APPLICANT’S MOTION TO AMEND

Pursuant to TBMP § 1205 Applicant, Central Registry Solutions, respectfully moves to amend its Application Ser. No. 76/696,690 for CRS pursuant to the requests of the Examining Attorney. Accordingly, upon acceptance of the amendments Applicant will be in compliance with the Examining Attorney’s requests and the appeal will be moot. Applicant respectfully requests that the below amendments be accepted and the application approved for publication. Applicant further requests that the appeal proceeding be suspended pending acceptance of the amendments. In the event that the amendments are denied Applicant respectfully requests that the time to file the Appeal Brief be reset.

I. AMENDMENT TO THE GOODS AND SERVICES

Pursuant to the Examining Attorney’s request Applicant respectfully requests that the identification of goods and services in the application be amended as set forth below:

Class 35:

Commercial information and directory services featuring directories for locating the computer network addresses and demographic information of entities; providing a directory of organizations, individuals, addresses, and resources relating to domain names, domain name services, and new top level domain names accessible through the use of a global computer network; computer network address management services, namely, providing services enabling entities to access, add, modify or delete information relating to their computer network addresses; promotion, advertising marketing, and consulting services for computer websites; business and marketing consulting services for computer websites; domain name and website services, namely, marketing consulting services offered as part of a bundle of domain name and website registration and development services.

Class 38

No amendment was required.

Class 42

Computer services, namely, designing, implementing and managing websites for others; computer software maintenance for domain name registration services for new top level domain names; redirecting electronic mail to changed personal electronic addresses; domain name forwarding, namely, forwarding domain name addresses to other addresses located on the Internet; computer services, namely, providing an online database featuring Internet protocol addresses and domain name registrant information; providing website and domain name address information, namely, name server listings services in the nature of listings of the internal numeric, identification and addressing components used by global computer network systems and their associated human-recognizable identifiers; and domain name and website services, namely, website development for others offered as part of a bundle of domain name and website registration and development services.

Class 45

Domain name registration for identification of users on a global computer network; domain name registration services, namely, setting up a domain name registry for new top level domain names for others; domain name registration for the identification of users on a global computer network; domain name registration renewal and account management services for new top level domain names, namely, renewal of domain name registrations and maintaining, tracking, directing, and overseeing of domain name registration accounts; domain name registration services, namely, registering and assigning Internet protocol addresses for use on a global computer network; domain name registry services, namely, determining domain name availability; domain name renewal services in the nature of re-registration of domain names for identification of users on a global computer network; name server listings services, namely, listings of the internal numeric, identification and addressing components used by global computer network systems and their associated human-recognizable identifiers; domain name

registration services, namely, setting up domain name registries for others for top level domain names; distribution services for top level domains, namely, domain name allocation services; and website services, namely, domain name registration services offered as part of a bundle of domain name and website registration and development services.

III. CONCLUSION

Accordingly, Applicant respectfully submits that the above amendments are in accordance with the Examining Attorney's requests and should be accepted. Upon acceptance, Applicant respectfully requests that the subject application be forwarded on to publication. Applicant further requests that the appeal be suspended pending review of the amendments and in the event that the amendments are not accepted the time to file the Appeal Brief be reset.

Respectfully submitted,

Dated: November 15, 2010
