William Jones

v.

Ellie Nahum

Christen M. English, Interlocutory:

On March 21, 2014, the Board issued an order requiring that the parties participate in the mandatory discovery conference, with Board participation, on March 27, 2014. At the start of the discovery conference call on March 27, 2014, respondent's counsel of record informed the Board that respondent has terminated his services and hired another attorney to represent him in this matter. Accordingly, the mandatory discovery conference is postponed pending a withdrawal of respondent's counsel of record and respondent's new counsel entering an appearance in this proceeding. Once new counsel has entered an appearance, the Board will promptly reschedule the mandatory discovery conference, with Board participation.
