Cancellation No. 92050760

PCi Services, Inc.

v.

The Medici Inc.

**Andrew P. Baxley, Interlocutory Attorney:**

On April 6, 2009, prior to the filing of respondent's answer, petitioner filed a motion to amend the petition to cancel that was filed on April 3, 2009 to include a certificate of service.

However, the Board notes that the electronic cover sheet in the original petition to cancel, which is considered part of that petition, includes a certificate of service. The certificate of service that petitioner filed on April 6, 2009 merely corroborates such service. Because the original and amended petitions to cancel are otherwise identical, the motion to file an amended petition to cancel is moot.

The original petition to cancel remains the operative complaint in this proceeding. Dates remain as set in the Board notice instituting this proceeding.
