U.S. Patent & TMO/c/TM Mail Rpt Dt. #7:

AGREED REQUEST FOR EXTENSION OF OPPOSITION PERIOD

NOW COMES Potential Opposer, GOULDS PUMPS, INCORPORATED, by its attorneys, and hereby requests a further two (2) calendar month extension from the present close of the opposition period, to and including April 24, 2003, within which to further seek to amicably resolve the matter through settlement pertaining to the above identified application for trademark registration, as well as other related applications or within which to consider, if necessary, the filing of the opposition petition.

The additional time is requested so that the parties may consider a proposed settlement agreement to avoid the need for an opposition proceeding. The parties through counsel have previously been in contact regarding the considering of the possible settlement of this matter. Counsel for the Applicant has voluntarily provided materials and information for the consideration of possible settlement and for reviewing possible settlement parameters to alleviate the need for the possible opposition proceedings. Materials and information were

previously provided and are currently under review by potential Opposer's counsel and his client in considering the possible settlement of this matter and related trademark applications. The attorneys for the parties have also discussed basic parameters for possible settlement and counsel for the parties remain optimistic that this matter could be resolved through settlement. The attorneys representing the parties have also discussed a possible meeting on the potential settlement which the parties are considering for the resolution of this application and on a series of related applications. The attorneys with their respective clients are at present further considering possible settlement parameters with their respective clients. Additionally, this matter is somewhat complicated since it involves the resolution of the potential opposition regarding a series of related applications, especially since the parties are seeking a global resolution of this and related matters. A meeting among counsel and other settlement communications needed to be previously delayed due to a very serious medical condition of counsel for the Applicant which involved some recovery time or assistance from additional counsel. However, since the prior extension, counsel for the Applicant has recovered from the medical matter to a sufficient extent to allow for the parties to have progressed on settlement related matters. The Potential Opposer also wishes to apprise the Trademark Office of the specific progress on settlement since the prior extension, since the Board has requested that it be advised of such progress for

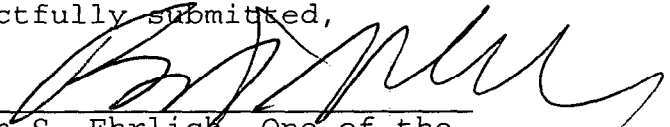

considering future extensions. The Potential Opposer wishes to advise that since the last extension, counsel for the Opposer further reviewed with his client materials and information provided from Applicant's counsel. Thereafter, counsel for the Potential Opposer received clarified instructions from his client on specific proposed parameters for settlement and on obtaining of additional information for the commercial consideration of settlement. Counsel for the Opposer was then in repeated contact with counsel for the Applicant about considering proposed parameters for settlement and the parties through counsel have discussed these settlement parameters with their respective clients and remaining optimistic that suitable proposed parameters are believed to exist for the resolution of this matter. Counsel for the Potential Opposer also requested additional information or clarification on certain issues for considering the commercial aspects for settlement and Applicant's counsel has agreed to, if available, provide such documentation or information. Additional time is needed to allow time for the consideration of the proposed settlement and to review possible information, consider facts and review a possible resolution of this matter by counsel and their respective clients.

Applicant's counsel has provided prior telephone approval for this extension.

This extension is not for the purpose of delay.

This extension is being submitted in triplicate.

Respectfully submitted,

Burton S. Ehrlich, One of the
Attorneys for Potential Opposer
