1969 Cowl Induction Air Cleaner
with Extension and Flange

Reproduction of the original cowl induction air cleaner including correct black lid, base, filter, air cleaner to flange extension and the flange. The extension for a 302 is shorter than the extension on the 350. This was due to a high rise intake manifold which was factory installed on all 302 (Z-28) **engines**. This air cleaner is a direct replacement for the original Cowl **Induction style** air cleaner which was optional on 1969 Camaros with 302 (Z-28), or SS-350 engines. *Note: This air cleaner does not include the air cleaner flange to hood seal (available separately). Valve cover to air cleaner elbow and hose must be purchased separately, see valve cover section for correct elbow and hose application. Also may be used on 67-68 Camaros with a cowl induction hood.*
