v.

Michael Ness

Michael B. Adlin, Interlocutory Attorney:

Opposer's consented motion for yet another extension in this well over two year old case, filed January 23, 2012, is hereby **DENIED, WITHOUT PREJUDICE**, because it does not comply with the Board's order of April 22, 2011 (fn. 1).

Specifically, the "report" on the parties' negotiations does not include the dates of any communications, a description of issues resolved and remaining to be resolved or a timetable for final resolution. In the event either party seeks any further extension or suspension, it must do so in a conference call between both parties and the interlocutory attorney assigned to this proceeding. Dates remain as previously set.
