CONSENTED REQUEST FOR AMENDMENT OF REGISTRATION NO. 4,027,532

Pursuant to 37 C.F.R. §§ 2.133(a), 2.173, and 15 U.S.C. § 1057(e), Registrant requests that the goods and services set forth in Registration No. 4,027,532 be amended by the insertion of the underlined text, as follows (see changes to IC 037):

IC 035. Business management services, namely, management of military equipment and materials; Business advisory and consultancy services in relation to military testing and defense systems, namely, management of military testing and defense systems; Telecommunications network management services, namely, the operation and administration of telecommunication systems and networks for others; Business services, namely, management of computer and communications systems for commercial, industrial, and military operations industries; Management of industrial and military operations, namely, providing operational oversight and business maintenance for industrial and military operations; Business consulting services in the field of internal process optimization and on the job process hazards analysis; Business acquisition and merger consultation; Corporate governance consulting services, namely, economic, strategic planning, budgeting, contingency planning, social risk assessment and developing sustainable work systems; Management of secure business information distributed on global computer information networks and on local computer networks; Management of telephone call centers for others; Inventory management; Transportation logistics services, namely, transportation planning and scheduling shipments for users of transportation services; Preparing oral presentations and business reports in the nature of briefs for others in the field

of engineering, software development, logistics support, multimedia and facilities maintenance and operations; Construction office administration services, namely, providing cost and schedule control, document control, utility coordination, contract administration, contractor coordination and change order control; Duplication of documents.

IC 037. Construction supervision services, namely, providing construction project management; Road construction, namely, installation and maintenance of roads; Installation and maintenance of HVAC systems, telephone systems, digital communications networks, Closed Circuit Television surveillance, and remote access control devices; Installation and maintenance of military equipment and defense systems, namely, weapons and testing equipment; Maintenance and upgrading of computer hardware and peripheral computer equipment; Installation of computer hardware; Vehicle maintenance, excluding vehicle maintenance in a retail setting; Providing custodial services in the nature of janitorial services; Installation of military testing and defense systems; Maintenance of military testing and defense systems; Modification services, namely, modification of military testing and defense systems.

IC 038. Dispatch telecommunication services, namely, electronic transmission of voice and data messages for the purpose of logistics management of government facilities and installations.

IC 039. Logistics services and support for U.S. General Services Administration, U.S. Department of Defense, National Aeronautics and Space Administration, and other governmental entities, namely, warehousing, distribution and transportation of office supplies, military, space flight and commercial hardware, equipment, inventory and military, space flight and commercial goods, and safekeeping of such items while in storage; Packaging of articles for transportation in connection with the operation and management of government facilities and installations; Freight traffic management in the nature of traffic control in connection with the operation and management of government facilities and installations; Archiving services in the nature of providing electronic storage of data for others.

IC 040. Environmental remediation services, namely, decontamination of hazardous materials, namely, unexploded ordinance and materials cleanup; Environmental remediation services, namely, soil, waste and/or water treatment services; Waste management; Environmental pollution control services, namely, air, water, groundwater, waste water, and soil treatment; Duplication of audio/visual tapes and recordings.

IC 041. Training in the use and operation of scientific and computer instruments and services for instructors, operators, engineers, and technicians in the fields of power, water and food supply, and security systems; Training in the fields of

environmental management and pollution control, waste management and remediation engineering, process engineering and design and corporate reporting; Training in the field of aircraft flight; Photography, digital imaging; Documentary and informational video production; Training in the field of hazardous material cleanup and remediation.

IC 042. Engineering and architectural analysis, namely, creating plans, specification and designs for others; Designing and engineering computer systems, HVAC systems, telephone systems, digital network systems, Closed Circuit Television surveillance systems, power generation systems, pollution control system and equipment, desalination processes, military testing systems, and infrastructure systems; Technical assistance in the field of engineering and architecture; Land-use planning services; Computer security consultation services; Computer security service, namely, restricting access to and by computer networks to and of undesired web sites, media and individuals and facilities; Design and development of computer networks; Software development for a wide spectrum of engineering and business applications for use by government and commercial entities, namely, complex database driven engineering design tools, process simulation tools, data input systems, web-based operations and tools, and industry standard interfaces to all types of computer hardware, computer control systems, and computer application programs; Technological advisory and consultation services in the technology field of computer hardware systems and military testing systems; Maintenance and upgrading of computer software; Information technology services in the field of computer system integration; Website design for others; Environmental assessments in the nature of testing and inspection services; Computer services, namely, design, development, installation and implementation of new computer software programs and computer hardware all for use in military testing and defense systems; Information technology services, namely, integration of computer and communications systems for commercial, industrial, and military operations; Installation and maintenance of computer software for use in weapons and equipment testing. Development of software programs for operator training simulators and development of operating procedures for power generation plants; Electronic scanning of photographs; Providing analysis of data and test results from military testing and defense systems for the improvement of such defense systems.

IC 045. Guard services; Providing physical personal security guard services and guard services for facilities; Reviewing standards and practices to assure compliance with environmental zoning laws and regulations; Providing regulatory compliance services for industrial and military operations.

As this amendment does not expand the identification of services in the original registration or otherwise materially alter the character of the mark, Registrant respectfully requests that the amendment be accepted.

By their signatures below, the parties to Cancellation No. 92056737, namely, Petitioner “Traxx Companies” and Registrant Trax International Corporation, consent to this amendment to Registration No. 4,027,532.

DATED this 21st day of June, 2013.

Trax International Corporation
