DAN FOAM APS Petitioner, v. SLEEP INNOVATIONS, INC., Registrant.	)	Cancellation No. 92054201

REGISTRANT'S FIRST NOTICE OF RELIANCE

Registrant Sleep Innovations, Inc. ("Registrant") hereby offers into evidence and makes of record in the above-caption proceeding the documents and materials set forth below.

On November 18, 2013, the parties filed with the Board a Joint Motion for Approval of Stipulation (the "Stipulation"). The Stipulation is Docket Entry No. 49 on the docket of this proceeding. In the Stipulation, the parties agreed that discovery depositions of Dan Setlak, Dave Hochwalt, Sharon Miller, Lisa Thorstenson, and Michael Loomis, or any parts thereof, may be admitted as trial evidence in this Proceeding, and the parties further stipulated as to the authenticity of documents produced by the parties during discovery in the proceeding. On January 8, 2014, the Board entered an Order approving the Stipulation. The Order is Docket Entry No. 53 on the docket of this proceeding.

Accordingly, pursuant to the Stipulation and 37 C.F.R. § 2.122, Registrant hereby files with this First Notice of Reliance the following documents and materials:

JOINT MOTION FOR APPROVAL OF STIPULATION

Petitioner Dan Foam APS, and Registrant Sleep Innovations, Inc., (the "Parties") by counsel, and pursuant to 37 CFR § 2.120(j) and TBMP § 704.09(1) hereby stipulate that the discovery depositions of Dan Setlak, Dave Hochwalt, Sharon Miller, Lisa Thorstenson, and Michael Loomis, or any parts thereof, may be admitted into evidence in the above proceeding. However, Petitioner reserves its right to depose these witnesses during its testimony and rebuttal period, and Registrant reserves its right to depose the above-identified witnesses during its testimony period.

Pursuant to TBMP § 705, the Parties also stipulate as to the authenticity of documents produced by the Parties during the discovery period.

Accordingly, pursuant to TBMP § 703.09(1) the Parties respectfully request that the Board approve this Stipulation.

Respectfully submitted,

v.

Sleep Innovations, Inc.

Andrew P. Baxley, Interlocutory Attorney:

The parties' stipulation (filed November 18, 2013) to allow use of the discovery depositions of Dan Setlak, Dave Hochwalt, Sharon Miller, Lisa Thorstenson, and Michael Loomis, or any parts thereof, as trial evidence herein and to the authenticity of documents produced by the parties in discovery is approved.

On January 3, 2014, petitioner filed a motion for leave to supplement pretrial disclosures to add Jane Martin as a trial witness and to take Ms. Martin's testimony deposition, which has been noticed for January 10, 2014, by telephone. In view of the time-sensitive nature of such motion, petitioner requested, and the Board agreed, that the motion be decided by telephone. On the afternoon of January 8, 2014, the Board convened a telephone conference between petitioner's attorney Mari-Elise Taube, respondent's

attorney Irene Hurtado, and Board interlocutory attorney Andrew P. Baxley.[1]

As an initial matter, the parties' stipulation (filed December 16, 2013) to extend testimony periods is approved to the extent that petitioner's testimony period was extended and was ongoing at the time of such conference. In view of the suspension of this case by this order, petitioner will be allowed a testimony period of **ten days** upon resolution of the following.[2]

During the conference, respondent indicated that it has filed motion to quash the notice of deposition of Ms. Martin and for a protective order. However, while petitioner indicated that it had received a service copy of respondent's motion, that motion had not appeared in the Board's TTABIS database at the time of the conference and thus could not be reviewed in advance of that conference. Accordingly, proceedings herein are **suspended** to allow the parties to complete, and the Board to review, briefing in connection with the pending motions.

During the conference, the parties agreed that petitioner's combined brief in response to respondent's

motion and reply brief in support of its motion is due by **Monday, January 13, 2014,**[3] and that respondent's reply brief in support of its motion is due by **Friday, January 17, 2014.**[4] Such briefs shall be served by e-mail or other means of electronic transmission agreed upon by the parties. See Trademark Rule 2.119(b)(6).

Combined Declaration of Use and Incontestability under Sections 8 & 15
To the Commissioner for Trademarks:

REGISTRATION NUMBER: 3137309
REGISTRATION DATE: 08/29/2006

MARK: BODIPEDIC

The owner, Sleep Innovations, Inc., a corporation of New Jersey, having an address of
187 Route 36, Suite 101
West Long Branch, New Jersey 07764
United States
is filing a Combined Declaration of Use and Incontestability under Sections 8 & 15.

For International Class 020, the mark is in use in commerce on or in connection with all of the goods or services listed in the existing registration for this specific class: Mattress toppers, pillows, chairs and chair cushions; **and** the mark has been continuously used in commerce for five (5) consecutive years after the date of registration, or the date of publication under Section 12(c), and is still in use in commerce on or in connection with **all** goods or services listed in the existing registration for this class. Also, no final decision adverse to the owner's claim of ownership of such mark for those goods or services exists, or to the owner's right to register the same or to keep the same on the register; and, no proceeding involving said rights pending and not disposed of in either the U.S. Patent and Trademark Office or the courts exists. The owner is submitting one specimen for this class showing the mark as used in commerce on or in connection with any item in this class, consisting of a(n) webpage bearing the mark and goods.

NOTICE OF DIVISIONAL REQUEST COMPLETED

Serial Number 78620346

Although applicant requested that certain goods and/or services remain in the original application (parent application), Office policy is to divide out into a child application those goods and/or services most ready to move forward toward registration, i.e., those goods and services for which an amendment to allege use or statement of use has been filed.

The request to divide application serial no. 78620346, filed on **May 31, 2006**, has been processed as follows:

(1) Parent (original) application serial no. **78/620,346** contains the following: **Class 22**. To avoid abandonment, applicant must continue to file requests for extension of time to file a statement of use (extension requests) or a statement of use before expiration of the notice of allowance or current extension period. 37 C.F.R. §§2.88(a) and 2.89(g).

(2) Child application serial no. **78/977,213** contains the following: **Classes 20 and 24**. A Statement of Use filed on **June 15, 2006**, has been placed in the child application and routed to the examining attorney for examination.

37 C.F.R. §2.87; TMEP §§1110 *et seq.*

Please contact the undersigned with any questions regarding the request to divide.

** IMPORTANT INFORMATION: 6 MONTH DEADLINE **

You filed the trademark application identified below based upon a bona fide intention to use the mark in commerce. You must use the mark in commerce and file a Statement of Use (a.k.a. Allegation of Use) before the USPTO will register the mark. You have six (6) MONTHS from the ISSUE DATE of this Notice of Allowance (NOA) to file either a Statement of Use, or if you are not yet using the mark in commerce, a Request for Extension of Time to File a Statement of use ("Extension Request"). If you file an extension request, you must continue to file a new request every six months until the Statement of Use is filed. Applicant may file a total of five (5) extension requests. FAILURE TO FILE A REQUIRED DOCUMENT DURING THE APPROPRIATE TIME PERIOD WILL RESULT IN THE ABANDONMENT OF YOUR APPLICATION.

Please note that both the "Statement of Use " and "Extension Request" have many legal requirements including fees. Therefore, we encourage use of the USPTO forms, available online at http://www.uspto.gov/teas/index.html (under "File a PRE-registration form"), to avoid the possible omission of important information. Please note that the Trademark Electronic Application System (TEAS) provides line-by-line help instructions for completing the Extension Request or Statement of Use forms online. If you do not have access to the Internet, you may call 1-800-786-9199 to request the printed form(s).

OFFICE ACTION

RESPONSE TIME LIMIT: TO AVOID ABANDONMENT, THE OFFICE MUST RECEIVE A PROPER RESPONSE TO THIS OFFICE ACTION WITHIN 6 MONTHS OF THE MAILING OR E-MAILING DATE.

Serial Number 78/620346

The assigned examining attorney has reviewed the referenced application and determined the following.

NO LIKELIHOOD OF CONFUSION

The examining attorney has searched the Office records and has found no similar registered or pending mark which would bar registration under Trademark Act Section 2(d), 15 U.S.C. Section 1052(d). TMEP

section 704.01.

AMENDED IDENTIFICATION REQUIRED – CLASS 20

THIS REQUIREMENT APPLIES ONLY TO THE GOODS SPECIFIED THEREIN

The wording "padding materials for upholstered chairs" in the identification of goods is too broad because it could include items classified in other classes. For instance, while "chair pads" are classified in International Class 20, "padding materials not of rubber, paper or plastic" are classified in International Class 22. The applicant must amend the identification to list each item by its common commercial name. TMEP §§1401.04(b), 1402.01 and 1402.03.

For assistance with identifying goods and/or services in trademark applications, please see the online searchable *Manual of Acceptable Identifications of Goods and Services* at http://tess2.uspto.gov/netahtml/tidm.html.

The applicant may adopt the following identification of goods, if accurate:

INTERNATIONAL CLASS 20: Mattress toppers, pillows, chairs and chair cushions.

INTERNATIONAL CLASS 22: Padding material not of rubber, paper or plastic for upholstered chairs.

INTERNATIONAL CLASS 24: Bed sheets and linens.

Please note that, while the identification of goods may be amended to clarify or limit the goods, adding to the goods or broadening the scope of the goods is not permitted. 37 C.F.R. §2.71(a); TMEP §1402.06. Therefore, applicant may not amend the identification to include goods that are not within the scope of the goods set forth in the present identification.

CLASSIFICATION OF GOODS/SERVICES

If the applicant adopts the suggested amendment to the identification of goods/services, the applicant must amend the classification to International Classes 20, 22 and 24. 37 C.F.R. §§2.32(a)(7) and 2.85; TMEP §§805 and 1401 *et seq.* The goods are currently classified in International Classes 20 and 24.

REQUIREMENTS FOR A COMBINED APPLICATION

If the applicant prosecutes this application as a combined, or multipleâ€'class, application, the applicant must comply with each of the following.

(1) The applicant must list the goods/services by international class with the classes listed in ascending numerical order. TMEP §1403.01.

(2) The applicant must submit a filing fee for each international class of goods/services not covered by the fee already paid. 37 C.F.R. §§2.6(a)(1) and 2.86(a); TMEP §§810.01 and 1403.01. Please see the Office's website at http://www.uspto.gov/main/trademarks.htm for information regarding the fee for filing a trademark application. As of the date of this action, the applicant has paid the filing fee for 2 classes.

RESPONSE GUIDELINES

If applicant should fail to respond to this Office action within the six month time limit, then the unacceptable portion of the identification of goods/services will be deleted from the application and the application will then proceed forward with the currently acceptable goods/services only.

No set form is required for response to this Office action. The applicant must respond to each point raised. The applicant should simply set forth the required changes or statements and request that the Office enter them. The applicant must sign the response. In addition to the identifying information required at the beginning of this letter, the applicant should provide a telephone number to speed up further processing.

If the applicant's has questions regarding the status of the application, the Trademark Applications and Registrations Retrieval (TARR) database on the USPTO website at http://tarr.uspto.gov provides detailed, up to the minute information about the status and prosecution history of trademark applications and registrations. Please note that an application serial number or registration number is needed to be able to access this database. TARR is available 24 hours a day, 7 days a week.

If the applicant has any questions or needs assistance in responding to this Office action, please telephone the assigned examining attorney.

Trademark/Service Mark Application, Principal Register

Serial Number: 78620346
Filing Date: 04/29/2005

To the Commissioner for Trademarks:

MARK: (Standard Characters, see mark)

The mark consists of standard characters, without claim to any particular font, style, size, or color.

The literal element of the mark consists of BODIPEDIC.

The applicant, World Sleep Products, Inc., a corporation of Massachusetts, residing at 12 Esquire Road, North Billerica, Massachusetts, United States, 01862, requests registration of the trademark/service mark identified above in the United States Patent and Trademark Office on the Principal Register established by the Act of July 5, 1946 (15 U.S.C. Section 1051 et seq.), as amended.

Intent to Use: The applicant has a bona fide intention to use or use through the applicant's related company or licensee the mark in commerce on or in connection with the identified goods and/or services. (15 U.S.C. Section 1051(b)).

International Class 020: Mattress toppers, pillows, chairs, chair cushions and padding materials for upholstered chairs
International Class 024: Bed sheets and linens

Applicant claims ownership of U.S. Registration Number(s) 2841062.

The applicant hereby appoints Renee Inomata and Merton Thompson, Anne Pareti of Burns & Levinson LLP, 125 Summer Street, Boston, Massachusetts, United States, 02110 to submit this application on behalf of the applicant. The attorney docket/reference number is 21098.5.

The USPTO is authorized to communicate with the applicant or its representative at the following email address: RInomata@BURNSLEV.com.

A fee payment in the amount of $650 will be submitted with the application, representing payment for 2 class(es).

Declaration

The undersigned, being hereby warned that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. Section 1001, and that such willful false statements, and the like, may jeopardize the validity of the application or any resulting registration, declares that he/she is properly authorized to execute this application on behalf of the applicant; he/she believes the applicant to be the owner of the trademark/service mark sought to be registered, or, if the application is being filed

under 15 U.S.C. Section 1051(b), he/she believes applicant to be entitled to use such mark in commerce; to the best of his/her knowledge and belief no other person, firm, corporation, or association has the right to use the mark in commerce, either in the identical form thereof or in such near resemblance thereto as to be likely, when used on or in connection with the goods/services of such other person, to cause confusion, or to cause mistake, or to deceive; and that all statements made of his/her own knowledge are true; and that all statements made on information and belief are believed to be true.

Product Features

- This is a revolutionary advance in sleep technology to provide a deeply restful sleep that relaxes, refreshes, and rejuvenates. Provides relief for sufferers of snoring, insomnia, neck pain and stress Materials: Visco and gel memory foam Density: 3 pounds
- Pillow measures 20 inches wide x 15 inches long x 5 inches thick Memory foam is resistant to dust mites and is naturally antimicrobial Originally designed for NASA, this space age foam cradles your body, reducing pressure points that cause tossing and turning
- Provides the 'just-right' amount of cradling for maximum comfort Gives more support at higher compression levels so you get

support precisely where it is needed Conforms to your body's contours to promote spinal alignment

- Memory Foam Do's and Don'ts: To maximize memory foam expansion; remove from packaging within 72 hours of receipt. This product arrives very tightly packed. Please unwrap and allow 48 hours for this product to return to its original shape. Being sealed in plastic packaging sometimes traps odors. A few hours of airing usually removes the odor. Due to machine cutting manufacturing processes, there may be slight variances in the dimensions of this product.
- Reduces memory foam heat retention and improves air circulation.Due to the nature of Memory Foam the firmness level of every item is unique. Please be advised that even similar products may produce different firmness results.

Product Description

This pillow features an exclusive 2-layer construction that combines therapeutic cradling and superior comfort with gel bead infused memory foam. Whether you are a side or back sleeper, this Bodipedic pillow will help you get a better night's sleep. Made In USA.

Very comfortable, August 19, 2010

By **R. Paul Bhatia** (Baltimore, MD) - See all my reviews

Amazon Verified Purchase (What's this?)

This review is from: Bodipedic Queen Size Pillow Top Mattress Enhancer (Kitchen)

Great product, makes any firm or medium mattress instantly comfortable. The skirt keeps it securely on mattress. This is much better than those rectangular pieces of memory foam that just lay on top.

Comfy mattress topper, October 8, 2011

By **Hilary Goodwin** (Alexandria, VA) - See all my reviews

Amazon Verified Purchase (What's this?)

This review is from: Bodipedic Queen Size Pillow Top Mattress Enhancer (Kitchen)

I bought a cheap mattress for grad school that ended up being really uncomfortable. The cheap mattress pad I bought didn't do any good so I splurged on the Bodipedic mattress pad and was really satisfied with the difference. The mattress pad is well made and fits well on the mattress. I would highly recommend this mattress pad if you want to sleep better!

Bodipedic Queen Size Pillow Top Mattress Enhancer,
October 27, 2010
By **Teresa Leininger** - See all my reviews
Amazon Verified Purchase (What's this?)
This review is from: Bodipedic Queen Size Pillow Top Mattress Enhancer (Kitchen)
The mattress topper was as described. It could be a little thicker but it is still very comfortable. The topper fits perfectly on my mattress.

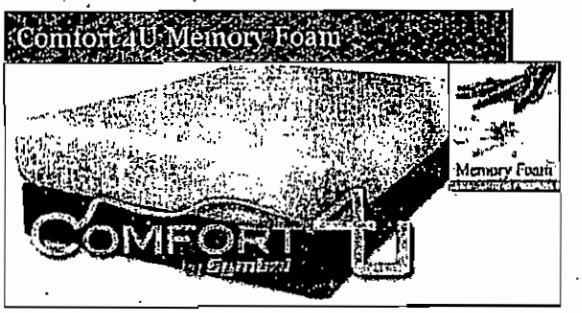
ou don't feel the same way every day, so why hould your bed?

Comfort 4U conforms to your body at your command. This 3-bed series features a personalized comfort system that allows you to control the plushness and firmness of each zone with an individual remote. The key to comfort is the adjustable support chambers that can actually adjust separately; this also allows you to adjust your level of comfort without disturbing your partner.

Features & Benefits:

- Pressure relieving, high density "furniture grade" foam.
- Memory foam minimizes motion transfer from one side of the bed to another.
- The Convoluted Super Soft Foam increases air circulation and prevents your body from becoming too hot during sleep while reducing pressure points at a softer comfort level.
- The 2 Zones with 2 Twin Air Chambers allows you to control how plush or firm the bed is and adjust your level of comfort without disturbing your partner.
- The Foam Encased Perimeter Support enhances comfort to the edge of the bed and provides a wider sleeping surface.
- The Extra Firm Foam on the bottom side of the bed adds profile and support to the unit.



Foundation:
Premium High Profile Contract Grade Foundation with Waterfall Upholstery

Size Options:
Queen, King

Warranty:
20 Year Non-Prorated Warranty
2 Year Non-Prorated Warranty on the pump, remotes and air chamber system

Specifications:

- Memory Foam
- Convoluted Super Soft Foam
- 2 Adjustable Air Chambers with a Foam Encased Perimeter Support

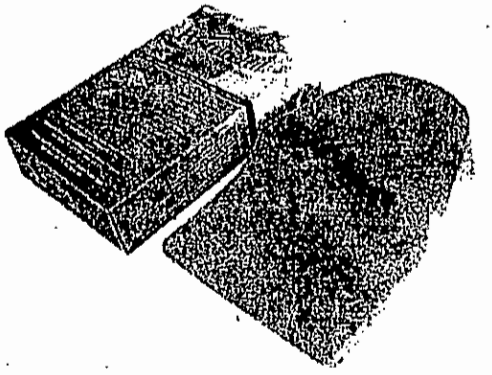
Posture Pal



Posture Pal

Posture Pal

A specially designed therapeutic cushion to improve posture while relaxing or exercising.

How Posture Pal® Works

The Posture Pal® positions you to allow gravitational forces to stretch anterior body tissues while placing the posterior tissue in a shortened position. Posture Pal® is designed to bring your head and shoulders into a healthy, normal postural position. That simple benefit allows comfortable, balanced functional motions for your life which reverses or eliminates common upper body aches and pains.

Why Is The Posture Pal Important For Me?

During the day, a person flexes their spine on average between 1,500 and 4,000 times per day while extending their spine, at best by less than half of that. This imbalance in motion, over time, develops an increased kyphotic posture (rounded back), off-centered joint positions and asymmetrical musculature. These effects are often neglected because, as the saying goes "out of sight... out of mind." This usually continues until a person has their "Ouch, that hurts" moment. Have you had yours? The good news is that posture can be corrected in mild to moderate cases and aided in severe cases with proper positioning using the Posture Pal® to recreate a balanced torso.

How Do I Know If My Body Pain Is Because Of Poor Posture?

You may be at risk of suffering the effects of poor posture. Over 50% of all common aches and pains above the chest are related to poor posture. Check with qualified healthcare professionals such as your physician and physical therapist for proper testing. Here are some common painful manifestations of poor posture.

- Aches and pains in the upper torso, neck and shoulders
- Headaches
- Pinching pain in front of shoulders
- Sharp pain in ribs or back

Why Should I Use The Posture Pal®?

There are other postural enhancing products available that have helped scores of sufferers. Posture Pal® unique design is unlike any other for comfort and results. A comfortable head rest with supportive material for the head and neck along with a comfortable, yet firm center element along the thoracic spine enhances stabilization and gentle stretching. A gentle grade from spine to shoulders positions the shoulders in a proper alignment.

How Should I Use It?

After being hunched over a computer all day, slaving away on an assembly line with neck and back pain, or just slouched on the couch, place the Posture Pal® on your bed, couch, or floor and relax or implement an exercise regimen to use on Posture Pal®. The Posture Pal® is designed to do the rest. For severe postural changes, use Posture Pal® between 5 and 20 minutes at least once daily depending on ones physical condition. Good posture is now in your control with Posture Pal®.

"Posture Pal helps relieve the muscle tension I get from sitting at my computer."
-- Sandy Wachowski
Kalamazoo, MI

"I like it a lot. It's helping with my lower back a lot. I'm going back to the health club tonight, which I've not been able to do because of the pain I've had since July. It's pretty cool."
-- Sheila McCleer

Chicago, IL

"When I use my Posture Pal and do my exercises, my back and neck pain go away! Thanks Posture Pal!"
– Karen VanderWarl
Lowell, MI

Spring Air Back Supporter Series

The Spring Air Back Supporter mattress series offers you a combination of exceptional back support and pressure-relieving comfort.

Exceptional Back Support: The Spring Air Back Supporter offers a superior center-support design that begins with a patent pending carbon neutral eco-friendly base. The center zoning delivers longer lasting back support, whether by high density coils or the body contouring individually pocketed coil design, there is a Back Supporter mattress that will deliver the right support for you.

Pressure Relieving Comfort: The latest Spring Air Back Supporter beds each feature various levels of foam designed to relieve pressure in the shoulder and hip area. Using natural latex, and unique surface modification designs, Back Supporter beds provide pressure relief and balanced weight distribution. From the very beginning of Spring Air more than 86 years ago, pressure relief, proper spinal support, and alignment has been a fundamental focus in all of our bed designs.

The Spring Air Back Supporter Collections

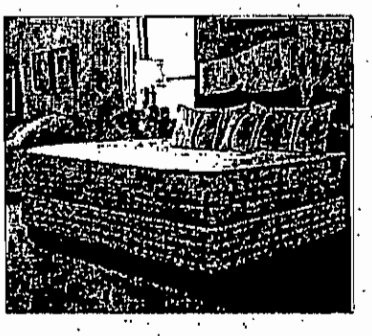
The Spring Air Back Supporter 500 Series - features a foam-encased 5-zone dual gauge Back Supporter spring unit offering the perfect balance of pressure relief and support where you need it most. Latex and memory foam topper designs combined with the patented Eco-wood foundation make for a superior sleep experience.
Features Include:

- 5-zone Back Supporter spring unit
- Foam-encased design
- Latex/Memory Foam
- Patented Eco-wood foundation
- 10 year non-prorated warranty

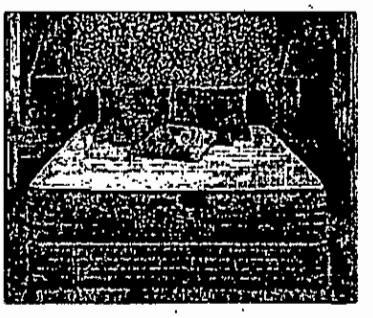
Excellent Support - center zone design combined with foam-encased edges provide stability and support.

Superior Comfort - premium latex and memory foams are used to take pressure off hips for a more comfortable and restful sleep.

Enhanced Durability - both the weight of the mattress and the sleepers are supported for years with the patented Eco-wood base.



The Spring Air Back Supporter 700 Series - is the flagship of the Perfect Balance line, and offers the ultimate in sleeping luxury. The Back Supporter 700 Series offers a foam-encased 5-zone dual gauge pocketed coil Back Supporter spring unit designed to deliver unsurpassed comfort and support.



Features Include:

- 5-zone pocketed coil unit
- Foam-encased design
- Latex/Memory Foam
- Patented Eco-wood foundation
- 10 year non-prorated warranty

Unsurpassed Support - unique 5-zone design provides personalized body-contouring support for a more comfortable and restful sleep.

Premium Comfort - varying levels of premium 5-zone pocketed coils are used to take pressure off your hips and shoulders.

Enhanced Durability - both the weight of the mattress and the sleeper are supported for years by the patented Eco-wood base.

Keep Your Comfort

Sleep the Way You Want

Reduce Acid Reflux

The MediWedge™ does not force you to change your sleep surface, sleep position or choice of pillows.

Proudly Made in the USA

According to Experts...

- Weight loss and head of bed elevation are effective lifestyle interventions for GERD.
  - Stanford Study 2006
- Raising the head of your bed has a positive effect on symptoms associated with GERD.

Bed Wedge Designed for Comfort

The MediWedge™ is a patented medical device that uses gravity to reduce or mitigate the effects of nighttime acid indigestion or GERD. The design uses gravity to help keep the acidic contents of the stomach in its place which in turn reduces the impact of acid to the esophagus.

Traditional Mattress

At night acid and stomach contents can back up into the esophagus.

Mattress with MediWedge™

MediWedge™ uses gravity to help keep stomach contents from entering the esophagus.

www.GERD.com

Having the head slightly higher than the stomach allows gravity to keep stomach contents where they belong.

www.Heartburn.About.com

Raise the head of your bed so that your head and chest are higher than your stomach.

PRO-LINE
The Pro-Line Series comes in high density foam designed for serious exercise routines.
PRO-LINE

Dr. Les Carios
Columbus was right. The world is round. But if you look at this majority of chairs, exercise benches, exercise machines and car seats, you might think otherwise. Most of these surfaces are, indeed, flat. And that means trouble for your spine, which resembles a soft, "s" shape. Trying to force your back to be perfectly flat in order to fit standard seats can cause pain, weakness and even injuries. But to mention the problems that can occur when exercising without proper back support. But what's a curved spine to do in a mostly flat universe?
Enter the Suportapedic back support, a completely unique neck, full spine, mid back and low-back support that slides easily into any chair, active exercise machine, car seat and exercise bench to fully support the natural contours of your neck and spine to help prevent strain and injuries as a result of exercise, long car trips and even watching TV.
Philip Reyes, a Doctor of Chiropractic with additional training as a Certified Chiropractic Sports Physician, designed the Suportapedic to help him combat the constant back strain he sustained from working out on conventional exercise equipment. "During college football there are several car accidents that weakened various parts of my body, my usual weight-lifting routine started to become injurious to my back and here that I had to stop working out," he says. "I realized that it wasn't the exercises themselves that were causing the problems but that I was performing them without any back or neck support."
Dr. Reyes created several prototypes until he arrived at the Suportapedic Back Support, a first-of-its-kind product that completely supports your spine and neck to prevent aches, strains, sprains and injuries.

Our mission is to provide a product that protects your spine and neck, while improving your posture and health. Chiropractors love the Suportapedic Back Support because it fully supports the complete contours of your spine and neck when you drive, travel, exercise, or sit in a high back recliner at home or work. It also makes wheelchair use more comfortable.

Foot Levelers Pillo-Pedic Neck Pillow from HealthyKin.com is recommended by chiropractors nationwide for people with neck pain. The Pillo-Pedic Pillow provides gentle neck traction while you sleep, helping to promote correct neck alignment and maintain cervical spine support. Pillo-Pedic's patented four-way design includes a specially constructed edge for added support, and a flat profile which helps eliminate pillow roll away. Designed for both side or back sleeping positions, the Pillo-Pedic helps pillow users wake well rested and refreshed after a great night's sleep! This chiropractic pillow also helps to relieve whiplash, neck and shoulder discomfort and tension headaches.

Foot Levelers Pillo-Pedic Neck Pillow Features:

- Narrow and wide edge and a soft and medium center
- Provides therapeutic traction and support for the cervical spine
- Patented "4-in-1" design for support and comfort
- Relieves stress and muscle tension

This Mattress is made in a 6.5" Futon Mattress, or an 8" Bed Mattress. Both styles contain Aerus Memory Foam which is the only open cell memory foam to offer cooler, luxurious, shape-conforming comfort without sacrificing support or durability. Due to its unique cell construction, Aerus allows air to flow through the material far more efficiently than traditional memory foams, leading to faster heat and moisture dissipation and increased comfort. Yet Aerus provides superior comfort and durability compared to standard viscos. Let cool, comfortable Aerus help open a new window of opportunity for your visco-based premium sleep systems.

brooklynjh — **Great Bed**

Purchased for: Master bedroom
April 4, 2012

Pros: Great value, Supportive

Had this bed for a month now. Wasn't sure what to expect since I ordered online but didn't want to have to go out to get it. Very pleased. It's firm without feeling like the floor and doesn't make noise when you move around on it. In all, a great bed and soooo much better than my last bed.

Memory-Pedic Mattresses, feature three layers for optimal support. The top layer features three inches of four-pound Visco Foam for pressure-reduction. Visco Foam is temperature-sensitive, gently conforming to each sleeper's individual shape and size. The second layer consists of two inches of Tri-co Conforming Foam which provides a resilient, transitioning buffer, encouraging proper back support. Lastly, the bottom layer is comprised of five inches of H.R. (High Resiliency) high-density polyurethane foam. All sleep components are laminated with an odorless, hypoallergenic adhesive to maintain the finely-tailored look of premium bedding.

The Amazing Benefits of Owning a Primopedic

A Decreased Amount of Night Time Wakings

A viscoelastic mattress from TheMattressSecret.com easily solves two of the most common complaints by consumers today: That they're too hot or that they're uncomfortable. Pressure point caused by inner spring and conventional foam mattresses can not only be painful during the night, preventing you from getting deep, restful sleep, but they can also create a sustained and lasting pain during the day. If you wake up with chronic back or neck pain, then maybe it's time for a change. The open-celled technology of memory material allows air to flow freely through the mattress and conform to your body (even in the hollows of your natural back's curve), this allows for greater support and reduced pressure points. And incredibly, this very same airflow is the reason why a memory material mattress has superior temperature control. By letting the warm air easily pass from any part of your body into the room, you will sleep more comfortably and therefore awake more rested.

Sleep Quality Greatly Improved

I don't know about you, but before I had my memory mattress, when I heard my alarm go off in the mourning, it felt like heaven to push snooze even 1 more time. I craved sleep and constantly tried to get more. Whether it was a quick nap during the day, or a short snooze while at work, at every opportunity I had, I wanted to sleep. But that all changed when I finally slept on my new mattress. After just a few nights, I truly noticed the difference. Not only did I have more energy throughout the day, but I would wake up feeling refreshed and energized (and I still do). What's more, I know why I feel so much better. I'm not constantly tossing and turning all night trying to find a comfortable position. Instead, jumping out of bed in the mourning, pain-free, I'm now up in time to eat breakfast with my father and drive to work at a 'safer' speed.

Thanks again to the way the amazing little open cells cradle your every part, tossing and turning at night is virtually eliminated. This allows you to stay in the same position longer and thus fall into a deeper REM sleep. Concurrently, when sleeping with a partner, motion is not transferred across the bed so that if you do have to move or get up, the other person is none the wiser. And when you get back into bed or turn onto your stomach, you're still completely comfortable: the amazing memory foam slowly springs back into the optimally comfortable position re-adjusting and conforming to your curves.

The Visco and the Elastic of the Memory Material

Although its commonly called viscoelastic material, I'm often surprised that many people don't really understand how it go that name. The answer is simple and beneficial. Due to it's body temperature specific sensitive properties, as the material touches your skin and 'feels' the heat of your body, it automatically softens, that is, becomes more elastic; this allows for a softer, more comfortable, and more supportive feel. Yet as the distance between you the material increases, as in foam that's deeper into the bedding or that's farther away to your left or right, the material is cooler and thus becomes more viscous, that is, firm. This unique ability means that you are cushioned without sinking into your mattress to the point where it is uncomfortable to rollover. This, again, means that less effort is exerted while sleeping and a deep sleep and, indeed, better quality sleep can be achieved each night.

Allergy Relief at Last!

Like millions of other Americans, I suffer from year-round and seasonal allergies. And one of the prime culprits in my allergy attacks is the dust mite. Feeding on and living in the material used in inner spring beds and conventional pillows, these microscopic creatures cause all sorts of problems. Yet with ALL the mattresses available from TheMattressSecret.com, all this changes. Not only does the memory material we use in our mattresses NOT provide a food source or living conditions for the dust mites but ALSO, each mattress comes with and is covered by a 99% Hypo-allergenic cover, designed to eliminate stress and pressure from allergies. And, as someone who has been truly crippled from allergies in the past, I can personally say that sleeping on a mattress made of this revolutionary material eliminates my allergic reactions and lets me get a good, sound night's sleep. My irritated itchy eyes are gone and my sinuses and nasal passages are more open, relaxed, and free of congestion. Fantastic.

Want to Sleep 6 Hours and Feel like You've Slept 9?

For any one of us, time is precious. You have to take care of yourself, go into work each day, do housework and cleaning, first prepare, and then eat breakfast, lunch, and dinner, work out, have a social life, do the laundry, and SOMEWHERE in there, get some sleep. Unfortunately for most people, although the responsibilities change, they never go away. That's why its so important that the little time you DO get to sleep each night is as restful as possible (be it only 3 hours because your newborn was up all night, or a more modest 6 hours because you were going out to dinner with your friends and still had some things to take care of at home when you got back home). The point is that sometimes you simply CANNOT get more sleep; and in these tough situations, our only option is to fall asleep quickly and get as much deep restful and recuperating sleep as possible. And with all of our viscoelastic memory material mattress, this is truly possible. In fact, this is one of the primary reasons I started this company in the first place: I think that everyone is ENTITLED to get the most out of their rest so that they can boast their performance in their careers and have the energy that they (and the people around them) want them to

This mattress feels: firmer than expected — Softer than expected

TMASSA *December 16, 2011*

Purchased for: Master bedroom

Pros: High quality

If you like a firm mattress this one is perfect. We have had it for about a month and we have no complaints.

Product Description

Design: Select Memory Foam

The snoozerpedic dreamweaver is the world's first ergonomically designed full body pillow made out of luxurious high quality memory foam. Similar to our snoozer brand dreamweaver it combines the support of 3 pillows in one unique design and supports all sleeping positions. This dual patented pillow is made out of coolbreathe memory foam to ensure maximum molding and heat dispersion qualities. The memory foam core is then encased in a premium quality velour cover to ensure years of lasting enjoyment. Each pillow also comes with a luxuriously soft 500 thread count mercerized pure sateen cotton pillowcase that's removable for easy washing.

★★☆☆☆ Not as thick as picture and not long enough January 15, 2013
By Ryan McNeese
Pattern Name: Select Memory Foam

Durable, firm material. Just not for me. I needed a longer pillow to put in between my feet. I returned it and bought an Embrace Memory Foam Pillow. I would have kept the SnoozerPedic if it had been thicker around. It would probably suit a smaller person well.

★★★★★ Liking it May 20, 2012
By erica
Pattern Name: Select Memory Foam | Amazon Verified Purchase

I've been sleeping with this pillow for a few nights and like it. It supports nicely my leg and arm, and can accomodate my pregnant belly. It's not very wide, which is good for me because I share a queen bed with my husband. If I had more space, I would of liked a wider pillow. It doesn't make me hot or sweaty. Still not sure if it's worth all the money though!

Didn't want husband to get this pillow because of the cost, but he bought it anyway...The first great nights sleep I have had in a long, long time.

Would recommend to anyone.

Classic Hybrid Pillow (VPP-AD80)
This innovative pillow is the ultimate memory foam pillow. Combining two memory foam formulations, one side firmer and the other side softer the Hybrid pillow offers the following benefits

- Caters for different personal firmness preferences.
- Memory Foam is temperature sensitive and firmness generally changes between summer and winter. The Hybrid pillow allows you to simply turn the pillow if it gets too soft or too firm because of room temperatures.
- It is better than a all soft, or all firm pillow as using two firmness levels in one pillow creates a unique dynamic. When sleeping on the softer side, the firm side of the pillow helps to provide extra support. When using the firm side of the pillow, the soft side allows for some give and better elasticity in the pillow.

Mattress Brands

Quality Materials, Innovative Design and Exceptional Value

Therapedic mattresses feature advanced technologies that offer exceptional support, comfort and durability. This focus on innovation has not gone unnoticed; Therapedic has been awarded numerous patents, both here and abroad, for the leading-edge mattress components we've developed over the last fifty years. We invite you to compare the features and benefits of our mattresses with those of any leading brand. We're certain that you'll see what our customers have known for a long time; that a Therapedic Mattress offers a superior night's sleep and a better value.

A quality mattress is an investment in your health

To say that your quality of life depends on how well you sleep may sound like an exaggeration, but it's the truth. Physiologic studies suggest that sleep deprivation may put the body into a state of high alert, increasing the

production of stress hormones and driving up blood pressure, a major risk factor for heart attacks and strokes. Is a good night's sleep essential, then, to good health? Absolutely.

A Therapedic premium quality sleep set is designed and engineered to provide you with the kind of proper support and comfort your body needs for a deep, restful sleep. And, it will do so for years and years. Purchasing a Therapedic mattress is an investment in your overall wellness that costs you just pennies per night.

It's what's inside that counts

When you look for a new sleep set, remember this: It's what you don't see that counts, such as the design and quality of the inside components. This is what distinguishes a good mattress from, well, a "not so good" one. "On sale" mattresses may look like bargains, but your savings will be little comfort when your mattress begins to quickly show its age. Purchasing a premium mattress, such as a Therapedic, will help you sleep better at night for two reasons: one, you'll be getting the comfort and support your body needs and two, you'll have made a very wise investment in a product that will last for many, many years.

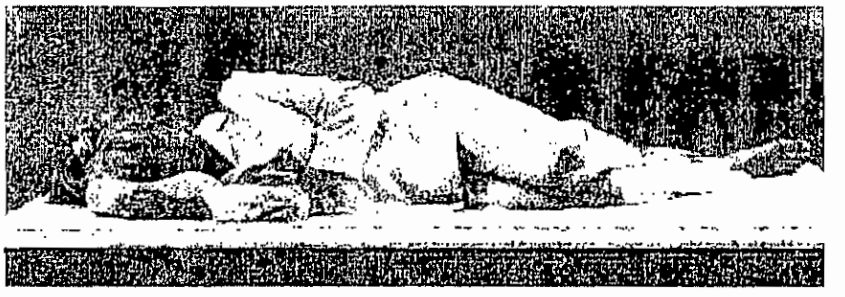
The Nimble-Pedic™ Mattress Overlay

The **Nimble-Pedic™ Mattress Overlay** measures 3" thick and is available in standard mattress sizes - Twin, Twin-Long, Full (Double), Queen, King and California King. This is an economical alternative to full mattress replacement or other more expensive and sometimes less supportive overlays.

The greatest percentage of our customer feedback suggests that this overlay at least equals and in many cases exceeds all expectations when compared with the Tempurpedic® Mattress Overlay.



Our Nimble-Pedic™ Mattress Overlays Feature:

- 2-In, 5.3-Lb, 13-Ild Premium Visco-Elastic Memory Foam Top Layer.
- 1-In, 2.4-Lb, 34-Ild "HR" (High Resiliency) Polyurethane Foam Base.
- A Luxurious Velour Zippered Mattress Cover which is Machine Washable.
- Ideal for Overnight Guests and Recreational Vehicles
- Dust-mite Free

Rationale For Use of a Mattress Overlay: The purpose of a mattress overlay or mattress topper is to make an existing hard or overly firm mattress more forgiving. In other words, if one finds that they are developing certain pressure points, particularly the hip and/or shoulder joint when sleeping on the side, or the base of one's spine when sleeping on the back, then an overlay may be deemed necesssary. It serves to absorb the more protruding parts of our body. An overlay will NOT however benefit a person who is sleeping on a mattress that is sagging or is too soft.

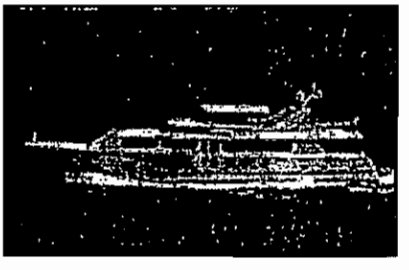
Nimble-Pedic™ Memory Foam Yacht Mattress - *Experience Sleep!*

The Memory Foam Yacht Mattress by Nimble-Pedic™ is the ideal foam for yacht mattresses yacht mattresses. is ingeniously made from a temperature-sensitive visco-elastic material chemically very similar to what was originally developed 20 years ago by the N.A.S.A. Space Program.

Utilizing a high density, advanced visco-elastic material, this yacht mattress is both hypo-allergenic and environmentally friendly. The foam has been tested for its ability to conform to the shape & curves of the human body. Although the "shape adapting foam" in our mattress is in essence a memory foam, the feel seems so special when we compare it to other foams in the industry, that we call it "Nimble Body Conforming Material™ ". This material is 100% dust-mite free, making it great for allergy or sinus sufferers.



Motionless Seas: Another great feature when compared to other mattresses for yachts is the fact the Nimblepedic™ reduces much of the impact, and absorbs much of undesirable motion resulting from rough seas. This visco-elastic material is a high-density equivalent to a 5.3 lb. memory foam, which is rarely seen in the market. Many times more dense than foams used by many other manufacturers, the material is temperature sensitive. In other words, when below 60 degrees, the mattress becomes firmer, but at body temperature it becomes quite soft, molding itself to the body's shape.

Since the contact area distributes pressure evenly, there are no numb spots or pressure points. **The Nimble-Pedic™ Yacht Mattress** provides equally dispersed support without pressure points. There is no sagging of the spine or undesirable "hammock effect." After many years of clinical research on humans and sleep, and extensive experience with TEMPUR-PEDIC®, **The Nimble-Pedic ™ Mattress** was born. This mattress was once considered a luxury, but has become a necessity for those desiring the best sleep experience. Willmaxx takes luxury a step further and now offers Nimblepedic™ as **the ultimate mattress for yachts.**

Mattress Depth Choices

- *For Non-Conventional Bed sizes (i.e. custom sizing on many yachts)*, **the Traditional Nimble-Pedic™ (8.5" thick) Mattress Option is all that is available:**
  - Simple elegance in the thickness standards of mattresses before pillow tops were in vogue. This type of mattress is like the Tempur-Pedic® Mattress that started the trend for high-tech foam-like mattresses in this country. This mattress offers a great sleep surface at a modest price. Please be aware, that this mattress works best with sheets that have a 9-10" pocket like the standard of times past.
- **Deluxe Nimble-Pedic™ (10" thick) Mattress Option**
  - The Deluxe Mattress is a very popular choice for conventional beds sizes. It is 1.5" thicker than the traditional mattress that makes it more consistent with the higher profiles of today's mattresses. It sits a little higher in the bedroom, having aesthetic appeal to those who desire a more traditional romantic flare in their bedroom. This is simply because it sits higher from the ground. This mattress requires sheets with a 10" or deeper pocket. The feel is similar to the Traditional Nimble-Pedic™ Mattress. The Deluxe model has the same luxurious 3 5/8" visco-foam layer with an ILD rating that we feel gives it our *Plush Touch Advantage* over competitive products.
- **Nimble-Pedic also makes a top consumer rated memory foam mattress for your home.**

Features of Heat Reducing, Air-Permeable Mattress Cover

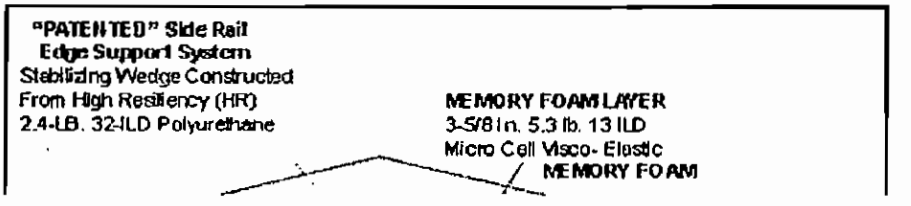
- **New**–Now featuring a super, plush, cotton velour cover that is not only dust-mite and allergy free, but is also resistant to bacterial, fungal and viral organisms. This Mattress Cover is **air-permeable** and **dissipates heat** as air flows through the mattress. It zips on 4 sides for removal and laundering.
- Allergy tested and approved (dust mite free)
- CFC free (i.e.: **No** chlorofluorocarbons or other harmful gases emitted from the foam)

10 Year Limited Warranty

- 10-Year Limited Warranty - The Nimble-Pedic™ Yacht Mattress is complimented by a 10 year (5 year non-prorated, 5 year pro-rated) manufacturer's warranty.

Patented Side Rail Support

- The availability of the patented side rail feature shown below is dependent upon the actual sizing required for your foam yacht mattress. Custom sizes do not include the side rail edge support.



- **Reduces tossing and turning** by equalizing support across your body's surface.
- The 3 5/8" pressure-relieving layer evenly **distributes pressure**, promoting better circulation.
- Special **edge support** creating a better seating surface from which to arise when suffering with knee, hip or back pain. Also, easier for putting on socks or hosiery.
- Great for those with back pain, fibromyalgia, or insomnia and other sleep disorders.

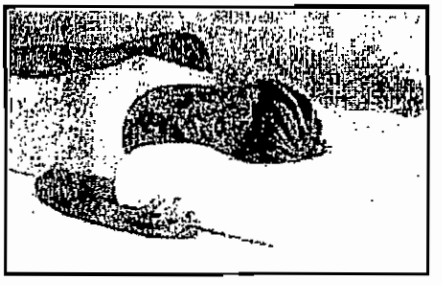
Nimble-Pedic™ Pillows



Nimble-Pedic™ Pillows are made from 5.3 Lb. high quality, visco-elastic polyurethane foam, not unlike the well known Tempurpedic® Pillow.

We utilized the highest quality memory foam we could acquire in today's market. The density of polyurethane foam has a direct bearing on the quality of the foam itself. To a point, the higher the density, the better the support!

The design of the **Nimble-Pedic™ Contour Pillow** supports the curve created by your head, neck and shoulders to properly align your spine and give you a perfect night's sleep!

Choose the thickness based on your shoulder dimensions and sleeping position preference (back or side) to promote an anatomically correct posture. A pillow that raises your head too high or allows it to fall too far back not only places stress on your neck, but also could inhibit breathing.

Nimble-Pedic™ Contour Pillows	Pillow Size	Pillow User Suggestions
Regular 4"	4" x 12" x 20"	Small to average size woman or small-framed man with narrow shoulders. Also for those who like a very thin pillow
Regular 5"	5" x 12" x 20"	For side sleepers with wider shoulders, those that need elevation for breathing, or those who generally like a thicker pillow. ***This is our most popular thickness***
		Longer pillow with same user stats as

Queen 4"	4" x 14" x 24"	Regular 4" Pillow
Queen 5"	5" x 14" x 24"	Longer pillow with same user stats as Regular 5" Pillow

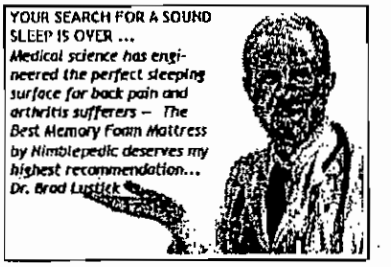
SWEET DREAMS !

***NimblePedic™* Means Comfort & Support**

Our Memory Foam Mattress receives rave doctor reviews and kudos for superior customer satisfaction.



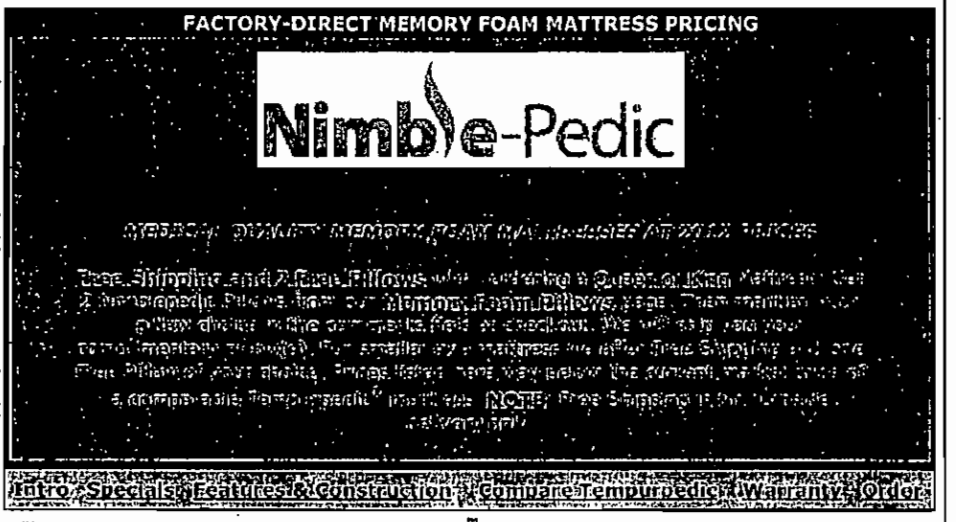
- **Developed by Chiropractic Back Doctor for Back Pain Sufferers:** this Memory Foam Mattress has a doctor-tested track record for providing a comfortable, rejuvenating sleep cycle. Wake up without back pain.
- **13 Years Studying User Response To Sleeping On Tempur-Pedic® Mattresses** revealed pros and cons, teaching us the most important protocol for the perfect memory foam mattress. After examining and testing the foam from hundreds of bed manufacturers worldwide, the Best Memory Foam Mattress was born -- NimblePedic™.
- **Doctors Recommend Nimblepedic.** Look no further!

The Nimblepedic Memory Foam Mattress Difference

- Nimblepedic was researched and offered **exclusively for the treatment of back pain, arthritis and other neuro-musculo-skeletal conditions.**
- Our consumer evaluations confirm the therapeutic value of Nimblepedic memory foam when compared to water beds, air beds and competitors' visco-foam mattresses.
- Most shoulder pain complaints are eliminated for side sleepers who experience the comfort of our mattress.
- Numbness and pressure points are curtailed by our proprietary memory foam composition.
- Uniquely impregnated with a charcoal originating from bamboo we offer superior moisture and odor control. This technology also lessens allergies and offers a cooler sleep.
- 70-80% less tossing and turning is experienced when compared to a conventional mattress.
- A wealth of customer feedback validates satisfaction and the benefits of Nimblepedic Memory Foam.
- There is a significant difference in mattress quality because our foam is scientifically engineered and then poured to have the perfect density and feel. Competitive

mattresses are often sliced from sheets of foam and not individually poured to satisfy the needs of the human form.

- **Therapeutic sleep** requires a high density visco memory foam mattress with the superb supportive qualities found in Nimblepedic. This is combined with the pressure relief necessary for comfort and restful sleep.
- Nimblepedic incorporates **side-rail support** for durability and comfortable sitting on the edge of our beds. Additionally, this helps contain the memory foam and improve durability of the mattress.
- ***Nimblepedic is affordable luxury***. Why settle for less? Order now and take advantage of our 60 day trial.
- More questions about why Nimblepedic is best mattress choice? Review our **Frequently Asked Questions on Memory Foam Mattresses** See why ours is your best choice.



OTHER GREAT FEATURES OF NIMBLEPEDIC™

- **Customer Satisfaction Beyond Compare:** The return rate under our **60 Day Trial Policy** for the Nimblepedic Comfort Mattress is 75% less than we experienced with other foam mattresses including Tempurpedic®.
- **Reduces tossing and turning** by equalizing support across your body's surface.
- The 3 5/8" pressure-relieving layer evenly **distributes pressure**, promoting better circulation.
- Special **edge support** creating a better seating surface from which to arise when suffering with knee, hip or back pain. Also easier for putting on socks or hosiery.
- Great for those with back pain, fibromyalgia, or insomnia and other sleep disorders.
- Nimble-Pedic™ facilitates a more restorative night's sleep.
- Received the endorsement of many doctors and health care professionals.
- Ideal for preventing bedsores, for alleviating backache, for reducing shoulder discomfort from side sleeping, and for providing a restful, relaxing sleep.
- This memory foam bed works with sleigh beds, poster beds, canopy beds, contemporary beds, futon bed frames and many other models of bedroom furniture.
- Two models: **Traditional 8.0"** or the now popular **Deluxe 11" Mattress.**

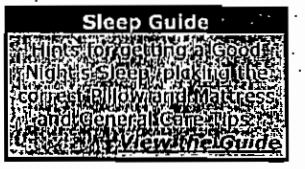
NOTES ON MATTRESS MATERIAL QUALITIES

The **Nimble-Pedic™ Mattress** is ingeniously made from a temperature-sensitive visco-elastic material chemically very similar to what was originally developed 20 years ago by the N.A.S.A. Space Program.

We utilize a high density, advanced, bamboo-based, visco-elastic material that is hypo-allergenic and environmentally friendly. The foam has been tested for its ability to conform to the shape & curves of the human body. Although the "shape-adapting foam" in our mattress is in essence memory foam, the feel seems so special when we compare it to other foams in the industry, that we call it "Nimble Body Conforming Material™". This material is 100% dust-mite free, bacteria, fungal and mildew resistant and has minimal chemical odor often seen in competitors memory foam.



This visco elastic mattress is made from a high-density memory foam (5.7lb. in 11" and 4lb. in 8"), and is the most costly type of memory visco-foam utilized in the therapeutic mattress market. Not only is the material denser than foams used by many other manufacturers, the material is also temperature sensitive. In other words, when below 60 degrees, the mattress becomes firmer, but at body temperature it becomes quite soft, molding itself to the body's shape. Since the contact area distributes pressure evenly, numb spots and pressure points are irradicated. Thus, the Nimble-Pedic™ Mattress provides equally dispersed support. There is no sagging of the spine or undesirable "hammock effect."

AVAILABLE IN TWO MATTRESS DEPTHS

- **Traditional Nimble-Pedic™ (8.0" thick) Mattress Option:**
  - Simple elegance in the thickness standards of mattresses before pillow tops were in vogue. This type of mattress resembles the classic Tempur-Pedic® Mattress, notable for starting the trend in high-tech foam mattresses. This resulted from the N.A.S.A. trial with visco-elastic foams in the space industry. The 4lb. density foam offers offers a great sleep surface at a modest price. Please be aware, that this mattress works best with sheets well designed for memory foam bedding. Ideally, they should have a minimum 9-10" pocket.
- **Deluxe Nimble-Pedic™ (11" thick) Mattress Option**
  - The Deluxe Mattress is our most popular choice. It is 3.0" thicker than the traditional mattress making it more consistent with the higher profiles of today's bedding industry. It sits a little higher in the bedroom, having appeal to those desiring a more elegant decor. The increased height of this mattress facilitates sitting or rising from the mattress when one suffers from back pain, hip pain and/or

SI 640

knee pain. This is simply because it sits higher from the ground. This mattress requires sheets with a 12" or deeper pocket. The feel is more luxurious than our 8" Traditional Nimble-Pedic™ Mattress. The Deluxe model has an even more supportive visco-foam layer with an ILD comfort rating that we feel gives it a *Plush Touch Advantage* over competitive products. The luxurious feel and durability is enhanced with the supportive latex layer below the 5.7lb. visco foam layer.

FEATURES OF HEAT REDUCING, AIR-PERMEABLE SILK-BLEND MATTRESS COVER

- **New**--Now featuring a super, plush, silk-blend velour cover that is not only resistant to bacteria, but also dust-mite and allergy free. This Mattress Cover is **super cool to touch, air-permeable** and **dissipates heat** as air flows through the cover and mattress. The cover zips on 4 sides for removal and laundering.
- Allergy tested and approved (dust mite free)
- CFC free (i.e.: **No** chlorofluorocarbons or other harmful gases emitted from the foam)

Product Notes:

1. NP-MAT - **NimblePedic Pure-Aire Memory Foam Mattress**

   60-DAY TRIAL OFFER AND RETURN POLICY: Although we have an extremely low rate of return on Nimble-Pedic Mattresses, if you should return your mattress during the 60 day trial period, we must regretfully charge you a re-stocking fee of $150.00 each way to cover outbound and return freight as well as our cost of re-covering the mattress as required for resale under federal hygiene guidelines.

   Additionally, any pillows ordered are not returnable. This is due to Federal regulations forbidding resale of pillows. If the purchaser received Free Pillow(s) during a limited time promotion, upon returning a mattress, the purchaser will keep the pillows and be charged 1/2 of the listed price of the pillow(s). Thus, upon completion of the mattress return, the purchaser will receive full credit for the mattress minus the above described charges. Therefore, the restocking fee will be $300.00 plus 1/2 of the list price of any complimentary pillows received as a promo with the mattress purchase.

   If you participated in a GIFT CERTIFICATE PROMO whereby you were promised a gift certificate with the mattress purchase, it will awarded via email at the end of the 60 day

trial period.

Any exceptions to the above described policies will be only those cases with written authorization from Back Be Nimble.

IF PURCHASER DOES INITIATE A RETURN REQUEST, PLEASE ALLOW OUR SHIPPER 7-14 DAYS TO PICK-UP AND RETURN YOUR MATTRESS BEFORE CREDIT CAN BE IMPLEMENTED. THE MATTRESS MUST BE RE-CARTONED BY PURCHASER PRIOR TO PICK-UP. PURCHASER SHOULD RECEIVE RETURN CREDIT 2-3 WEEKS AFTER INITIATING THE RETURN REQUEST. THE CREDIT WILL BE FOR THE ORIGINAL MATTRESS PURCHASE PRICE MINUS APPLICABLE RE-STOCKING CHARGES DESCRIBED ABOVE.

CANCELLATION POLICY: Because we have a 3rd party ship these from our warehouse immediately after successfully processing an order, any cancellations requested more than 24 hours after ordering, will be charged a $150.00 fee to return the **memory foam mattress** to stock.

Royal-Pedic 3" Pillowtop Pad

Royal-Cloud 4" & 5" Pillowtop Pads

Our traditional 8 1/2"- 9" thick, hand tufted mattress is orthopedic firm in its support, and is considered our firmest mattress when used without one of our 3", 4" or 5" pillowtop pads. Over all mattress height to the floor on our 8" thick box spring, and 7" metal frame is about 23" - 23 1/2" (optional pillowtop pads will increase overall height).

Royal Pedic All Cotton Cutaway Description

- The **Royal-Pedic All Cotton Mattress** features our double heat tempered, Royal-Flex® 704i Innerspring System designed in Switzerland. The innerspring unit contains 85% more coils than is standard. The coils in the mattress are open ended, unknotted, six turn coils providing more flexibility, which means greater sensitivity to body contours, overall body support and relaxation.
- Our skilled craftsmen hand layer the staple cotton padding on each side of the innerspring unit to ensure a consistent, supportive sleeping surface. Over 50 pounds of pre-compressed staple cotton go into making a king size Royal-Pedic All Cotton Mattress! No polyurethane foam padding is in the mattress, so you have lasting support for your body and a healthier sleeping environment.
- The inner cotton padding is encased in our luxurious Belgian 100% cotton ticking, which ventilates body heat. Unlike polyester fabrics found on many brands of mattresses, our cotton ticking is non slippery, keeping the pillowtop pads in place to help prevent shifting.
- The mattress is hand tufted the old fashioned way with European tufting straps to further pre-compress the cotton padding for orthopedic back support. We do not use buttons to tuft our mattresses because buttons have a tendency to turn on their side creating an uncomfortable sleeping surface.
- T-Spring Side Supports are installed around the perimeter of the spring system to provide edge firmness and support.

Royal-Pedic Double Diamond Box Spring construction is the finest available. We provide 22% more coils than is standard for extra support and durability, and have 50% more coils located in the center-third of the box spring to support the body better (over 60% of our body weight is located in our torso area). The thickness of our coil wire is an extra heavy duty 8 3/4 gauge compared to the standard 9 ½ - 10 gauge wire. Even our box spring contains a layer of staple cotton padding for added support for the underside of the mattress. Brass corner guards are installed on all corners, rather than the plastic ones that break off easily, and heavy duty cotton fabric is used on the underside of the box spring, instead of the thin synthetic sheeting that commonly droops and frays easily. You will only get the best with Royal-Pedic!

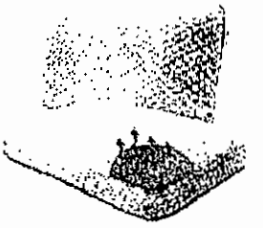
PILLOWS

You can not underestimate the importance of your bed pillow. A comfortable and supportive pillow is essential to getting a great night's sleep, as it alleviates pressure on your neck and shoulders. This plays a major role in proper spinal alignment, reducing pressure on your lower back.



MATTRESSES

Getting a great night's sleep is essential to living a healthy and productive life. At SensorPEDIC® we are serious about sleep – we will not sleep until you do! Our memory foam mattress collection is second to none and is "sleep-engineered" to help you feel cool and comfortable all night long.

BED TOPPERS

Comfort is king, and all mattresses lose both support and comfort over time. SensorPEDIC® has a wide array of bed toppers that will enhance not only the comfort and support of your existing mattress, but will improve the quality of your sleep! Every one of our bed toppers can enhance the sleeping comfort of your ordinary mattress into an oasis of luxurious sleeping comfort, all at a fraction of the cost of buying a new mattress.

ACCESSORIES

From travel to support pillows, from mattress pads to bed frames, SensorPEDIC® has just the right product to meet all your needs!

TRI-PEDIC Memory Foam Mattress

"You Probably Never Dreamed that Sleep Could Feel This Good!"

Introducing the **Tri-Pedic®**, the first three-layer memory foam mattress that supports and protects your body in any environment.

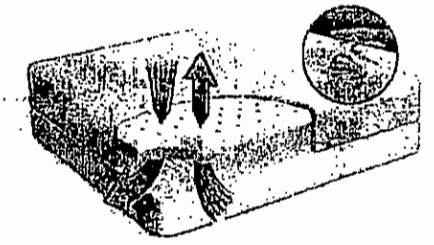
Whether you are suffering from back pain, neck pain, arthritis, bursitis, tendonitis or you just need to get a better night's sleep, the **Tri-Pedic** pressure-sensitive memory foam mattress may be just what the doctor ordered. Created by Dr. Rick Swartzburg, D.C., to help his patients suffering from all types of pain, the Tri-Pedic is the first three-layer, pressure-sensitive memory foam mattress with three different foam densities. We normally sell 4lb., 4.5lb. and 5lb. densities. Through listening to all of our customer feedback, we have learned that each density has its own advantage. A 5lb. density is more expensive than a 4lb. density, but it will support you better, and be more temperature sensitive. Although a 5lb. density is what Tempur-Pedic® uses on their mattresses, many of our customers have reported that it is can be too hard when used by itself, especially in cold temperatures. On the other hand, the soft and plush feeling of a 4lb.density makes you instantly comfortable, but lacks the extra support of a 5lb. density. Therefore we are proud to feature the **Tri-Pedic**, the first three-layer, pressure-sensitive, memory foam mattress with 3 different foam densities to give you **immediate comfort, with the best support system available.**

The **Tri-Pedic** memory foam mattress uses our specially designed hand stitched hypoallergenic, stretchable and breathable Kool-Flow™ Micro-

Vented Knit Cover that is easily removable for washing. It has a special breathable design that will ventilate better than most covers to keep your body temperature constant, so you will not have to worry about this mattress getting too hot. The Tri-Pedic mattress is soft enough to contour to the bumps and curves of your body, but firm enough to provide proper support and will never bottom out. The Tri-Pedic uses similar density memory foam as the Tempur-pedic, but never gets hard when the room temperature drops.



Optional Patented Airflow Transfer System

If your body type generates extra heat or you just want to sleep cooler, the Tri-Pedic now offers the option to add on our patented Airflow Transfer System, which allows cooler air to flow in two directions even when you sleep in the same position throughout the night. Cooler air will enter through the many small holes that go down through the surface of the memory foam and out through the convoluted channels on the firmer base foam. It also works in reverse, as air can enter through the sides and up through the surface holes. This unique system also allows a heat transfer as the warmer air radiates off the body and ventilates down through the holes and out the sides of the mattress. That is why we always use a breathable fabric where the channels exit on the sides of the mattress. In addition, a greater volume of airflow transfer will occur with even the slightest movements that occur throughout the sleeping process. While some mattress companies offer airflow through the middle layer of the mattress, they fall short of allowing the mattress user to receive any airflow benefit.

We are so convinced that you will not find a more comfortable mattress that we are offering a **4-month trial** that includes the option of having us pay for the shipping of another mattress if you are unsatisfied for any reason at all. We also back this mattress with a **20- or 30-year limited warranty** (depending on the model you choose). The Tri-Pedic has even been tested and given the award for space technology innovation in the market place for 2005 by the very prestigious global online news source, SpaceDaily. As you can tell we are extremely proud of this mattress and want you to experience first-hand why the Tri-Pedic has become the trusted name for comfort and support in the memory foam mattress industry.

"After a few nights sleeping on the bed in our RV, my back would ache. I began to dread going away on longer trips. We replaced the original manufacturer's bed with an RV-Queen Tri-Pedic from Selectabed. What a difference! The mattress gives me a great night's sleep and I wake up refreshed - no aching back. I had heard that some memory foam mattresses could be hot to sleep on. Our last trip had temperatures in the 100s and yet the mattress did not feel hot at all."

-Willie, Arroyo Grande, CA

Memory Foam Information

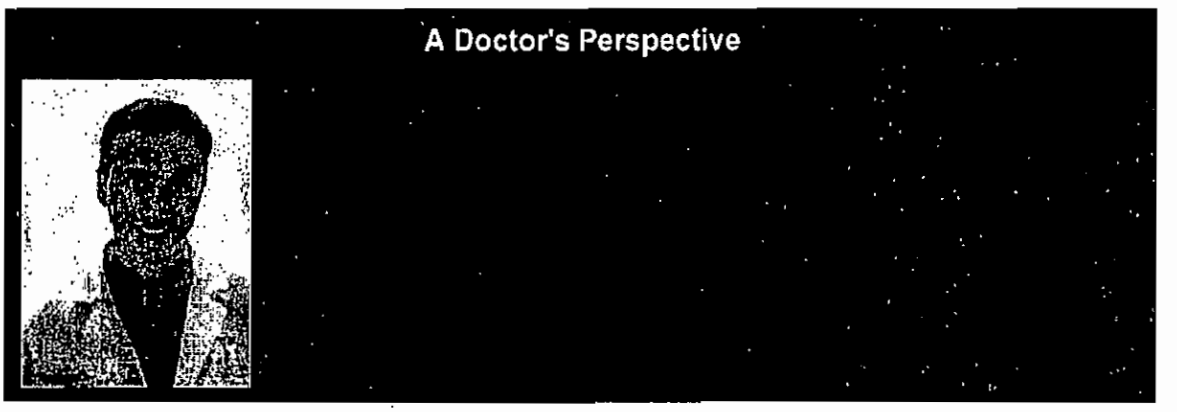
Visco-elastic memory foam was originally developed for NASA, for astronauts undergoing the high pressure of G-force testing. It is a dense foam that molds to the shape of your body. Researchers realized that this high density elastic memory foam was ideal for relieving pressure on burn patients, and this is how the trend of Memory or Visco-Elastic foam started.

Tempur-Pedic® successfully introduced this visco-elastic memory foam to the consumer marketplace many years ago. Unfortunately for consumers, they have to import this memory foam from Sweden since there weren't any domestic manufacturers making this unique foam. The high cost of importing bulky memory foam on container ships is ultimately passed onto the consumer. Once manufacturers realized that there was a demand for this visco-elastic memory foam, they started to make it here throughout North America. Fortunately, this unique memory foam is not patented. Therefore, any foam manufacturer is able to duplicate the exact same foam product, although many do not choose to use the same quality. In fact, most of the memory foam you see available today comes from China, where they do not require the same stringent requirements that U.S. manufacturers face. This allows there to be a wider discrepancy between the high quality U.S produced memory foam found from a certified U.S. manufacturer like Selectabed and the much lower quality foams produced in China for the vast majority of the market place.

The Selectabed™ Cost Advantage

Tempur-Pedic® and national mattress companies also have to spend large amounts of money advertising via television and print media. As a manufacturer who depends upon our reputation that has grown tremendously over the last 10 years, we are able to avoid the heavy advertising costs and pass the savings down directly to our customers! The bottom line is that knowledgeable consumers have the upper hand when it comes to sorting through all the hype and are able to make a sound purchasing decision, while saving a significant amount of money by going direct to the source here at our Selectabed manufacturing facility in California.

*Tempur-Pedic® is a registered trademark of Tempur-Pedic, Inc and is used only to illustrate differences between products.



#1 in customer service, low factory-direct prices!

By being the manufacturer, as well as collaborating with other specialty mattress manufacturers and the largest foam distributors, and having the extensive experience in comfort and pain relief products from our parent company **Relief-Mart**, we promise you the **lowest prices** and the **highest quality mattresses** available today!

We proudly use only the highest quality **American-made** foam, and manufacture all of our mattresses in the U.S.A. Don't accept cheap, overseas substitutes!

Our mattresses use CertiPUR-US certified foam. Click here to learn more.

The Tri-Pedic® received a 5-star Gold **Certification of Mattress Excellence** by the 3rd party pressure mapping and bed review organization, Beds.org. **Read the review.**

The Tri-Pedic® has been tested and given a **Product Innovation Award** by the prestigious global online news source, *Space Daily*. ...more

We are very pleased to be the only mattress featured in *NASA 50: 50 Years of Exploration and Discovery.*

Fit for your body

The Agility® collection is like no other mattress on the market. It is made of a combination of high-density foams, pocketed coils, cooling gel foam, latex, and varying combinations of mini-pocket coils and mini-micro pocket coils. The mini-coils are not stitched, glued, or sewn like other pocket coils; instead, they are encased in a three-way stretch fabric which allows them to move and bend in a 360-degree circular motion. This free range of movement allows the Agility® mattress to uniquely respond to movement on the mattress surface. This quick response also provides a very agile sleep surface to the mattress, allowing it to become highly resistant to body impressions and sagging. The bio-based viscoelastic gel foam adds comfort and cooling performance. The result of combining these ingredients together in four individual mattress models makes for what may be the world's most comfortable and supportive mattress.

Product Description

The only memory foam designed to provide a cooler sleep surface. The AERO-PEDIC? is different than all other memory foam mattresses available today. Designed by Foamex, the largest foam company in the world, the AERO-PEDIC's Aerus memory foam has a larger cell structure allowing heat to dissipate. Normal memory foam traps heat from your body while you sleep, the AERO-PEDIC's unique design allows the heat to escape quickly keeping the mattress cool throughout the night. Top Features: Air flows up to 8 times faster through Aerus than through standard visco. Aerus cools up to 10 times faster than traditional visco. Aerus provides a better support factor (sag) than traditional viscos. Aerus reduces maximum stress on key pressure points by more than half compared to innerspring mattress Aerus provides a consistent cell structure with none of the airflow-impeding films or window panes found in traditional visco. Retains 99% of original height after 25,000 cycles of 80% compression Retains 98% of IFD25 after 25,000 cycles of 80% compression

Please note this mattress is shipped via UPS compressed and rolled in a box. We have developed a patented process (US Patent #6739107) that allows this to be packaged without damage. Once removed from the box the mattress can not be compressed again nor placed back in the same box.

LOVE IT, LOVE IT, LOVE IT!!!

I can't THANK YOU enough for the great job you did with my mattress! I LOVE IT!!! As soon as I put my head down, my lights when out! I was completely knocked me off my feet in comfort! The feel of this mattress is incredible!! Almost as though your floating on a cloud!! LOVE IT, LOVE IT, LOVE IT!!!

K. J., THE ULTIMATE

Customer, 2/6/14

A Good Night's Sleep . . .

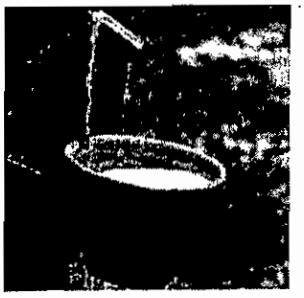
A lot of people take A Good Night's Sleep for granted; but if you don't sleep well, you simply cannot feel your best the next day. A mattress has to BOTH Support your posture And provide Pressure-Relief for your head, shoulders, hips and heels. Nothing in the World works better than 100% Pure Talalay Latex.

What Does Natural and Organic have to do with anything?

We ALL spend 8 hours each night in the bed we buy, every week, every month, every year, . . . for 20 Years. THE ULTIMATE Mattress is made with all Natural Products. No Polyurethane. No Polyester. No Synthetics. No Chemicals. No Toxins. Natural Ingredients can make for a Healthier Sleep.

OVER 1,000,000 ADJUSTABLE BEDS WERE SOLD LAST YEAR

- Read. Rest. Recline. Restore. OVER 1001 reclining positions at the simple touch of your finger. Whether for Health, Sleep, Watching TV or PURE COMFORT, **LATEX** PEDIC® Mattresses make the most perfect Adjustable Bed Mattress.
- **LATEX** PEDIC® Mattresses are channel quilted every 6" to allow for perfect bending (unlike other adjustable bed mattresses that bunch up in your lower back area.) Nothing bends better on an Adjustable Bed than a LATEX PEDIC Mattress. Select a Model and Firmness for your personal use, and take a health break.



WHAT IS NATURAL LATEX?

Natural Latex is a milky substance harvested from rubber tree plants (Havea brasiliensis) which are grown in tropical climate plantations around the world. Natural Latex is bio-degradable and naturally resistant to mold, mildew & bacteria.

Harvesting the liquid latex is similar to tapping trees for maple syrup. The trees are not harmed, providing a sustainable resource.

The health benefits of Flex-o-Pedic adjustable beds

A Flex-o-Pedic electric adjustable bed may assist with the following health problems:

• **Acid reflux disease**. Sleeping with your upper body somewhat elevated may alleviate the symptoms of Acid Reflux where in the stomach acids rise through the oesophagus increasing the risks of painful heart burn. With a Flex-o-Pedic adjustable bed you can raise your upper body, keeping your head and shoulders elevated thus helping to keep acids in the stamach where they should be and providing temporary relief from associated heartburn.

• **Degenerative spondylolisthesis**. Typical symptoms of degenerative spondylolisthesis are lower back pain and/or a tired feeling in the legs. This conditian results from a degeneration of the facet joints (the shock absorbers) in the spine and is often associated with the aging process, thus being more prevalent in Senior age people . By sleeping in a pasition that is reclining with added support under the knees, a Flex-o-Pedic adjustable bed can help to alleviate the lawer back and leg pain associated with this condition.

• **Spinal lumbar stenosis.** Commonly known as **Sciatica**, this

is often a painful condition generally resulting from spinal nerve compressian. It is often a factor of age but can be exacerbated by poor posture, excessive weight and inactivity. For those experiencing this, relief may be achieved by sleeping or resting in a reclining position. By raising your knees in a reclining position, a Flex-o-Pedic adjustable bed can imitate the action of being bent forward, which is more relaxing on the spine than laying straight.

* **Osteoarthritis. Arthritis** in general is ultimotely associated with a wearing out of joints, ond painful Osteoarthritis affects particularly those joints that are weight bearing such as hips and knees. People of all ages can be affected by arthritis from children to seniors, but symptoms become more prevalent as we age, or simply put – our joints wear out. A Flex-o-Pedic odjustable bed can help to minimize compression on the joints by giving better support. Thus, those suffering from this ailment may experience less soreness and stiffness of the spine and joints when waking up the next day.

* **Rheumatism.** The term "rheumatism" covers hundreds of common conditions that concern painful inflammation of the joints, tendons, ligaments, bones, and muscles, especially when there is no history or signs of trauma. Many sufferers cite a change in the weather as leading to an onset of rheumatic pain. Often characterized by the signs of inflammation such as redness, heat, swelling, and pain, rheumatic diseases can include **Spondylitis, Fibromyalgia, Lupus, Scleroderma, Bursitis, Tendinitis, Vasculitis** and **Carpal Tunnel syndrome** just to name o few. Whilst treatment of rheumatic disorders varies depending on the actual condition relief may be found by improving blood circulation throughout the body. A Flex-o-Pedic adjustable bed, combined with a High Grade luxurious Viscoe Elastic memory foam inside our Zip and Flip mattress overlay may help achieve this by positioning your body to reduce pressure points, thus optimising your blood circulation while your body settles into the Special memory foam to align your spine.

* **Asthma.** Raising your head into a comfortable position while resting can allow more air into your lungs which may help prevent the onset of an asthma attack. A Flex-o-Pedic adjustable bed helps by allowing you to position your body in the best, most comfortable way, providing you all the support you need without the necessity of stacking pillows that can compress and move under you while you sleep.

* **Emphysema, Sleep Apnoea, Snoring** and **Bronchitis** may also achieve relief in these positions.

* As always, you should seek advice from your medical practitioner for professional diagnosis
