PETITION FOR CANCELLATION

Advanced Micro Devices, Inc. (“Opposer”), a Delaware corporation located and doing business at One AMD Place, Sunnyvale, California, believes it is damaged and will continue to be damaged by Registration No. 4,390,205 on the Principal Register for the mark AMDOX and hereby petitions to cancel the same.

The grounds for the opposition are as follows:

1. Since at least as early as 1977, Opposer has manufactured, marketed, and sold computer-related products in the United States under the name and trademark AMD.
2. Opposer registered the trademark AMD for “semi-conductor integrated circuits” in the United States Patent and Trademark Office, Reg. No. 1,449,383. That registration has become incontestable in accordance with 15 U.S.C. §§ 1065 and 1115(b). A print-out from the United States Patent and Trademark Office records showing the current status of this registration is attached hereto as Exhibit A.

3. Opposer registered the trademark AMD and Design --  -- for “integrated circuits, namely, circuits for computers communications, networking and programmable logic; integrated circuit memories; electronic circuit boards and memory boards; semiconductor chips; microprocessors and microprocessor peripheral chips; programmable logic devices, namely, programmable logic chips; central processing units for computers; communication devices, namely, integrated circuits and circuit boards for telephones, wireless communication, radio and television transmission and reception; integrated circuits and circuit boards for mobile and personal computing and communication; integrated circuits and circuit boards for use with computer networks and workstations, data recording and storage media for use with computers; computer software for managing network functions; communication software to facilitate communications among and between persons, machines and apparatus, including computers; programmable logic; apparatus for testing and programming integrated circuits; peripheral memory apparatus; and technical manuals sold with the above goods” in the United States Patent and Trademark Office, Reg. No. 2,449,349. That registration has become incontestable in accordance with 15 U.S.C. §§ 1065 and 1115(b). A print-out from the United States Patent and Trademark Office records showing the current status of this registration is attached hereto as Exhibit B.

4. Opposer registered the trademark AMD OPTERON for “computer hardware; semiconductor devices; microprocessor modules; computer hardware subsystems, namely, input units, output units, central processing units, memory controllers” in the United States Patent and Trademark Office, Reg. No. 2,751,149. That registration has become incontestable in accordance with 15 U.S.C. §§ 1065 and 1115(b). A print-out from the United States Patent and Trademark Office records showing the current status of this registration is attached hereto as Exhibit C.

5. Opposer registered the trademark AMD PHENOM for “microprocessors; semiconductor devices” in the United States Patent and Trademark Office, Reg. No. 3,528,296. That registration has become incontestable in accordance with 15 U.S.C. §§ 1065 and 1115(b). A print-out from the United States Patent and Trademark Office records showing the current status of this registration is attached hereto as Exhibit D.

6. Opposer registered the trademark AMD FX for “microprocessors, semiconductor devices, and integrated circuits” in the United States Patent and Trademark Office, Reg. No. 4,168,905. A print-out from the United States Patent and Trademark Office records showing the current status of this registration is attached hereto as Exhibit E.

7. Opposer has sold billions of dollars’ worth of computer-related products under its AMD name and trademarks referenced above and has spent substantial sums to advertise and promote its AMD products.

8. By virtue of these extensive sales, advertising, and promotions, Opposer owns valuable goodwill symbolized by its AMD name and trademarks in the United States.

9. On October 31, 2012, Registrant applied to register the trademark AMDOX, Application Serial No. 79/125,069, and this application matured to registration for goods including “Computers; computer keyboards; computer peripheral devices; notebook computers; laptop computers; portable telephones; optical glass; fluorescent screens; video screens,” in International Class 9, Reg. No. 4,390,205.

10. On information and belief, Registrant made no use of the mark AMDOX in United States commerce before February 7, 2011, the base registration date noted in its application under Section 66(a).

11. Upon information and belief, neither Registrant nor any predecessor or related company of Registrant has any basis for claiming rights in the trademark AMDOX in the United States in connection with the identified goods in Class 9 prior to October 31, 2012.

12. Registrant's registration of the trademark AMDOX in Class 9 is likely to cause confusion, mistake, or deception with Petitioner and its AMD name and trademarks, and is likely to cause purchasers and others to believe erroneously that Registrant's goods are Petitioner's goods, or that Registrant or its goods are connected with, or sponsored or approved by, Petitioner.

13. Registrant's registration of the trademark AMDOX is without Petitioner's consent.

14. Registrant's registration of AMDOX is damaging to Petitioner.

15. WHEREFORE, Petitioner respectfully requests that Registration No. 4,390,205 be canceled with respect to the goods in Class 9.

Petitioner requests that the requisite filing fee of \$300.00 be deducted from Deposit Account No. 16-0650, the deposit account of Pattishall, McAuliffe, Newbury, Hilliard & Geraldson LLP.

Please address all correspondence to Bradley L. Cohn, Pattishall, McAuliffe, Newbury, Hilliard & Geraldson LLP, 200 South Wacker Drive, Suite 2900, Chicago, Illinois 60606.

Respectfully submitted,

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

Requirements in the First Ten Years*

What and When to File:

First Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

Second Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.*
See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**The United States Patent and Trademark Office (USPTO) will NOT send you any future notice or
reminder of these filing requirements.**

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the USPTO. The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.
