TESTIMONY OF LEONID NAHSHIN

I, Leonid Nihshin, of Hazvi 153/36 Beer-Sheva, Israel, being first duly sworn under the oath, state the following:

The information contained in this testimony is true and is based upon my personal knowledge.

1. Please give your full legal name and full address.

My name: Nahshin Leonid
My address: HaZvi st.153/36 Beer-Sheva Israel
Mailing Address:
P.O. Box 3599 84746 Beer-Sheva. Israel

2. Have you been known by any other names?

I had not been known under other names, but people know the name of my business - "P.Service". I am an owner of "P. Service".

3. Please describe in detail the general line of work you are currently engaged in.

I am a business owner of "P. Service" company. I am managing this business. In this business, the only one line of work is selling the cigarette filters "Nic-Out" .

4. How long have been you been engaged in this line of work?

I have been working in this line of work since 1999.

5. How did you come up with the name NIC OUT?

We had to come up with a name that would sound good in many languages and transmitted to the nature of the holder. My wife is fluent in English and together we came up with the name "Nic-Out". It was a successful combination, since it is abbreviated as NIC-nicotine, the most harmful substance in cigarettes, and OUT, then-throw, leaving the outside. It was at early 2000.

6. When precisely was the shipment with "NIC-OUT" forwarded to Yael Menkin?

In early November 2000, I sent a few blocks of "NIC-OUT" to the U.S. for Yael Menkin, she lived in the U.S., so that she began to look for to potential clients in the U.S., check out the filters market in America and the price levels. These were filters "NIC-OUT". About 4 blocks, included 80 packs. The parcels weight was 3.5 kg., sent by express mail.

7. Please describe in details the nature of your business arrangement with "Burda Ticaret"?

It was the business transaction between the product manufacturer and the owner of the trademark "NIC-OUT". I have been taking orders and money from the customers and place the orders for the production for the required number of disposable filters for my brand "NIC-OUT" in "BURDA TICARET". "BURDA TICARET" was producing and shipping goods according to my instructions. I was paying for their work.

8. Do you have written agreements with Burda Ticaret?

Yes, I do. At that time when I worked with "BURDA TICARET" we had an agreement, which was signed on January 1, 2001

9. In April of 2002 Safety Aid Supplies Inc. received their first large shipment of the NIC-OUT product for distribution and sale in the U.S". Did you oversee the selection of Nicolas Maslov as the distributor of the NIC-OUT product, and if so, please explain in detail the events surrounding that selection?

One of the employees of my business was familiar with Nikolai Maslov. Nikolai Maslov was permanently resided in America. We asked him to do the introduction of "NIC-OUT" in the U.S. market. Mr. Maslov responded very quickly on our proposal and presented a program of action. I liked this program and we began to cooperate. It was important that he agreed to make 100% payment in advance for the goods. It also strongly influenced our choice.

10. Do you have written agreements with Nikolai Maslov?

Yes, I do. We had an agreement, which was signed on March 15, 2002.

11. When and how the first shipment of "Nic-Out" was sent to US for Nikolai Maslov?

In April 2002, me and my producer "BURDA TICARET" sent the first industrial cargo of "NIC-OUT" to America for "Safety Aid Supplies Inc." 20 master-cases.

The cargo was sent with the airline:
BRITISH AirWays, Flight: BA -677
AWB 12584260886.
The cargo arrived in NY April 02, 2002.
The Cargo was cleared from custom and took by company "Safety Aid Supplies Inc".

12. Were there more orders "Nic-Out" for America?

"Safety Aid Supplies Inc." became to order from me the "NIC-OUT" in the U.S. constantly, until 2008 inclusive. Only in 2007, "Safety Aid Supplies Inc." purchased from us the "NIC-OUT" for the United States more than 145 thousand dollars. This is only a few documents for goods shipped to America during this period:

13. Please explain the nature of your involvement in the selection and registration of the domain name "nic-out.com" for the website.

Domain name "nic-out.com" was chosen by me personally according to the name of holders "Nic-Out".

Following my direction, in September 12, 2002, the manager of my company "P. Service" Alex Slobidker registered the domain nic-out.com.

Also, at the same moment the site www.nic-out.com was opened. The site is working today and is being actively promoted. The site is also an online store. Since 2005, direct sales of "NIC-OUT" from the site began, including the sales in the United States. The site and the product was known in the U.S., so customers have started to buy directly from the site. The document also indicates the address of the customers.

It should be noted that the site of the opponents - www.nicout.tv - was registered much later, in 2006.

14. What involvement did you have in the website's design, layout, content, advertising strategies, or other operations generally?

All articles on the site were written by me, based on personal knowledge that can confirm a sales manager, Alexander Slobidker.

15. How do you want to protect and register TM "Nic-Out" in the U.S.?

I asked from Yael Menkin to find for me a lower and to patent TM "NIC-OUT in the USA On January 23, 2003, Yael Menkin filed USPTO Trademark Application. The USPTO Trademark Application Serial Number 78206651 with USPTO Word Mark: "NIC-OUT" for International Class "034" , Goods & Services described as "G & S: cigarette filter holder to reduce the inhalation of tar and nicotine.; cigarette filter holder to reduce the inhalation of tar and nicotine." In 2004 we had to abandon this Trademark Application due to existence of prior pending Trademark Application Serial No. 78-163268.

16. What do you know about the goods "NIC-OUT ", has been sending for "PRODUCT SOURCE INTERNATIONAL"?

And since 2006 during all 2007 P.Service has been sending goods also for "PRODUCT SOURCE INTERNATIONAL".

17. What kind of business relationship existed between you and Mr. Higgins, "Product Source International" owner?

Mr. Higgens behaves with me as "NIC-OUT" producer and owner. Mr. Higgens was the only one of the buyers of our products.

18. Why do you think that Mr. Higgens behaves with you as an owner of "Nic-Out"?

This can be seen from the correspondence.

At all AWB (AIR WAYBILL) for PRODUCT SOURCE INTERNATIONAL Was written: Shipers Name: "P.Service. Israel is the exclusive proprietor of "P. Service cigarette filters" . From Mr. Nigensa had no objection. It was not just once but several times. He fit all.

19. What do you know about the actions of Mr.Higgins in 2009 to prevent the export of "Nic-Out" from P.Service in America?

At August 2009 Mr.Higgins closed access of "NIC-OUT" to American market. By this act he damaged our business.
I have suffered huge losses. Business in America, which I honestly had built 10 years, was stopped. It's awful. I feel as if I stole the thingin my life.

Deponent is required to produce at the deposition the materials described in Exhibit A attached to this document and incorporated by reference.

Done I will send the wire with other wires first thing Monday morning.
FOB point would be Philadelphia, PA.
How long to the actual shipment and how long to Philadelphia?
We are ramping up sales of Nic Out here and will need increasing shipments to meet demand in the 4th Qtr.

Dear Gene,

000015

I very much apologize for such a delay for responding.
The number of your AWB is 057 80309003.
The cargo is going to you via airline AirFrans. The delay has been connected to small technical problems.
The companies that work with us have the stock of our product. Therefore, upon receipt of the order, we send a cargo during 48 hours. (at presence of a place at the air carrier). We hope for the further cooperation.

Thanks,
Alex

I recently purchased a large quantity of Nic-out filters as a gift for a close friend, and took note on your home page of your wish to find representatives in the United States. I am writing for two reasons: 1) I believe your product should be a born winner; and 2) I have considered funding a business enterprise for my daughter and son-in-law.

My own history is that of a successful, two career, PhD professional - formerly the CEO of a sizable organization that carried my name. I am retired, and have the time and resources to undertake whatever interests me. As it happens, I also have relatives in Israel.

If you care to have an exchange of information, you may contact me at the e-mail address this message carries, and you may also write to me at 17 Inglewood Rd., Asheville, NC, 28804. Should you proceed, an early detailing of your expectations, including how you envision the running of the enterprise, will be appreciated, as this will save each of us time in deciding whether there is basis for mutual interest.

Thank-you, and best wishes,

Ed

Many thanks for your attention to our product.

We really search decent and reliable partners on USA area.
We receive various offers, but your letter makes impression of the serious and decent person. In addition, your communications with Israel very much imposes us and serves us as the additional, extremely positive factor.

If you have specific proposals, we shall be glad to discuss them.

Yours sincerely,
Alex

Hello, Alex,

I do not have a "specific proposal." This is partly so because although I feel great enthusiasm for your product, I know nothing about your company, how you are staffed, and what your plans are for distribution in the United States. Usually a company with a new product has a plan for marketing it, and someone who wishes to become associated with the company must know whether he/she is able to work within the framework of this plan.

I have seen the with my own eyes the result of my friend using the filters, wherein the collection of tar products is obvious. Given that about 20% of all smokers are unable to stop smoking, the market for your product should be phenomenal in any developed country. So, and I have seldom had this reaction, here is a product that seems to me to be assured of success. Now, I have enough money myself, so that making money has for many years already been only a companion goal for me to doing something which helps people. Your product can help many millions.

Just a little background. My history is that of 1.) 22 years as an architect who had one of the larger firms in the United States; 2.) a clinical psychologist who saw patients for 16 years; 3.) a developer of large building projects; and 4.) an author with two published books - the latest came out this year. My relatives in Israel are Yarri and Nurit Menahim (Harazim) - Yarri is a worldwide known economist. Meanwhile, I have relatives in England and Germany.

Anything I undertake, I look at very carefully. I like new experiences, but do not need them. I like to do something good, but do not wish to become involved with something someone else can do much better (maybe an "venture capital" organization putting money into your company is better for you than someone such as myself). I don't like to waste someone else's time, and certainly not my own. If I decide to do something, it is done carefully, and with every necessary effort. If I need consultants, I hire them.

You know, we are exploring here. I would have to know more about you, your people, your manufacturing and shipping capabilities, and the background of your whole effort. And of course, I am telling you some preliminary things here about me, so you can already make some early judgments. To begin to know such things is the only way to have confidence, and to decide "yes," or "no."

Let me stop here for now, and allow you to react.

Bets wishes,

Ed

Alex,

Perhaps, if you have a moment to spare, you can answer the following question. It interests me partly because I am about to purchase additional large quamtities of filters for friends.

The person I initially gave a gift of the nic-out filters is very happy with them. However, she does report that she now smokes a full cigarette, instead of the half ones she smoked while trying to reduce smoking without the use of a filter. I thought first that, psychologically, she might believe that with the filtering of the smoke she could allow herself more enjoyment than occurs with smoking half cigarettes. But, she insists this is not the case, and that she smokes a whole one with the filter now, because the cigarette burns twice as fast when using the filter. Is your company aware of this dynamic....that the filter causes the cigarette to burn faster?

Thanks,

Ed Loewe

AUG 19 2009

Dear Sir or Madam:

This is to officially notify you that the U.S. Customs and Border Protection seized the following merchandise described below at Newark, NJ on August 5, 2009:

420 ea. Counterfeit "Nic-Out" cigarette filters and 900 ea. Non-IPR "Super Stop" cigarette filters domestically valued at $635.00

The counterfeit merchandise was seized and is subject to forfeiture under the provisions of Title 19, United States Code, section 1526(e) and Title 19, Code of Federal Regulations, section 133 because this merchandise is a counterfeit/unlicensed version of the trademark protected products which are registered with the United States Government. The non-IPR merchandise was seized and is subject to forfeiture under the provision of Title 19, United States Code, section 1595a(a) for facilitating the illegal importation or attempted importation of the counterfeit merchandise.

Unless we receive from the trademark owner(s), within 30 days from the date of this letter, written consent to the importation, exportation, entry after obliteration, or other appropriate disposition of the articles, or a petition for relief as described below, the merchandise will be forfeited and disposed of in accordance with title 19, Code of Federal Regulations, section 133.52.

Under the provisions of title 19, United States Code, section 1618, and section 171.12(b) of the Customs Regulations (19 CFR 171.12(b)), you may petition for relief from the above liability within 30 days from the date of this letter. The petition need not be in any specific form, but it should include all the facts, which you believe warrant relief from forfeiture. All petitions should be filed in duplicate and addressed to U.S. Customs and Border Protection, Attn: FP&F Office, 1100 Raymond Blvd., 5th Floor, Newark, NJ 07102.

All correspondence must include the above-referenced seizure case number. You may assent to an administrative forfeiture of the property by checking the second box, signing and returning the enclosed Election of Proceedings Form in which case this office will

dispose of the property without further action. The enclosed Notice of Seizure explains your options with regard to the remission of the forfeiture and possible return to you of the seized property.

If you decide to petition for relief, you must check the first box on the enclosed Election of Proceeding/Waiver form indicating that you wish this office to consider your petition administratively. Checking the second box indicates that you desire Customs to begin appropriate forfeiture proceedings. No matter which box you check, you must also sign and return the form.

If you have any further questions regarding this matter, please contact Ms. Anita Czajkowski of my staff at (973) 368-6076. Our fax number is (973) 368-6082. Please be advised that this office cannot telephone internationally.

Sincerely,

Edward P. Nagle

Cigarette Filter for Smokers

THE BEST LIFE-SAVING GIFT FOR SMOKING LOVED ONES

Nic-Out
LOW NICOTINE - MORE TASTE

Nic-Out Filter

This small and simple device provides intensive, multistage cigarette smoke purification: 90% of the tar is extracted; the content of Nicotine is lowered 5 times!

The filter is made of transparent class-A plastic. The same kind of plastic, which is used for production of baby food bottles.

A smoker does not detect any changes in the taste of the cigarette since the method used is mechanical smoke purification.

The short length of the filter provides no change in the smoke's temperature, which is an important comfort consideration for most smokers.

The immediate results of using the tiny device is the **disappearance of the tormenting "morning cough"** - usually a consequence of smoking over 15 cigarettes per day. After 2 weeks of using this filter the smokers are completely rid of the "morning cough"

After one cigarette	After three cigarettes

One Filter is good for 5 Cigarettes, one pack contains 30 filters.
This product is invaluable for each and every smoker.
The most convincing illustration of this fact is the drastic color change of the bright yellow insert with each consumed cigarette.

Keep your lungs safe - use Nic-Out!
This product is the best life-saving gift for your smoking loved ones.

Q What is Nic-Out?

A It is a high performance health product. Disposable Cigarette Filter in the form of cigarette holder makes smoking safer or enables smoker to quit easier, if this option should have been chosen. It therefore allows individuals to secure their health for the lowest cost. Our Company is proud to offer you this revolutionary product, which could bring the answer to one of the bitterest modern problems, and prove as solution for a Healthier Nation.

Top

Q How does Nic-Out work?

A The Nic-Out is a cigarette holder with mechanical filtering insert, which selectively absorbs from the smoke large molecules of the tar and other toxic and carcinogenic poly-nuclear aromatic compounds. The principle of action of the Nic-Out filter is based on the laws of behavior of gases in the jet engine and it was developed in a framework of space technologies. This mechanical device permits most low molecular weight species to pass through, although relatively lowering the amount of inhaled nicotine and thus diminishing cravings in those who want to quit.

Top

Q Where and how is it made?

A Nic-Out filters for cigarette smoke cleansing are the Israeli development of 1999 (Patent Claim No. 151387). Overseas production facility supplies the filters made of plastic, designed and built to Nic-Out specifications. Our raw material is the same Grade-A plastic as commonly used for production of baby food bottles. The technology underlying the Nic-Out is patented in European Community and bears the Trade Mark registered in the United States.

Top

Q What are the advantages of Nic-Out?

A Scientific and practical knowledge show that Nic-Out works effectively. It is made from transparent plastic and makes visible concentration of collected tar. This provides important psychological effect in order to build negative image of smoking consequences and to prevent further ruining of public health. Reduction of tar in cigarette smoke has also certain "cosmetic" action. The filter protects dental enamel from penetration of sticky tar, cease formation of a dental strike and helps to keep your smile snow-white. The immediate results of using the tiny device is the disappearance of the tormenting "morning cough" - usually a consequence of smoking over 15 cigarettes per day. After 2 weeks of using this filter the smokers are completely rid of the "morning cough"

Top

Q Does Nic-Out come in one size or can I get it for slim cigarettes?

A Sorry, we are just planning to start production of the Nic-Out Filter for non-regular size cigarettes.

Top

Q What is the Packing of Nic-Out?

A This product is made of molded plastic in a form of Cigarette Holder and packaged in a convenient cigarette-type box of thirty (30) translucent Nic-Out filters per pack. There are 20 (twenty) packs in a carton and 36 cartons in a master case (total 720 packs).

Top

Q Who is the owner of the Nic-Out Filters?

A Our Company (P.Service) is the exclusive proprietor of NIC-OUT cigarette filters. Currently major activities of the Company are concentrated on the goal of development healthier environment based on the most updated technologies and logistics.

Top

000038

Q How many Cigarettes could be used with one Nic-Out filter?

A Each Nic-Out filter is reusable and can be utilized with multiple cigarettes v usually 5 to 10 - until it completely filled up with the Tar.

Top

Q What is the Tar?

A The tar is staining liquid that forms from burning cigarettes and known as carcinogen. When it is inhaled, the human body cells are in danger. You would be shocked to see how much of poison trapped in Nic-Out filter instead of your lungs with each cigarette.

Top

Q Is it harmless to use the Nic-Out Filter?

A The plastic, which Nic-Out filters made of is the same kind as used in production of baby-food bottles. So, naturally, it is harmless to health, nontoxic and causes no allergy. Each Nic-Out filter is reusable and can be utilized with multiple cigarettes. It traps most of tar and some nicotine from the smoke. The transparent walls of the holder make it visible and very convincing.

Top

Q How does Nic-Out impact smoking habit?

A People begin smoking cigarettes for a variety of reasons. Smoking has been portrayed as being heroic, cool and as enhancing sexual appeal. For some people, smoking also serves to soothe tension, anxiety, or loneliness. However, as is commonly known, cigarette smoke contains the addictive compound nicotine. Addiction to nicotine makes it very difficult for smokers to stop smoking cigarettes, even though many realize that smoking will adversely affect their health. The Nic-Out Filter is provided a method of making not just a safer smoking, but it creates the most adequate conditions for the smoker to start quitting. The lower level of Nicotine inhaled while using the Nic-Out lowers the cravings effect.

Top

Q What is a proof of Nic-Out effectiveness?

A The most convincing result of Nic-Out utilization is relief of tormenting morning cough, experienced by the most aggressive smokers. No irritation in the lungs v no cough, since Nic-Out takes the tar out of smoke. It is so obvious, when the black substance is gradually collected after each cigarette and visualized through transparent walls of cigarette holder. Nic-Out Filter is extracting up to 90% of the Tar from cigarette smoke and substantially lowers the level of Nicotine. This fact is proved by testing at the prestigious ARISTA LABORATORIES located in the State of Virginia. Testing results show that smoking of Ultra Lights Marlboro with Nic-Out reduces the tar from 5.9 mg per cigarette to 0.12 mg per cigarette. Smoking regular Marlboro with Nic-Out brings the tar level down from 14.3 mg to 0.38 mg. Detailed Arista Lab-s Report may be presented on request of Interested Parties.

Top

Q What is the role of regular filter at the tip of a cigarette?

A The tobacco industry has attempted to alleviate the problems caused by poly-nuclear aromatics and cyanide by incorporating filters into cigarettes to remove these compounds when a smoker inhales. These filters are typically made of cellulose-based materials. The filters are effective in removing some of the toxic chemicals from tobacco smoke, but unfortunately a substantial amount still passes through the filter.

Top

Q Who are the users of Nic-Out Filters?

000039

A The Nic-Out creates the convenience of people of legal age who already smoke or are trying to cut down on smoking, or wish to have a better smoking experience. Nic-Out is capable to raise the quality of life with less health risks.

Top

Q How much does Nic-Out cost?

A The price information is reflected at the Nic-Out Shop page

Top

Q Is it secure to use credit card for payment at your site?

A We use the SSL (secure socket layer) protocol to encrypt information before it is sent across the Internet. All online orders are transmitted through secure connection via most recognized and trusted quick commerce payment processing centers. If for some reason you do not feel comfortable sending your credit card or account information online, you may call us toll free at 1-877-US-LUNGS (1-877-875-8647) or fax the information to: 1-718-435-5448.

Top

Q Can I become a Nic-Out distributor?

A This is an excellent Business Opportunity for the partners and associates of Nic-Out at the market for smoking accessories with harmless effect which increasing daily. Our company currently enjoys substantial profit margins. But this does not come at the expense of high prices for customers. They remain extremely competitive, and far superior to that of the conventional service.

Top

Q Is there any competition to Nic-Out at the current market?

A This tiny device is the greatest thing to hit the market at the time of multi-million nation-wide anti-smoking campaigns. To see how good this background is, it is ample to look at the site www.PhilipMorrisUSA.com . There are several direct competitive products exist on the market today similar to the Nic-Out. Other companies are targeting customers in the sphere of tobacco related goods offering more sophisticated inventions, sometimes difficult in maintenance. Some of our customers are familiar with various smoke filtering devices. These products include water filled filters, puncturing tools for making holes in the cigarettes in order to more intensively oxygenate the smoke, as well as additional filtering foams. Another area of indirect competition is the sale of "ready-to-use" water filtering devices Middle Eastern style. This has been the standard in the smoking ceremonies for long time. People go to stores and buy cigarettes off the rack. However, the resurgence of custom-made filters is a relatively recent phenomena. Thus Nic-Out foster customers interest by making smoking more comfortable and safe.

Top

Q What are the recommendations about quantity of my purchase?

A Depending on quality of tobacco you can use 1 filter with 3 to 5 cigarettes. Remember that each Nic-Out filter is disposable and can be used just limited number of times. Used filter cannot be cleaned. If you would use 1 filter with 3 cigarettes - 1 pack of filters can be sufficient for 4.5 packs of cigarettes. At the testing period for Nic-Out filters you can temporary feel some discomfort associated with draws and sensation of shortage of nicotine. However you will pass these inconveniences in several days. All of these inconveniences are incomparable with the advantages of the Nic-Out filters, namely:

- Extraction of up to 90 % of harmful tars, while not changing the taste of a cigarette.
- In 2 weeks smoker-s morning cough is eliminated.
- Nic-Out protects the teeth enamel from a dark strike and unpleasant smell from a mouth.
- Your valet is protected.
- Nic-Out keeps your health and save the lives of your relatives

What's in the tool kit for the new non-smoker?

000052

Nicotine replacement products help relieve some of the withdrawal symptoms people experience when they quit smoking. Three products for nicotine replacement therapy (NRT) are currently available over-the-counter in the U.S., including two nicotine patches and nicotine gum. Nicotine nasal spray and a nicotine inhaler are available only by prescription.
A new non-nicotine pill is also available as a smoking cessation option. **An aqua filter cigarette holder** (available in drug stores) can reduce the tar and irritation to your throat even if you're not ready to quit completely.
To be most effective, nicotine replacement products should be used in conjunction with a behavior change program. The goal in using nicotine medications is to stop smoking completely. If you plan to take nicotine medications, begin using them on the day you quit. If you continue to have strong urges to smoke or are struggling to stop smoking completely, ask your health care provider about additional help.

Patch
The nicotine patch releases a constant amount of nicotine in the body. The patches are similar to adhesive bandages and are available in different shapes and sizes. A larger patch delivers more nicotine through the skin. Less nicotine is obtained through the patch than in cigarettes. The patch also does not contain all the tars and poisonous gases that are found in cigarettes. Studies have shown that it is much easier to give up the patch than it would be to give up cigarettes for two reasons. First, people usually develop cravings for things that provide immediate satisfaction, such as chocolate. With the patch, the nicotine level in the body stays relatively constant day after day. There is no immediate satisfaction, so there is little craving for a patch. Second, anything people do often becomes a habit. Since the patch is applied only once a day, there is no strong habit to break. The patch may also have side effects, so read the information packet carefully.

Pill
A non-nicotine pill, bupropion hydrochloride (Zyban) was approved in 1997 to help smokers quit. The drug, available by prescription only, is also sold as an antidepressant under the name Wellbutrin. Following the doctor's orders is necessary with all types of nicotine replacement therapy. Use these products only as prescribed or according to labeling. These products can also be dangerous for pregnant women. Keep in mind that it is contraindicated with some protease inhibitors.

Hi Alex,

I am really sorry to bother you again about this subject but I just came back from Ecuador to check on the business and I found out that the seller of Nic-out from New Jersey (ENRIQUE GAJSTUT) is claiming to be the official dealer of the product and threatening our business just because he made a commercial to promote the product. Do you have any relation with this guy? And the web is(www.nicout.tv/) Please if there is anything you can help me with about this subject I will truly appreciate it, a new letter to approve our rights of commercialization would be really helpful.
Thank you so much

Hi Alex,

How are you doing? I am sorry I didnt contact you before. I was in Iraq but now I am back in the States. I am traveling to Ecuador this week to check on business. It hasnt been working out the way I expected because of the economy but I have plans to get another shipping next year. So I will let you know and we will keep in touch.

Best regards,

Hi Alex,
We are aware of a company selling the Nic Out product in Eastern Canada. The company is International LLC and has a web site www.nicout.tv
Are you aware of this company selling in Canada? When we purchased the company from Shelly we had the understanding she had an exclusive contract for Canada? This company is underselling to wholesalers in Eastern Canada and has cut our sales in this area. I have attached the product being sold.
Your response would be appreciated.

Уважаемый,Рей.
Нам эта проблемма известна. Мы очень активно работаем над её устранением.
Компания,о которой Вы пишите,несколько лет назад была нашим дистрибьютером в Америке. На каком-то этапе, они стали завозить фальшивый Nic-Out из Китая. Мы им ничего не продаём. Также,как и не продаём и не входим в деловые контакты ни с кем на территории Канады. Так как Вы являетесь нашим эксклюзивным покупателем.
Мы находимся сейчас в стадии судебных разбирательств с этой компаней. Наш американский адвокат уверен,что в ближайшие пару месяцев,нам удастся закончить судебные разбираельства и эта компания вообще не сможет ввозить Nic-Out на территорию Америки,и как следствие этого и на территорию Канады. Тогда и у вас появятся хорошие перспективы делать продажи также и в Америке. В своё время,Шели делала несколько крупных продаж в Америку. Наберитесь немного терпения и Вы увидите,как ситуация очень резко изменится в положительную сторону для нашего совместного бизнеса.

Hello Ray,
This problem is known. We very actively work over its elimination.
The company, which you are writing about, some years ago was our distributor in America. At any stage, they began to deliver faked Nic-Out from China. We sell them nothing as well as we do not sell and we do not enter into business contacts to anybody in territory of Canada, because you are our exclusive buyer.

These days we are in a stage of proceedings with this company. Our American lawyer is assured that in the nearest couple of months, we will manage to finish judicial investigations and this company will not be able to import Nic-Out on territory of America at all, both as consequence of it on territory of Canada. Then you will have good prospects to do sales as well in America. In due time, Shelly did some large sales to America. Please be patient and you will see, how a situation will very sharply change in a positive side for our joint business.

Regards,
Alex

Уважаемый,китаец.
Ваши намерения в последние месяцы нам не понятны. Вы появляетесь,изчезаете. Берёте полезную информация и тд. И после этого,не видно никаких конкретных действий,направленных на продолжение бизнеса. За последние время,мы получили определённые предложения, из ваших мест касающиеся продаж "Nic-Out".Прошло большое колличество времени от последнего вашего заказа. Никаких конкретных действий мы не видим.Определитесь,пожалуйста в течении ближайших двух дней: планируете Вы или нет продолжать с нами бизнес. Потому что,мы не можем и далее игнорировать выгодные предложения от других фирм, не видя от вас продвижения. Чтобы мы друг друга хорошо понимали:продвижение,это заказ груза. Нам кажется,что разговоров и переговоров было уже более,чем достаточно.

Hi Alex,
Thank you for your response. We felt this product was coming from China into the USA. We hope this issue can be resolved shortly and will not interfere with our Canadian market. We have been looking at the US market and have a number of options to consider. The US market is huge compared to the Canadian Market and would see a sharp jump in sales.
We have 10 master cases left in inventory and will need to order shortly. Thank you for your support Alex and P Service.

I recently purchased a large quantity of Nic-out filters as a gift for a close friend, and took note on your home page of your wish to find representatives in the United States. I am writing for two reasons: 1) I believe your product should be a born winner; and 2) I have considered funding a business enterprise for my daughter and son-in-law.

My own history is that of a successful, two career, PhD professional - formerly the CEO of a sizable organization that carried my name. I am retired, and have the time and resources to undertake whatever interests me. As it happens, I also have relatives in Israel.

If you care to have an exchange of information, you may contact me at the e-mail address this message carries, and you may also write to me at 17 Inglewood Rd., Asheville, NC, 28804. Should you proceed, an early detailing of your expectations, including how you envision the running of the enterprise, will be appreciated, as this will save each of us time in deciding whether there is basis for mutual interest.

Thank-you, and best wishes,

Ed

Hello, Alex,

I do not have a "specific proposal." This is partly so because although I feel great enthusiasm for your product, I know nothing about your company, how you are staffed, and what your plans are for distribution in the United States. Usually a company with a new product has a plan for marketing it, and someone who wishes to become associated with the company must know whether he/she is able to work within the framework of this plan.

I have seen the with my own eyes the result of my friend using the filters, wherein the collection of tar products is obvious. Given that about 20% of all smokers are unable to stop smoking, the market for your product should be phenomenal in any developed country. So, and I have seldom had this reaction, here is a product that seems to me to be assured of success. Now, I have enough money myself, so that making money has for many years already been only a companion goal for me to doing something which helps people. Your product can help many millions.

Just a little background. My history is that of 1.) 22 years as an architect who had one of the larger firms in the United States; 2.) a clinical psychologist who saw patients for 16 years; 3.) a developer of large building projects; and 4.) an author with two published books - the latest came out this year. My relatives in Israel are Yarri and Nurit Menahim (Harazim) - Yarri is a worldwide known economist. Meanwhile, I have relatives in England and Germany.

Anything I undertake, I look at very carefully. I like new experiences, but do not need them. I like to do something good, but do not wish to become involved with something someone else can do much better (maybe an "venture capital" organization putting money into your company is better for you than someone such as myself). I don't like to waste someone else's time, and certainly not my own. If I decide to do something, it is done carefully, and with every necessary effort. If I need consultants, I hire them.

You know, we are exploring here. I would have to know more about you, your people, your manufacturing and shipping capabilities, and the background of your whole effort. And of course, I am telling you some preliminary things here about me, so you can already make some early judgments. To begin to know such things is the only way to have confidence, and to decide "yes," or "no."

Let me stop here for now, and allow you to react.

Bets wishes,

Ed

Many thanks for your attention to our product.

We really search decent and reliable partners on USA area.
We receive various offers, but your letter makes impression of the serious and decent person. In addition, your communications with Israel very much imposes us and serves us as the additional, extremely positive factor.

If you have specific proposals, we shall be glad to discuss them.

Yours sincerely,
Alex

Alex,

Perhaps, if you have a moment to spare, you can answer the following question. It interests me partly because I am about to purchase additional large quamtities of filters for friends.

The person I initially gave a gift of the nic-out filters is very happy with them. However, she does report that she now smokes a full cigarette, instead of the half ones she smoked while trying to reduce smoking without the use of a filter. I thought first that, psychologically, she might believe that with the filtering of the smoke she could allow herself more enjoyment than occurs with smoking half cigarettes. But, she insists this is not the case, and that she smokes a whole one with the filter now, because the cigarette burns twice as fast when using the filter. Is your company aware of this dynamic....that the filter causes the cigarette to burn faster?

Thanks,

Ed Loewe

MIRACLE SAFETY INVENTION
THE BEST LIFE-SAVING GIFT
FOR SMOKING LOVED ONES

NIC-OUT filter cuts down on carcinogens that are found
in cigarette smoke, and thus helps to reduce the
health risks associated with smoking.

000079

NIC-OUT WORKS:
MOST OF THE TAR IS EXTRACTED
THE NICOTINE IS LOWERED DOWN

No changes in the taste of a cigarette, since method used is mechanical smoke purification. Impressive, drastic color change of the bright yellow insert with each consumed cigarette.

The immediate result of using NIC-OUT is disappearance of tormenting "morning cough".

Last, but not least: the smokers save money, since each cigarette smokes longer with NIC-OUT.

One Filter is good for 5 to 10 cigarettes.

KEEP YOUR LUNGS SAFE:
ENJOY NIC-OUT!

Hi Alex,
We are aware of a company selling the Nic Out product in Eastern Canada. The company is International LLC and has a web site www.nicout.tv
Are you aware of this company selling in Canada? When we purchased the company from Shelly we had the understanding she had an exclusive contract for Canada? This company is underselling to wholesalers in Eastern Canada and has cut our sales in this area. I have attached the product being sold.
Your response would be appreciated.

Уважаемый,Рей.
Нам эта проблемма известна. Мы очень активно работаем над её устранением.
Компания,о которой Вы пишите,несколько лет назад была нашим дистрибьютером в Америке. На каком-то этапе, они стали завозить фальшивый Nic-Out из Китая. Мы им ничего не продаём. Также,как и не продаём и не входим в деловые контакты ни с кем на территории Канады. Так как Вы являетесь нашим эксклюзивным покупателем.
Мы находимся сейчас в стадии судебных разбирательств с этой компаней. Наш американский адвокат уверен,что в ближайшие пару месяцев,нам удастся закончить судебные разбираельства и эта компания вообще не сможет ввозить Nic-Out на территорию Америки,и как следствие этого и на территорию Канады. Тогда и у вас появятся хорошие перспективы делать продажи также и в Америке. В своё время,Шели делала несколько крупных продаж в Америку. Наберитесь немного терпения и Вы увидите,как ситуация очень резко изменитсся в положительную сторону для нашего совместного бизнеса.

Hello Ray,
This problem is known. We very actively work over its elimination.
The company, which you are writing about, some years ago was our distributor in America. At any stage, they began to deliver faked Nic-Out from China. We sell them nothing as well as we do not sell and we do not enter into business contacts to anybody in territory of Canada, because you are our exclusive buyer.

These days we are in a stage of proceedings with this company. Our American lawyer is assured that in the nearest couple of months, we will manage to finish judicial investigations and this company will not be able to import Nic-Out on territory of America at all, both as consequence of it on territory of Canada. Then you will have good prospects to do sales as well in America. In due time, Shelly did some large sales to America. Please be patient and you will see, how a situation will very sharply change in a positive side for our joint business.

Regards,
Alex

Hi Alex,
Thank you for your response. We felt this product was coming from China into the USA. We hope this issue can be resolved shortly and will not interfere with our Canadian market. We have been looking at the US market and have a number of options to consider. The US market is huge compared to the Canadian Market and would see a sharp jump in sales.
We have 10 master cases left in inventory and will need to order shortly. Thank you for your support Alex and P Service.

Hi Alex,

I am really sorry to bother you again about this subject but I just came back from Ecuador to check on the business and I found out that the seller of Nic-out from New Jersey (ENRIQUE GAJSTUT) is claiming to be the official dealer of the product and threatening our business just because he made a commercial to promote the product. Do you have any relation with this guy? And the web is(www.nicout.tv/) Please if there is anything you can help me with about this subject I will truly appreciate it, a new letter to approve our rights of commercialization would be really helpful.
Thank you so much

I am always interested in Nic-Out. I am just hoping you could give us the same deal, for later this year. I am

planning on doing a new purchase this July. We are just waiting to finish the product we have left and we know also the import law is supossed to be changed by then. So, I'll be in touch soon.

Best regards,
Atallah

Cigarettes filter (Nic Out) - analysis report

A box containing cigarettes filters (Nic-Out), was sent to the lab by Ms. Sabina Felix, head of materials charachterization unit of the BGU . It was received in our lab. on 25th of April 2002. Two filters were sampled and designated: 02-416 and 02-417. The first filter was crushed and the second stayed intact. Both samples were extracted, in nitric acid for half an hour , immersed in an ultrasonic bath. The extract was diluted and an internal standard was added.
The diluted extracts were anlysed using an ICPMS system (TJA PQ3 model), standardized with Spex multielement solution no. 2 .

The content of heavy metals in the filters (both filters sampled), is as follows:

Zinc	- less than 0.02 mg/Kg .
Cadmium	- less than 0.05 mg/Kg .
Lead	- less than 0.05 mg/Kg .

Sincerely yours,

Zvi Goldbart
Head, Analytical Service

AUG 19 2009

Dear Sir or Madam:

This is to officially notify you that the U.S. Customs and Border Protection seized the following merchandise described below at Newark, NJ on August 5, 2009:

420 ea. Counterfeit "Nic-Out" cigarette filters and 900 ea. Non-IPR "Super Stop" cigarette filters domestically valued at $635.00

The counterfeit merchandise was seized and is subject to forfeiture under the provisions of Title 19, United States Code, section 1526(e) and Title 19, Code of Federal Regulations, section 133 because this merchandise is a counterfeit/unlicensed version of the trademark protected products which are registered with the United States Government. The non-IPR merchandise was seized and is subject to forfeiture under the provision of Title 19, United States Code, section 1595a(a) for facilitating the illegal importation or attempted importation of the counterfeit merchandise.

Unless we receive from the trademark owner(s), within 30 days from the date of this letter, written consent to the importation, exportation, entry after obliteration, or other appropriate disposition of the articles, or a petition for relief as described below, the merchandise will be forfeited and disposed of in accordance with title 19, Code of Federal Regulations, section 133.52.

Under the provisions of title 19, United States Code, section 1618, and section 171.12(b) of the Customs Regulations (19 CFR 171.12(b)), you may petition for relief from the above liability within 30 days from the date of this letter. The petition need not be in any specific form, but it should include all the facts, which you believe warrant relief from forfeiture. All petitions should be filed in duplicate and addressed to U.S. Customs and Border Protection, Attn: FP&F Office, 1100 Raymond Blvd., 5th Floor, Newark, NJ 07102.

All correspondence must include the above-referenced seizure case number. You may assent to an administrative forfeiture of the property by checking the second box, signing and returning the enclosed Election of Proceedings Form in which case this office will

dispose of the property without further action. The enclosed Notice of Seizure explains your options with regard to the remission of the forfeiture and possible return to you of the seized property.

If you decide to petition for relief, you must check the first box on the enclosed Election of Proceeding/Waiver form indicating that you wish this office to consider your petition administratively. Checking the second box indicates that you desire Customs to begin appropriate forfeiture proceedings. No matter which box you check, you must also sign and return the form.

If you have any further questions regarding this matter, please contact Ms. Anita Czajkowski of my staff at (973) 368-6076. Our fax number is (973) 368-6082. Please be advised that this office cannot telephone internationally.

Sincerely,

Edward P. Nagle

OFFICE ACTION

TO AVOID ABANDONMENT, WE MUST RECEIVE A PROPER RESPONSE TO THIS OFFICE ACTION WITHIN 6 MONTHS OF OUR MAILING OR E-MAILING DATE.

Serial Number 78/206651 NIC-OUT

The assigned examining attorney has reviewed the referenced application and determined the following.

000123

Likelihood of Confusion

The examining attorney refuses registration under Trademark Act Section 2(d), 15 U.S.C. §1052(d), because the applicant's mark, when used on or in connection with the identified goods/services, so resembles the mark in U.S. Registration No. 2337463 as to be likely to cause confusion, to cause mistake, or to deceive. TMEP §§1207.01 *et seq*. See the enclosed registration.

The examining attorney must analyze each case in two steps to determine whether there is a likelihood of confusion. First, the examining attorney must look at the marks themselves for similarities in appearance, sound, connotation and commercial impression. *In re E. I. DuPont de Nemours & Co.*, 476 F.2d 1357, 177 USPQ 563 (C.C.P.A. 1973). Second, the examining attorney must compare the goods or services to determine if they are related or if the activities surrounding their marketing are such that confusion as to origin is likely. *In re August Storck KG,* 218 USPQ 823 (TTAB 1983); *In re International Telephone and Telegraph Corp.*, 197 USPQ 910 (TTAB 1978); *Guardian Products Co., v. Scott Paper Co.*, 200 USPQ 738 (TTAB 1978). TMEP §§1207.01 *et seq*.

The applicant seeks registration of NIC-OUT for "cigarette filter holder to reduce the inhalation of tar and nicotine." The registered mark is NICOUT for "smoker's apparatus for puncturing holes in cigarettes." The applicant's mark is nearly identical to the mark in the cited registration. Despite the hyphen in the applicant's mark, the marks are spelled the same and sound the same.

Further, the applicant's goods are highly similar to the goods provided by the registrant. While not identically, the parties' goods are related in that they would be sold in the same channels of trade to the same purchasers, namely those seeking products that reduce the nicotine and/or tar in cigarettes.

Since the marks are confusingly similar, and the goods are highly related, it is likely purchasers would confuse the sources of the goods. The examining attorney must resolve any doubt as to the issue of likelihood of confusion in favor of the registrant and against the applicant who has a legal duty to select a mark which is totally dissimilar to trademarks already being used. *Burroughs Wellcome Co. v. Warner-Lambert Co.,* 203 USPQ 191 (TTAB 1979). Accordingly, the mark is refused registration under Section 2(d).

The applicant should note the following potential ground for refusal.

Prior Pending Application

The examining attorney encloses information regarding pending Application Serial No. 78-163268. The filing date of the referenced application precedes the applicant's filing date. There may be a likelihood of confusion between the two marks under Trademark Act Section 2(d), 15 U.S.C. §1052 (d). If the referenced application matures into a registration, the examining attorney may refuse registration in this case under Section 2(d). 37 C.F.R. §2.83; TMEP §1208.01.

Action on this application will be suspended pending the disposition of Application Serial No. 78-163268, upon receipt of the applicant's response resolving the following informalities.

Cannot Assert §1(a) and §1(b) for the Same Goods

The applicant asserts use of the mark in commerce for "cigarette filter holder to reduce the inhalation of tar and nicotine " and applicant asserts that it has a bona fide intent to use the mark in commerce for the **same** goods. An applicant may not assert both use of the mark in commerce, under Trademark Act Section 1(a), 15 U.S.C. §1051(a), and intent to use the mark in commerce, under Trademark Act Section 1(b), 15 U.S.C. §1051(b), **for the same goods**. 37 C.F.R. §2.34(b)(1); TMEP §806.02(b). The

000124

applicant must delete one basis or divide the goods between the two bases, as appropriate.

Response

No set form is required for response to this Office action. The applicant must respond to each point raised. The applicant should simply set forth the required changes or statements and request that the Office enter them. The applicant must sign the response. In addition to the identifying information required at the beginning of this letter, the applicant should provide a telephone number to speed up further processing.

If the applicant does not have an attorney the applicant may wish to hire a trademark attorney because of the technicalities involved in the application. The Patent and Trademark Office cannot aid in the selection of an attorney. 37 C.F.R. §2.11.

If the applicant has any questions or needs assistance in responding to this office action, please telephone the assigned examining attorney.
