growing China based technology companies that have demonstrated both the ability and the drive to be leaders in their market niches. These companies will be challenged and coached by DragonBridge's experts as they acquire the resources and skills they need to expand their markets nationally and internationally. One of their most important attributes will be their determination to do whatever it takes to be seriously respected as global competitors.

THE HEDGE FUNDS

OVERVIEW

Fortress is a market leader in the creation and management of hedge fund investment products. The hedge fund business focuses on absolute returns and is comprised of two business segments: hybrid hedge funds and liquid hedge funds. The hybrid hedge funds include the Drawbridge Special Opportunities Funds and the Fortress Partners Funds. The liquid hedge funds include the Drawbridge Global Macro Funds.

Hybrid Hedge Funds

The hybrid hedge funds are designed to exploit pricing anomalies that exist between the public and private finance markets. The funds have developed a proprietary network comprised of internal and external resources to exclusively source transactions for the funds.

The funds have developed a substantial asset management infrastructure with expertise in managing investments in order to be able to increase the number and complexity of investments which they can acquire. The endowment strategy fund is designed to blend this investing style with more traditional investing with third party managers to create lower volatility, and longer term, stable returns.

Drawbridge Special Opportunities Funds:
The funds opportunistically acquire a diversified portfolio of investments primarily throughout the United States, Western Europe and the Pacific region.

The funds' investment program incorporates three complementary investment strategies, focusing on asset-based transactions, loans and corporate securities. A multi-disciplined approach provides the funds with the flexibility to dynamically adjust investments as industry and market conditions change. The funds' investment philosophy is premised on the belief that while alternative asset investing in general exploits areas of less efficient asset pricing, skilled alternative asset managers are able to consistently generate superior risk-adjusted returns.

Fortress Partners Funds:
The funds invest with a broad mandate, similar to endowment portfolios of large universities. Investments are made both in Fortress Funds and in funds managed by other managers, and in direct investments that are sourced either by Fortress personnel or by third party fund managers with whom Fortress has relationships.

Liquid Hedge Funds

The liquid hedge funds, which invest daily in markets around the globe, seek to exploit opportunities in global currency, interest rate, equity and commodity markets and their related derivatives.

Risk management is the cornerstone of the investment process, and the funds invest with a focus on preservation of capital. Investment opportunities are evaluated and rated on a thematic and an individual basis to determine appropriate risk-reward and capital allocations.

Drawbridge Global Macro Funds:
The funds apply an investment process based on macroeconomic fundamental, market momentum and technical analyses to identify strategies offering a favorable risk-return profile.

The funds' investment strategies are premised on the belief that imbalances in various financial markets are created from time to time by the influence of economic, political and capital flow factors. The funds have the flexibility to allocate capital dynamically across a wide range of global strategies, markets and instruments as opportunities change, and are designed to take advantage of a wide variety of sources of market, economic and pricing data to generate trading ideas.

Highbridge Capital and Louis Dreyfus Form Partnership

Leading Hedge Fund Invests in Premier Merchant Energy Platform

Highbridge Capital Management and the Louis Dreyfus Group reached an agreement under which Highbridge's flagship multi-strategy hedge fund invested in the common equity of Louis Dreyfus ES Holdings LLC (Louis Dreyfus Energy Services), becoming a strategic partner with this premier independent merchant energy firm. The enterprise value of the combined business is in excess of $1 billion.

The venture, to be renamed Louis Dreyfus Highbridge Energy LLC (LDH Energy), with offices in Wilton (Connecticut), New York, Houston, Calgary, Geneva, Shanghai and Singapore, is an integrated merchant energy company. LDH Energy is a merchant in both physical commodities and financial contracts. The merchant business will be supported by a portfolio of energy assets, including storage and transportation facilities.

LDH Energy is overseen by a board of directors consisting of five executives from Louis Dreyfus and Highbridge. William Louis-Dreyfus, the former chief executive of the Louis Dreyfus Group and CEO of LDH Energy, and Glenn Dubin, managing partner of Highbridge Capital Management, have been named co-chairmen of LDH Energy. Additional directors include Todd Builione, Highbridge's chief strategic officer; Paul Addis, LDH Energy's president; and Jeffrey Gilman, LDH Energy's chief financial officer. LDH Energy's headquarters will remain in Wilton.

"The transaction offers turn-key access to a 290-person merchant energy business. Highbridge concluded that the merchant energy business had large barriers to entry, and that investing in a successful and highly regarded merchant, particularly one with such a distinguished history as Louis Dreyfus, was the right approach," said Mr. Dubin. "The partnership offers access to a diversified energy platform with trading activities in both physical and financial commodities supported by real assets. LDH Energy provides for the opportunity to generate attractive risk-adjusted returns, with the added benefit of having a low correlation to Highbridge's other investment strategies."

"The combination offers growth capital to strategically expand Louis Dreyfus' involvement in the energy commodity business," said Mr. Louis-Dreyfus. "We are delighted to be partnering with Highbridge. Its entrepreneurial culture, leading position in the hedge fund industry and proven success in risk management and technology combine to create a great strategic fit for Louis Dreyfus."

About Highbridge Capital

Founded in 1992 by Glenn Dubin and Henry Swieca, Highbridge Capital Management is a $17 billion multi-strategy hedge fund organization with 230 employees and 80 investment professionals. Highbridge's business is diversified across ten core strategy groups: statistical arbitrage; global convertible, credit and volatility arbitrage; event-driven and relative value; Asian equities and convertibles; long-short equity; special opportunities; structured private investments; fixed income; credit relative value; and other strategies. Highbridge is headquartered in New York with offices in London, Hong Kong, Tokyo and Boston. In December 2004, Highbridge entered into a strategic

partnership with JPMorgan Chase & Co. (JPM) whereby an affiliate of JPM purchased a majority interest in Highbridge. While the transaction is seen as being at the vanguard of the institutionalization of the hedge fund industry, much care has been taken to protect and preserve Highbridge's dynamic culture.

About Louis Dreyfus Group

The Louis Dreyfus Group is a diversified organization of companies that began as a merchant of agricultural commodities in 1851. Today, its global commodities business includes processing and merchandising various agricultural and energy commodities such as orange juice, grains, oilseeds, cotton, sugar, coffee, natural gas, refined products and natural gas liquids, as well as the ownership of fixed assets related to these commodities. In addition to commodities, the Louis Dreyfus Group also engages in shipping, real estate and telecommunications businesses.

About LDH Energy

LDH Energy is currently a major global energy merchant active in the processing, trading, marketing and transportation of a wide range of energy products. LDH Energy supports its merchant activities with a diversified processing, pipeline and storage asset base operated to provide bundled commodity and logistics services to the energy industry. LDH Energy is a top ten marketer of natural gas in North America, has a leading merchant position in the global midstream natural gas liquids market, and is also a top merchant of petroleum products (e.g., heating oil, gasoline, diesel fuel) in North America.

NBVP Overview

Our Approach

Our approach to investing is best understood through contact with our existing portfolio companies and their managements. The management teams of our current and past portfolio companies are our best references. In fact, many have come full circle to work with us on subsequent startups. This is the kind of long-term relationship that we most enjoy having with the entrepreneurs we have been privileged to back.

Our time, commitment and experience, combined with great entrepreneurs, innovative ideas and large emerging markets is the foundation upon which we have built North Bridge Venture Partners.

Our Philosophy

Time – Commitment – Experience

North Bridge Venture Partners is an active, bi-coastal, early-stage venture capital fund based in the Boston, Massachusetts and San Mateo, California areas. Our definition of active, early-stage investing is quite simple: *more than capital is required to achieve business success.*

For North Bridge, success is derived through a partnership with entrepreneurs that produces industry leading companies in large emerging markets. Historically, the firm's partners have played a significant role in organizing, starting, and building successful companies.

Working in concert with entrepreneurs, we add value by providing strategic guidance, sharing operating experience, industry specific knowledge, team-building skills, and an in-depth understanding of both private and public financings. In addition, our broad network of industry experts, current and past portfolio companies, and most importantly, the people who built them, are valuable resources for entrepreneurs.

See Events...

Our Strategy

At North Bridge , we have found that working closely with entrepreneurs at the concept stage is most rewarding. This work is time intensive, not capital intensive; however, we make this commitment up front when professional investors are hard to find. While a typical project may require millions of our capital, it is not unusual for us to seed a project with an initial commitment of $100,000 - $500,000. In fact, some of our most successful companies began in our offices with a small capital commitment and a large commitment of our time and experience.

About Us

Jared S. Smith and Thomas W. Lewis became acquainted in Philadelphia while attending the Wharton School of the University of Pennsylvania. After working for separate large real estate investment firms, they combined efforts to form Pennbridge Capital in the fall of 2005.

Pennbridge Capital's greatest strength lies in the integrity and dedication of each of its associates to make sound investments that will preserve and create additional wealth for its investors. Pennbridge Capital team members have the acquisitions, management, and operational experience necessary to identify, acquire, and manage real estate assets with the goal to provide strong returns and appreciation for its investors.

Wealth Management Designed Around You

Freedom and Independence

At SoundBridge, we know the power of dreams. Maybe you would like to start a new business, retire early, travel or fund your children's education. You want a comfortable retirement. How much money will you need to finance your dreams? We take the time to understand your goals in life and how you feel about your money. Consider your longevity, inflation, health care and reasonable future withdrawal rates.

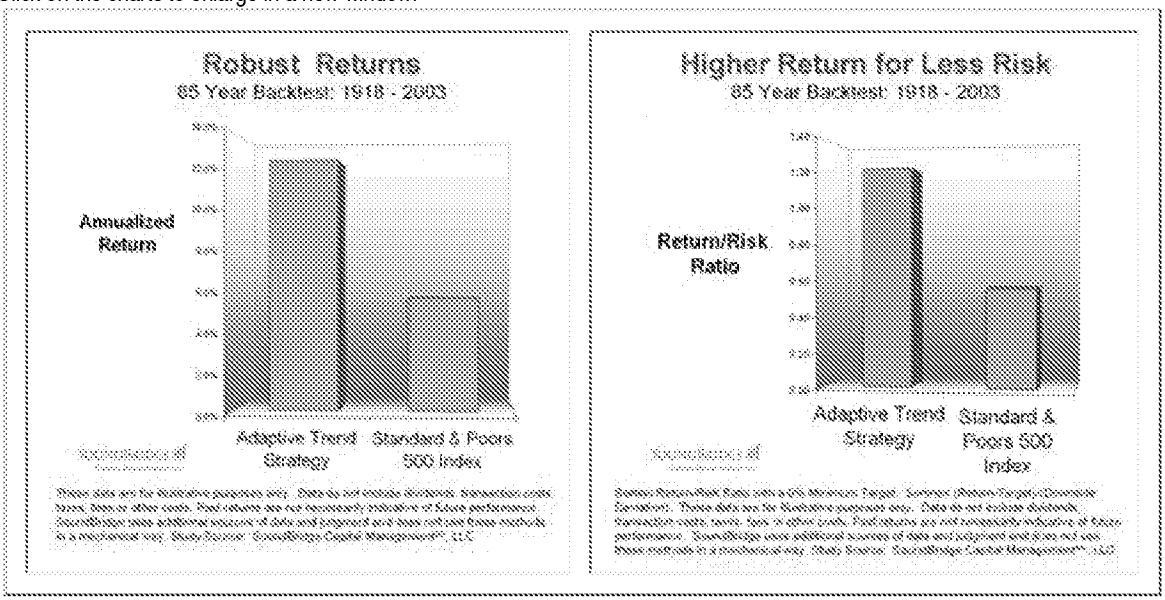
Objective Financial Advice

As an independent Registered Investment Adviser, SoundBridge is aligned with your interests. We are a fee-only adviser, not a broker-dealer. We sell no products. SoundBridge does not receive commission or fund fees and is independent for your benefit. We have a fiduciary duty to act in your interest.

"There is Always a Bull Market Somewhere."

SoundBridge designs and manages globally diverse portfolios based upon academic and professional research in behavioral finance. SoundBridge invests using robust strategies involving value, corporate restructurings and global trends. Our research covering 85 years suggests that a strategy that adapts to the changing market environment greatly outperforms the market with less risk.

Click on the charts to enlarge in a new window.



SoundBridge strives to achieve superior investment returns using a disciplined, risk management approach to investing.

THE WEALTHBRIDGE VISION

We're right where we want to be - smaller than the national banks, large enough to offer competitive rates. For financing in the Pacific Northwest our team is simply the best fit.

We offer financial solutions tailored to your credit needs and your neighborhood. Our Beaverton, OR headquarters is networked with knowledgeable appraisers throughout Oregon, Washington, Idaho, Missouri, Montana, Wyoming, the Dakotas and Colorado.

And we are experts in creative financing. We understand that a consolidation loan or lower interest rate will make a difference in a tight budget. Every day we invent a financing solution that larger banks won't even attempt. We want to help build your future, not make it harder.

Simplicity is our goal. We run behind-the-scenes interference for you, cutting through as much red tape as possible. Sure, there are still forms to fill out, but only the forms that are absolutely necessary. And, we'll help you through every step of the process.

FACT SHEET

Wealthbridge PARTNERS

Great Practices for Great Families℠

People with substantial wealth typically spend a lot of time and energy managing their money. It is surprising how relatively little time they spend making sure that they or succeeding generations are equipped with the skills and knowledge they need to handle wealth effectively.

Wealthbridge Partners helps wealth owners to live thoughtful, productive and confident lives and to sustain the wealth for generations to come.

WestBridge Capital Partners invests $7 million in Times Internet

Our Corporate Bureau
6 December 2005

Bangalor: WestBridge Capital Partners has announced an investment of $7 million in Times Internet Ltd, the digital venture of Bennett, Coleman and Co. Ltd (BCCL) and the publisher of *The Times of India* and *The Economic Times*, among others.

Speaking on the investment Sumir Chadha, senior managing director, WestBridge Capital Partners, said, "Times Internet is the undisputed market leader in the internet and wireless value-added services space in India. We believe that the company is very well positioned to continue its rapid growth as the Indian consumer internet and wireless industries scale."

WestBridge is the sole investor in Times Internet Ltd (TIL), and the investment will be used by Times Internet for future acquisitions and towards strengthening its success in the Indian internet and mobile sector.

Chadha will join the board of Times Internet Ltd and Surendra Jain, managing director, WestBridge Capital Partners, will be an observer.

Mahendra Swarup, managing director and CEO, Times Internet Ltd, said, "We are very pleased to have attracted WestBridge Capital Partners as an investor. We believe that their reputation as a value-added investor will help cement the leadership position that Times Internet enjoys in this space."

WestBridge Capital Partners is a Mauritius-based, leading Indian venture capital fund with approximately $350 million under management. IT focuses on high growth companies that target both domestic and export markets across a variety of sectors, including outsourced services, information technology, healthcare and internet. It currently manages a portfolio of 19 companies across India domestic services, IT and outsourcing. Many of these companies are perceived as leaders in their sectors.

Times Internet Ltd is the digital venture since 1999 with strengths in ecommerce in the Indian internet and mobile value added services segments. It is a provider of mobile value-added services, B2C ecommerce shopping, online advertising, online money remittance service for NRIs and online classified advertising.

Welcome Neighbors, Partners, Friends

November 6, 2007

Welcome to Chain Bridge Bank, a full-service national bank, serving the businesses and residents of McLean and surrounding Northern Virginia communities.

Sensing a void in the community, local business and civic leaders recently founded Chain Bridge Bank to address the specific financial needs of the community. Our goal was to establish a national bank, headquartered locally and familiar with local businesses, that could combine meticulous personal service with state-of-the-art banking technology. We envisioned a bank that could make quick decisions and tailor its products and services for McLean and Northern Virginia residents and businesses. Our founders were determined to create a bank that could keep costs low, passing savings, as well as service, along to its customers.

Their goal, in short, is to do well by doing well by the customer... to offer Community Banking without Compromise.

INTRODUCING MCLEAN'S NEW BRIDGE TO GREAT RATES:
Chain Bridge Bank's Premium Checking pays up to 4.50%APY CHECKING

THE FOUNDERS LINE:
A PREMIUM HOME EQUITY LINE OF CREDIT (HELOC)
Simply the best deal in town.
Prime minus 1.60%

REUTERS

Reuters BridgeChannel

REAL-TIME FINANCIAL INFORMATION AND ANALYTICS
OVER THE INTERNET

PORTABLE POWERFUL COST-EFFECTIVE EASY-TO-USE

IN TODAY'S FAST-PACED FINANCIAL MARKETS, THE NEED TO TRACK VIRTUALLY EVERY MOVE AT WORK OR ON THE GO IS GREATER THAN EVER. HOWEVER YOU MAY NOT REQUIRE THE POWER OF A FULL WORKSTATION.

Reuters BridgeChannel is designed for investors who require both the competitive advantage of comprehensive market information and cost-effective delivery. Leveraging the latest Internet technologies, it provides streaming quotes and news to the convenience of your Internet browser, enabling you to view real-time data for a wide range of markets – anywhere, anytime.

A COMPLETE MARKET VIEW

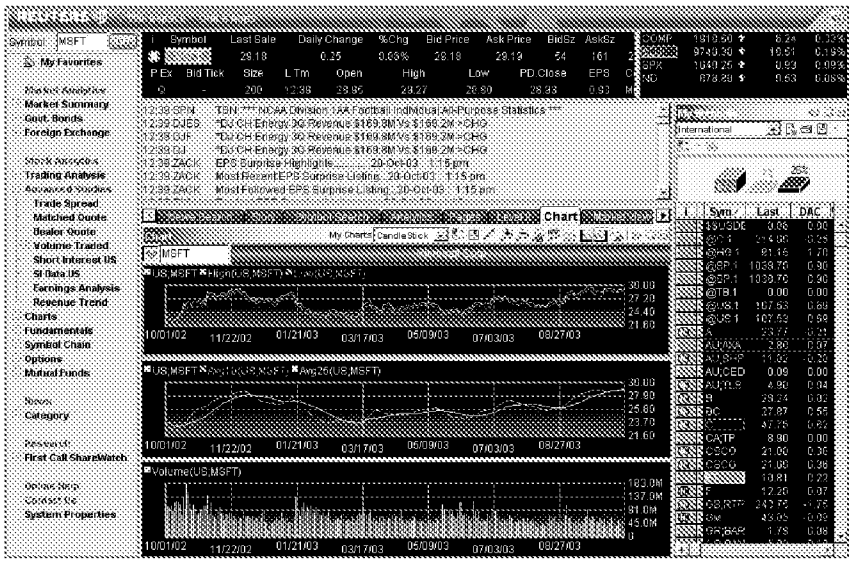
All the information you need to monitor your trading positions – including prices, analytics, market depth and order book – are positioned side-by-side in a single browser, so you can see at a glance where you stand in the market. With streaming news and quote data, as well as alerts triggered by key price and volume moves, you can react quickly to market activity.

USE IT ON THE GO OR AT YOUR DESK

Reuters BridgeChannel simply requires connectivity to the Internet via a browser, so it can be used at your desk or on the move. With Reuters BridgeChannel, you can check out a story or track your particular market of interest wherever you go. And because your portfolios and customised settings are stored centrally, you can use any PC and still retrieve your saved information.

NO LEARNING CURVE – JUST CLICK AND GO

Point-and-click menus and drop-down guides help you navigate the system with ease. Just use your mouse to drill-down for essential fundamental analysis, technical analysis, news and related data.



PORTABLE

POWERFUL

COST-EFFECTIVE DELIVERY

Reuters BridgeChannel does not require the expense or maintenance of extensive hardware installation. Instead, it leverages basic components you probably already have – a computer and an Internet connection. Within this framework, Reuters BridgeChannel can serve as a cost-effective standalone market data source.

PERSONALISE TO MATCH YOUR OWN STYLE

You have complete control of the layout and application components of your workspace. Change the display of data views, news, charts and color schemes for a customised screen that makes sense to you and enables you to work more effectively. You can create and save up to five different custom workspaces, with your choice of features such as the navigation bar and tabs, and only the applications that you truly use so you can quickly get to the information you need.

UNBEATABLE NEWS REPORTING

No one delivers the news like Reuters. As the world's largest international news agency, our journalists provide timely, accurate coverage to keep you informed. The result is focused, real-time news at its best, delivering the breaking headlines and market insights you need to make decisions with confidence.

EASY ACCESS, HASSLE-FREE UPGRADES

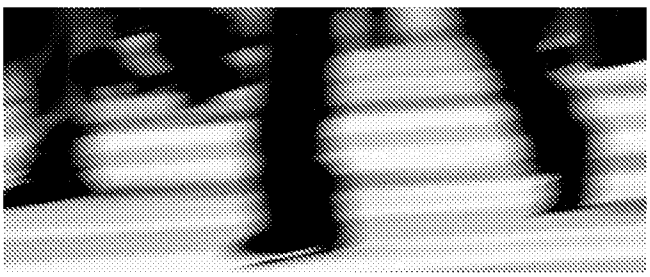
Accessing Reuters BridgeChannel is easy. Simply download from our website. There's no need for on-site servers, datafeeds or hardware. It's that easy. And since upgrades and enhancements are automatically downloaded via the Internet, you can be assured that you will always have the most up-to-date version of the product.

Because it has the robust content of a financial desktop – yet is deployed in an inexpensive, easily accessible delivery method – Reuters BridgeChannel is also a popular back-up information solution for firms who require disaster recovery solutions for their traders and capital market professionals.

CHOOSE THE CONTENT PACKAGE THAT MEETS YOUR NEEDS

- **Basic Equities (B) Package** – includes basic equities data for your region, Reuters news plus a wide range of analytical displays and charts, including relative performance, and sector and group analyses
- **Advanced Equities (A) Package** – includes B package content plus advanced features such as Dynamic Data Exchange and dynamic Level II applications, as well as global equities, futures and options data

COST-EFFECTIVE



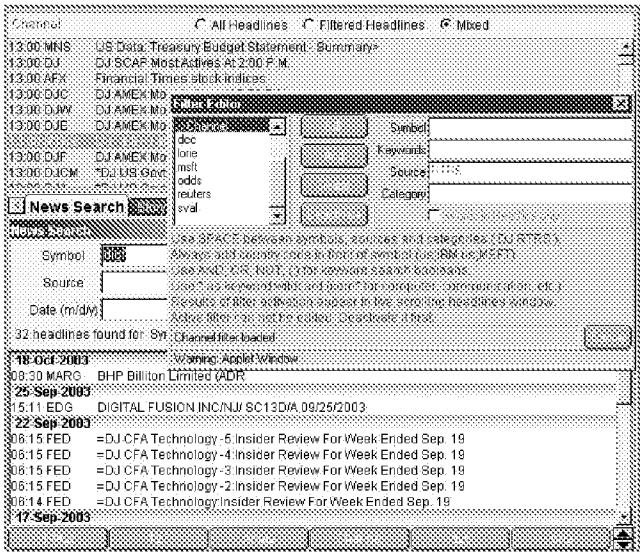
HOW CAN I BENEFIT FROM REUTERS BRIDGECHANNEL?

Retail brokers and private wealth managers

Real-time streaming market summaries provide an excellent way to keep up with the latest market moves. And the lightweight, cost-effective delivery means branch offices can receive financial information with ease while eliminating costs associated with equipment and IT maintenance. Download historical and current market information into Microsoft Excel and create charts for clients, updating them on current market trends.

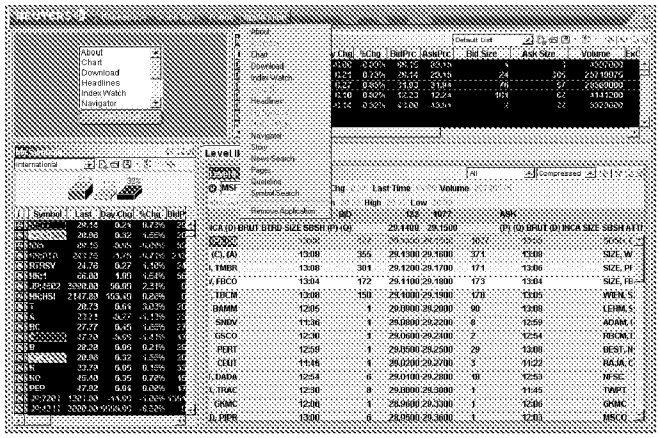
Individual investors

Today's savvy individual investors expect high-quality, value-added applications from their brokerage firm. With Reuters BridgeChannel, you can provide a low-cost, maintenance-free application to your individual investors that incorporates real-time data, news and analytics, linked to your own research website and branded with your company look.



THE QUALITY AND PERFORMANCE YOU EXPECT FROM REUTERS. WITH REUTERS BRIDGECHANNEL, YOU GET:

- **Workspace** – Design and create your own workspace layout using the applications you need. You can create and save up to five workspaces.



Design your own layout using the applications you rely on most for a personalised workspace that enables you to quickly get to the information you need.

- **Index Watch** – Monitor indices grouped by region, or create your own index list. Customise the display with grid lines, column headers and company name.
- **Market Watch** – Create and save your personal symbol lists to a centrally maintained database for easy retrieval. View stocks, bonds, commodities, fixed-income and foreign exchange information all in one application. A customisable graphic lets you see at a glance a portfolio's performance.
- **News** – View scrolling headlines covering a range of topics from Reuters and more than 200 sources. Apply filters to see only the news headlines you want, and copy the 50 most recent live headlines to News Search to browse at your convenience. Select a headline and the full story text appears in the Story tab. You can also bookmark news stories on the home page to view later.
- **Interactive charting** – Choose from a wide range of technical studies, time periods, chart types and drawing tools. Add multiple panes to a chart, and access zoom and trend line tools to fine-tune your analysis. You can create and save up to 20 favorite charts, and export data into a tabular format that you can save or print. Or search for relevant news stories for any given chart date to help you move quickly on your analysis.
- **Level II data** – Track real-time market maker, exchange, order book and market depth updates as well as inside market activity.
- **Dynamic Data Exchange (DDE)** – Download real-time data directly into Microsoft Excel where it will continue to update.
- **Download** – Retrieve historical information from the database for use in your own applications. Download a single security's history or query the database for your whole portfolio.
- **Symbol Search** – Search by name, national ID, country or class to find the security symbol you need. Perform complex Boolean searches even if you have only a partial description or ID.
- **Analytics/Pages** – Choose from the most popular analytical displays and pages, from tick-by tick studies to full historical data, with the ability to export and save displays.
- **Navigation Bar** – Select from a series of menus and drill down to the precise information you need. Displays you use most often can be grouped under My Favorites for easy access.
- **Price alerts** – Price or volume alerts notify you that a particular stock has moved.
