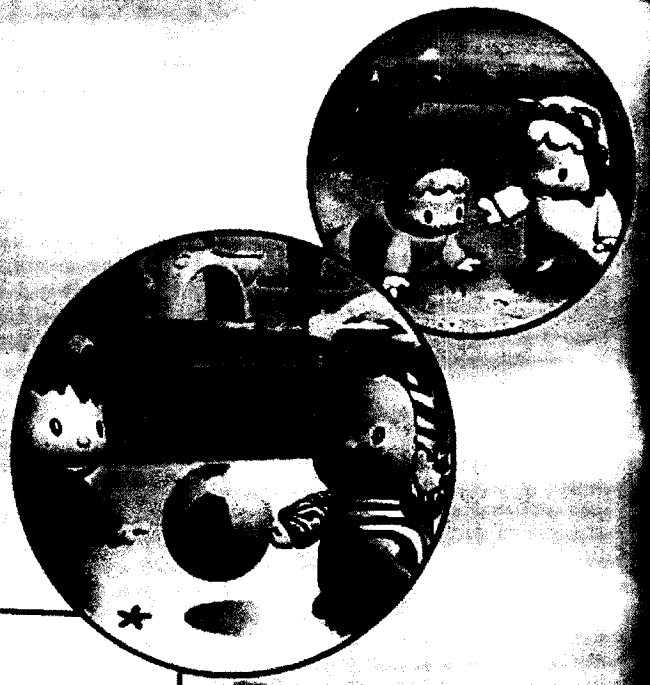
Smoby's collection of innovative toys is based on traditional play patterns – encouraging healthy, imaginative, and socially interactive play.

Be on the look out for our 2004 Smoby Supplement to see the many new exciting products that Smoby has launched. Here's a sneak peek:

Les Cotoons



Smoby has developed a brand new line of developmental infant products called Cotoons. The line is based upon their own adorable little Cotoon characters. With appealing fresh and colorful designs, Cotoon products will help babies discover and learn about the world around them.

Lilou is a sweet soft baby doll and an entire range of pretend play accessories to enhance the traditional doll play experience. The Lilou soft body doll drinks and wets, has anatomical life-like joints and easy-dry fabric so that she can be bathed. Many new fashionable pretend play nursery and baby care designs are being introduced.

Star Party

Star Party is a popular, ever-growing range of fashionable, high-tech electronics for girls who like to sing and perform. Sing, Record, and Dance — all components are compatible — so a group of friends can get together and have their very own Star Party. Smoby has expanded the Party for 2004 and has created other lower priced Star Party items with the same pizzazz as the original products.
