U.S. Patent And Trademark Office  
Photocomposition Coordinators  
Publication and Issue Section

Dear Sirs:

The Applicant requests amendment of the above-referenced application in accordance with TMEP § 1505(a) (Post-Publication Amendments to the Identification of Goods or Services) and TMEP § 1505.02(c) (Processing Amendments in Cases Where An Extension of Time for Filing an Opposition Has Been Granted). Please replace the recitation of services in the application with the following:

*Providing real property commercial loan portfolio services, real estate work-out services and real property management services, namely mortgage loans, real property ownership and ownership in single purpose entities that own real property, in International Class 36.*

## REMARKS

Amendments to the description of the goods and/or services subsequent to publication of the application are acceptable providing that the amendment restricts or deletes items in the existing description. The Applicant respectfully submits that this is the case with the above amendment. The clause in the current recitation which states "providing commercial loan portfolio services" has been restricted to "providing real property commercial loan portfolio services"; the phrase "asset management" in the original description has been restricted to "real property management services"; and the phrase "real estate workout services" has been left unchanged from the original. The types of services being offered has been further restricted by the addition of the phrase "namely mortgage loans, real property ownership and ownership in single purpose entities that own real property." As a result, the Applicant submits that the description as amended is acceptable and requests entry of the amendment prior to issuance of a Notice of Allowance.

Respectfully submitted,

Dennis M. Carleton
