Thales UK Limited

v.

Metal Storm Limited

Andrew P. Baxley, Interlocutory Attorney:

On February 4, 2013, respondent filed a renewed consented motion to amend the identification of goods in International Class 9 of its Registration No. 3273127.

The proposed amended identification of goods in International Class 9 is two pages long in single-spaced type. However, respondent has not specified in the motion what the proposed changes to the identification of goods are.

To facilitate review and entry of the proposed amendment, respondent is directed to submit within thirty days of the mailing date set forth in this order a version of the current identification of goods in the registration with the proposed edits redlined, failing which the proposed amendment will receive no consideration.

Proceedings herein are otherwise suspended.
