v.	)	Cancellation No.
	)	
DIEHL FOOD INGREDIENTS, INC.,	)	
	)	
Respondent.	)	

---

**PETITION TO CANCEL**

---

Petitioner, Sensient Technologies Corporation (“Sensient Technologies”), a Wisconsin corporation with its principal place of business located at 777 East Wisconsin Avenue, Milwaukee, Wisconsin, believes that it is and will continue to be damaged by Registration No. 3,259,135, issued July 3, 2007, for the mark SENSORYEFFECTS and Design (the “Respondent’s Mark”), and hereby petitions to cancel the same.

As grounds for cancellation, Sensient Technologies alleges:

1. Upon information and belief, Diehl Food Ingredients, Inc. (“Respondent”) is a Delaware corporation with a business address of 24 North Clinton Street, Defiance, Ohio, 43512.
2. Sensient Technologies is a global business based in Milwaukee, Wisconsin.

3. Sensient Technologies and its subsidiaries develop, manufacture and distribute proprietary flavor, fragrance and color systems that are the essential components of thousands of food, beverage, household care, and personal products around the world.

4. Sensient Technologies is a world-leading supplier of sophisticated, valued-added flavors, fragrances and colors used to make a diverse variety of foods and beverages, pharmaceuticals, cosmetics, home and personal care products, specialty printing and imaging products, computer imaging and industrial colors.

5. Sensient Technologies provides customers with customized solutions for its flavoring, fragrance and coloring needs.

6. Sensient Technologies has earned a prominent presence in the food, beverage, fragrance and ingredient marketplace and has sustained it for more than 125 years.

7. Before 2000 Sensient Technologies was known as Universal Foods.

8. In 2000 Universal Foods made the decision to re-brand itself by creating the coined name "Sensient."

9. In the ensuing years, Sensient Technologies invested significant time and millions of dollars to rename itself and its subsidiaries and to label all of its products with the new SENSIENT mark.

10. To protect its distinctive presence in this market, Sensient owns several trademarks: SENSIENT, SENSIENT TECHNOLOGIES, and SENSIROME, among many others featuring the "SENS" prefix, and uses as trade names Sensient, Sensient Technologies, Sensient Flavors and Sensient Colors. These and other Sensient-owned trademarks identified above are collectively referred to herein as the "SENSIENT Marks."

11. The SENSIENT Marks are federally registered, or are protected by common law. Copies of printouts from the United States Patent and Trademark Office's TARR database showing the current status of the SENSIENT Marks are attached hereto as Exhibit A.

12. As a result of registration of the SENSIENT Marks, the registrations identified in Exhibit A are *prima facie* evidence of the validity of those trademarks and Sensient Technologies' exclusive right to use those marks in commerce on and in connection with the products and services specified in the registrations.

13. Since long prior to Respondent's filing date of May 4, 2004, Sensient Technologies has continuously used the SENSIENT Marks on and in connection with flavorings, fragrances, colorings and ingredients, and other related products and services. Sensient Technologies is still using the SENSIENT Marks in interstate commerce and has used these marks continuously on marketing materials, and on advertising, packaging, and labeling for Sensient Technologies' products and services since at least as early as the dates of first use set forth in the registrations.

14. As a result of Sensient Technologies' widespread use of the SENSIENT Marks on and in connection with its products and services for over eight years, and the extensive advertising and sales under the SENSIENT Marks, such marks have become well known and famous, and undeniably signify Sensient Technologies, and said marks became famous long before Respondent's filing date.

15. Respondent's Mark SENSORYEFFECTS and Design is confusingly similar to the SENSIENT Marks in sound, appearance and commercial impression. Indeed, the prefix "SENS" in Sensient Technologies' coined SENSIENT mark was selected to suggest the "sensory" effect of Sensient Technologies' proprietary ingredient and flavor systems. Thus, the

parties' respective marks evoke similar commercial impressions, and it is clear from pronouncing each mark that they sound alike.

16. On information and belief, Respondent manufactures and distributes flavorings, seasonings and additives for use in food and beverage applications. Copies of sales and marketing literature incorporating Registrant's mark are attached hereto as Exhibit B.

17. On information and belief, Respondent's Mark SENSORYEFFECTS and Design is used in connection with the promotion and sale of flavorings, seasonings and ingredients that are sold to food and beverage manufacturers for use in the further manufacture of foods and beverages. Such goods are directly competitive with those of Sensient Technologies, and are offered to the same customers in the same trade channels.

18. On information and belief, neither Respondent nor Respondent's related company nor a licensee of Respondent was using the mark SENSORYEFFECTS and Design in connection with one or more of the following goods as of the date of first use claimed in Respondent's Statement of Use, July 2004: butter, cheese, or milk.

19. On information and belief, Respondent does not in any aspect of its business offer butter, cheese, or milk.

20. Respondent has committed fraud on the United States Patent and Trademark Office ("USPTO") in connection with Registration No. 3,259,135.

21. Respondent has committed fraud on the USPTO by knowingly filing materially false information in connection with Respondent's Statement of Use.

22. Respondent has knowingly made false, material representations of fact because, having been warned that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. Section 1001, and that such willful false statements, and

the like, may jeopardize the validity of the Respondent's Registration, Respondent declared in Respondent's Statement of Use that:

(a) Respondent is using or is using through a related company or licensee the mark SENSORYEFFECTS and Design in commerce on or in connection with cheese, when in fact, Respondent knew that Respondent was not using such mark itself, through a related company or licensee in commerce on or in connection with cheese.

(b) Respondent is using or is using through a related company or licensee the mark SENSORYEFFECTS and Design in commerce on or in connection with milk, when in fact, Respondent knew that Respondent was not using such mark itself, through a related company or licensee in commerce on or in connection with milk.

(c) Respondent is using or is using through a related company or licensee the mark SENSORYEFFECTS and Design in commerce on or in connection with butter, when in fact, Respondent knew that Respondent was not using such mark itself, through a related company or licensee in commerce on or in connection with butter.

(d) All statements made in the Statement of Use were made under a sworn declaration of the signer's knowledge that all statements are true, when in fact, the signer knew that certain of such statements were not true.

23. Sensient Technologies is injured by the continued presence on the Principal Register of Registration No. 3,259,135.

24. Due to Sensient Technologies' priority as to its use of the SENSIENT Marks, and the likelihood of confusion alleged above, Respondent's mark will continue to be a source of injury and damage to Sensient Technologies unless the registration is cancelled.

25. The existence of Respondent's mark SENSORYEFFECTS and Design lessens the capacity of the SENSIENT Marks to identify and distinguish Sensient Technologies' goods and services, and therefore will dilute the famous SENSIENT Marks, and the presence of Respondent's mark actually dilutes Sensient Technologies' rights in the SENSIENT Marks.

26. Respondent does not have permission from Sensient Technologies to use or register Respondent's Mark SENSORYEFFECTS and Design.

27. Please charge the required fee of \$300.00 to Deposit Account No. 13-3080.

WHEREFORE, for the foregoing reasons, Sensient Technologies respectfully prays that Registration No. 3,259,135 be cancelled.

Dated this 30<sup>th</sup> day of March 2009.

# Product Data Sheet

## Apple - 01478 Regular Flakes

### Product Description

The unique characteristics of SensoryEffects deliver superior performance in baked goods. SensoryEffects lipid-based inclusions deliver flavor, color, texture and aroma with one piece. SensoryEffects are available in nuggets and flakes, in multiple sieve sizes. They can be concentrated to form a "burst" or formulated with a unique melting profile to create the desired texture and visual cue. SensoryEffects pieces blend easily and evenly in dry mixes, doughs and batter. SensoryEffects can be formulated for low carbohydrate food products. SensoryEffects offers the ease and convenience of off-the-shelf products on a variety of sweet, spicy or savory profiles. or customization of flavors, colors and sizes is available.

### Typical Data

**Particle Size:** 10mm x 10mm x 2.5mm.

**Moisture Level:** Less than 3%.

<b>Microbiology:</b> Total Plate Count	Less than 5,000 cfu per gram
Yeast & Mold	Less than 500 cfu per gram
Coliforms	Less than 100 cfu per gram
Salmonella	Negative per 125 grams

### Ingredient Statement

Sugar, Hydrogenated Vegetable Oil (soybean, cottonseed), Flour, Malic Acid, Sodium Citrate, Artificial Flavors, Tricalcium Phosphate, Soy Lecithin, Yellow 5 Lake, Citric Acid, Acetic Acid. Kosher.

### Packaging and Storage

**Package:** 15 kg poly-lined corrugated cartons.

**Storage and Handling:** The optimal storage temperature is 18°C-27°C under dry storage conditions.

**Shelf Life:** Nine months, under appropriate storage conditions.

### Applications

SensoryEffects Apple - 01478 is ideal for use in baked goods, culinary or other applications where delivering apple flavor, visual cue and aroma is critical to the product's success. It should be incorporated at the dough stage as a last ingredient, after mixing is completed.

## SensoryEffects™ in Application

### Product Description

SensoryEffects™ deliver flavor, color, texture and aroma with one piece. SensoryEffects™ offer a variety of sweet, spicy or savory profiles, or customization of flavors, colors and sizes is available.

### Examples of Bakery and Bar Applications

SensoryEffects™ lipid-based inclusions can be added to a variety of food products including:

Bread	Pancakes	French Toast
Snack Cakes	Waffles	Oatmeal
Muffins	Cookies	Granola bars
Cakes	Crackers	Protein Bars
Pastries	Tortillas	Sausage
Biscuits	Bagels	

### Usage Rate

Depending on desired flavor intensity, use 8-12% SensoryEffects™ of total ingredients, i.e. add 100g SensoryEffects™ to 1000g of dough or batter.

### Incorporation into Food Application

SensoryEffects™ should be incorporated into the dough or batter as a last ingredient, before further processing such as proofing, shaping, sheeting, and/or baking. Mix the SensoryEffects™ into the dough or batter until evenly distributed. In order to preserve the piece integrity of the SensoryEffects™, the application medium should be at a temperature less than 120F during mixing, otherwise the flavor nuggets will melt out into the dough.

### Advantages of SensoryEffects

SensoryEffects™ are ideal for use in baked goods, culinary or other applications where delivering flavor, visual cue and aroma is critical to the product's success. SensoryEffects™ is a convenient one-step addition of flavor system. SensoryEffects™ is easily incorporated into a dry mix, batter, or dough; it is free flowing and does not clump with other ingredients. SensoryEffects™ does not inhibit yeast or cause any detrimental effect on yeast volume. SensoryEffects™ provides the ability to create a variety of products with a single dough system by only changing the flavor.

### Storage

SensoryEffects™ are shelf stable for at least six months and up to eighteen months, depending on formulation.

The optimal storage temperature is 65°F-80°F under dry storage conditions.

**SECTION 6 - REACTIVITY DATA**

STABILITY: STABLE ( X ) UNSTABLE ( )  
INCOMPATIBILITY: Avoid strong oxidizing agents.  
CONDITIONS TO AVOID: Elevated temperatures above 85°F.

*In order to prevent a dust explosion from occurring, the material concentration in air must be kept below 300 g/m<sup>3</sup>*

HAZARDOUS DECOMPOSITION PRODUCTS: Burning produces carbon monoxide, carbon dioxide and other organic compounds.

**SECTION 7 - SPILL OR LEAK PROCEDURES****STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:**

Product spills may produce slippery surfaces. Normal sanitation procedures should be employed to reduce risk. Large Spills should be contained and cleaned under normal sanitation procedures.

**WASTE DISPOSAL:**

Follow Federal, State and Local guidelines for proper waste disposal.

**SECTION 8 - SPECIAL PRECAUTIONS****PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE:**

Handle in accordance with good manufacturing and safety practices. These include avoiding unnecessary exposure and handling.

Handling of this product may produce nuisance particulates (dust) above a Threshold Limit Value (TLV) of 10ppm or greater. In the case that nuisance dust levels are encountered, a respirator that is a non-powered (negative pressure) particulate respirator that has been tested and certified by NIOSH under provisions of 42 CFR Part 84 is recommended.

**OTHER PRECAUTIONS:**

Store in full tight containers away from heat, light and sources of ignition.

**SECTION 9 - ADDITIONAL INFORMATION**

The product described herein is a food product manufactured in an FDA regulated facility. All processing, packaging and storage practices comply with the applicable Sections of the Federal Food Drug and Cosmetic Act as amended.
