AMENDMENT OF APPLICATION PURSUANT TO 37 C.F.R. §2.74

Assistant Commissioner for Trademarks
2900 Crystal Drive
Arlington, VA 22202-3513

Sir:

Applicant hereby asks that this application be amended to change the description of goods and services by deleting the language shown in strikethrough and adding the language shown in brackets as follows:

Computer software for operating an ultrasonic fuel level sensor for transportation, marine, agricultural, industrial, rail, manufacturing, [and] wastewater, ~~and food and beverage~~ applications in International Class 9.

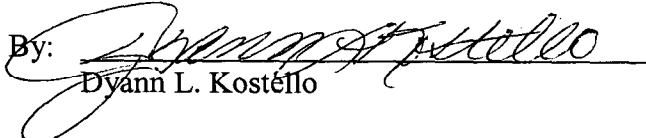

Thus, the amended description would read as follows:

Computer software for operating an ultrasonic fuel level sensor for transportation, marine, agricultural, industrial, rail, manufacturing, and wastewater applications in International Class 9.

It is submitted that this amendment narrows the description of goods and is therefore permissible under applicable rules and regulations.

Dated this 21st day of August, 2002.
