DECLARATION OF LOUIS CHAN

Louis Chan declares:

1. I am vice president of sales and marketing of Scientific Toys, Ltd. of Kowloon, Hong Kong and am submitting this Declaration in opposition to the Motion for Summary Judgment by Petitioner/ Counterclaim Respondent Bachmann Industries, Inc. ("Bachmann").
2. I have been employed by Respondent/Counterclaim Petitioner Scientific Toys, Ltd. ("Scientific Toys") since 1976. During that time, I have been fully familiar with the various products sold by Scientific Toys as well as the trademarks used by Scientific Toys on its toys.
3. Scientific Toys was established in 1969. Since that time, the company has been engaged in the manufacture and sale of toys including officially licensed radio-controlled vehicles, battery operated toys, games, pin ball machines, robots, toy train sets and interactive educational toys.
4. Starting in mid 1996, Scientific Toys used the trademark EZ TEC on its toys. Although the mark was initially used briefly in the form of EZ TECH and then EZ TEC, the mark was later changed to the form of EZTEC, and at the current time Scientific Toys uses the

mark in the latter form. The EZTEC trademark is very important to Scientific Toys as more than fifty percent of its sales are of EZTEC toys.

5. I attach as Exhibit 1 a copy of an invoice dated June 10, 1996 generated from our files to J.C. Penney showing the sale of 320 cartons of EZ TEC Talk n' Learn toys, Item 87230, which were actually shipped from Hong Kong to Plano, Texas in June of 1996. The second page of Exhibit 1 contains photographs of such product showing where the mark appears. The EZ TEC/EZTEC mark has been used continuously in the U.S. by Scientific Toys since that date.

6. Since commencing use of the EZ TEC/EZTEC mark on its various toy products in 1996, Scientific Toys has sold in the U.S. alone in excess of \$500,000,000.00 worth of product bearing such trademark, at wholesale. Representative early packaging for such toys is attached as Exhibit 2.

7. Since 1996, Scientific Toys has sold its toys bearing the EZTEC mark to a wide variety of customers such as mass merchants, including Walmart, Kmart, and Target stores; department stores, including J.C. Penny's and Sears; specialty stores, such as the Christmas Tree Shops, and the Spiegel catalog; toy stores such as FAO Schwartz, Toys 'R' Us, and KB Toys; warehouse clubs, including BJ's Wholesale Club, Costco, and Sam's Club; drug store chains, such as CVS, Duane Reade, Long's Drugstores, and Rite Aid; and other retailers such as Boscov's, Big Lots, Dollar General, Fred Meyer, the Home Depot, Meijer, and others.

8. In 1998, battery-operated train sets, radio-controlled train sets, and train accessories were added to Scientific Toys' EZTEC line. Since that time, in excess of \$30,000,000.00 of trains and train accessories have been sold by Scientific Toys under the EZTEC mark.

9. Scientific Toys is the owner of U.S. Trademark Registration No. 2,161,782 of June 2, 1998 for the mark EZ TEC for toys, namely, toy typewriters, toy telephones, toy teaching

clocks, and toy prerecorded musical players reciting a date of first use of July 20, 1996. The '782 Registration is incontestable. A copy of the '782 Registration is attached as Exhibit 3.

10. Scientific Toys is also the owner of U.S. Trademark Registration No. 3,567,168 of January 27, 2009 for the mark EZTEC as applied to toys, namely, remote-controlled, radio-controlled, and battery-operated vehicles, trains, train sets, helicopters, submarines, boats, musical instruments, pinball machines, animals and insects reciting a July 20, 1996 date of first use. The '168 Registration references the '782 Registration. Only the '168 Registration is the subject of the present cancellation. A copy of the '168 Registration is attached as Exhibit 4.

11. I am generally familiar with Bachmann. Bachmann manufactures and sells toy model train sets. As far as I know, other than trains, Bachmann does not sell radio-controlled or battery-operated toy vehicles, helicopters, submarines, boats, musical instruments, pinball machines, animals or insects. Bachmann's toy train products are generally directed to the model railroad hobbyist.

12. It is my understanding that Bachmann is seeking to cancel Scientific Toys' '168 Registration for the mark EZTEC based upon Bachmann's claimed earlier use of the mark E-Z TRACK for toy train sets, toy train track, and train track with roadbed. Bachmann claims there is a likelihood of confusion between its mark E-Z TRACK and our mark EZ TEC. I do not agree.

13. In the fifteen years since 1996 during which Scientific Toys has been using its EZTEC mark on a wide variety of toys, including trains and train sets, and Bachmann claims to have been using its E-Z TRACK mark, Scientific Toys has never heard of anyone in the trade or any consumer being confused as to the source of our respective products. Similarly, during this period of time, Scientific Toys has never received an inquiry from a member of the trade or the

purchasing public as to whether there is a connection or relationship between these two companies.

14. This does not surprise me because there are large numbers of other companies in the toy field using trademarks starting with the letters "E" and "Z" or the word "EASY." In fact, in 1996, before we started to use the EZTEC mark, we had our counsel conduct a search to determine the availability of such mark. Attached as Exhibit 5 is a schedule from that search showing a large number of entities in 1996 either owning registrations or pending applications for marks starting with "EZ/EASY" or using such term in conjunction with their toys. I believe that there are even more third parties using such marks at the present time.

15. Currently, Scientific Toys uses the EZTEC mark on remote-controlled model vehicles which have been licensed by their manufacturers as well as other remote controlled toys, train sets, pin ball machines, educational toys and other toys. Attached as Exhibit 6 are pages reproduced from a recent catalog showing the artwork that appears on the boxes for these products. However, the actual boxes also include the EZTEC trademark.

16. Attached as Exhibit 7 is a set of representative reproductions of packaging for train sets sold by Scientific Toys during the period from 1998 to 2011 made from Adobe Illustrator, which is the art software used to create the actual packaging for the various train sets sold by Scientific Toys using the EZTEC trademark. The EZTEC mark is shown on the packaging.

17. Most of the train sets sold by Scientific Toys are larger-sized trains which are more toy-like and not made to scale. Such train sets are typically used by purchasers as part of a display around a Christmas tree. Our train sets are generally not purchased or used by model railroad hobbyists.

18. In fact, our EZTEC train sets are marketed to the same customers as our toys sold under the EZTEC mark. If toy trains can be considered a sub-market of toys, Scientific Toys' EZTEC trains are directed to toy retailers in general and not to the toy train sub-market.

19. I declare under the penalty of perjury under the laws of the United States that the foregoing is true and correct.

ANALYST REVIEW - COMMON LAW/BUSINESS NAME REPORT

COMMON LAW/BUSINESS NAME ANALYST: M. FITTON

This report is the result of a computerized search of approximately twenty one million business names. The databases used are licensed from Dun & Bradstreet Inc.® (D&B®) and American Business Information Inc.® (ABI).

The D&B file, updated monthly, is their most complete listing of business names available, primarily compiled from their marketing, credit and business investigation lists. Each record contains the following: name of the business, secondary or "DBA" name if applicable, city, state, and telephone number, DUN's number, up to six SIC codes, and a corresponding SIC Code description of goods and services.

The ABI file, updated quarterly, is compiled from 5,000 U.S. Yellow Page Telephone Directories, 500 Business White Page Telephone Directories, Annual Reports, 10Ks, Press Releases, City Directories and The NASDAQ® Fact Book. Each Record contains the following: name of the business, street address, city, state, zip code, and telephone number, ABI's number, up to six SIC codes, and a corresponding SIC Code description of goods and services.

While D&B and ABI consider their databases reliable, the accuracy, currentness and completeness cannot be guaranteed.

DATE OF THE LAST UPDATE FROM D&B: 01/31/1996

DATE OF THE LAST UPDATE FROM ABI: 02/19/1996
