**By the Trademark Trial and Appeal Board:**

On August 29, 2016, Petitioner filed a response to the Board's July 28, 2016 order requiring Petitioner to show cause why the proceeding should not be dismissed with prejudice in light of its withdrawal of the petition to cancel without the express written consent of Respondent. Inasmuch as Petitioner's response indicates that "it remains Petitioner's intent to withdraw its Petition," and does not provide the express written consent of Respondent, the petition to cancel is **DISMISSED** with prejudice.
