i play.® PVC-free Bibs

- PVC (PolyVinyl Chloride) is a plastic that requires toxic chemicals to make it stable and soft for use in many baby items. Over time, these chemicals can be released to the surface of the plastic.
- Babies develop by exploring through their senses and putting everything in their mouths. Keeping PVC products from the reach of children minimizes their risk of chemical ingestion.

i play.® works continually to improve our products for children's health and safety. All of our Bibs have been PVC-free since 2002.
