NO:**

N/A

**CORRESPONDENT E-MAIL ADDRESS:**  
jay@jaycoindustries.com

**REQUEST FOR RECONSIDERATION DENIED**

**ISSUE/MAILING DATE:** 6/1/2009

Applicant is requesting reconsideration of a final refusal issued/mailed 08/26/2008.

The following requirement has been satisfied: (1) Entity- Clarification Needed. TMEP §§713.02, 714.04.

With respect to the refusal under Section 2(d) and the requirement for an acceptable specimen or an amendment to Section 1(b), after careful consideration of the law and facts of the case, the examining attorney must deny the request for reconsideration and adhere to the final action as written since no new facts or reasons have been presented that are significant and compelling with regard to the point at issue.

The applicant's mark is highly similar to the registrant's mark. The dominant portion of the applicant's mark is CLAW while the dominant portion of the registrant's mark is KLA~~W~~, which is the phonetic equivalent of the term CLAW. Furthermore, the attached evidence shows that metal locks for doors and metal locks for mailboxes are commonly provided through the same channels of trade. *See the attached evidence*. Finally, any goods or services in the registrant's normal fields of expansion should be considered when determining whether the registrant's goods and/or services are related to the applicant's goods and/or services. TMEP §1207.01(a)(v); *see In re 1st USA Realty Prof'ls, Inc.*, 84 USPQ2d 1581 1584 (TTAB 2007). Evidence that third parties offer the goods and/or services of both the registrant and applicant suggest that it is likely that the registrant would expand its business to include applicant's goods and/or services. In that event, customers are likely to believe the goods and/or services at issue come from or, are in some way connected with, the same source. *In re 1st USA Realty Prof'ls*, 84 USPQ2d at 1584 n.4; *see* TMEP §1207.01(a)(v). Since the registrant provides metal locks for doors, the applicant's goods, Metal locks for mailboxes, letter lockers, and metal boxes, are clearly within the registrant's normal fields of expansion.

With respect to the specimen, the substitute specimen submitted by the applicant is unacceptable because it does not show the mark on the goods. The only wording on the mark that can be perceived as mark is LETTERLOCKER.COM. Thus, the applicant has failed to provide an acceptable specimen showing the mark used in connection with the identified goods and has failed to amend the filing basis to Section 1(b).

Accordingly, applicant's request for reconsideration is *denied*. The time for appeal runs from the date the final action was issued/mailed. 37 C.F.R. Section 2.64(b); TMEP Section 715.03(c). If applicant has already filed a timely notice of appeal, the application will be forwarded to the Trademark Trial and Appeal Board (TTAB).

#### Easy to use

The Combi-Cam is very easy to use. Simply give another  
person the 3 digit number to open the cam. The 3 dial  
access is a big improvement over the "gym locker" dial  
system because it is more secure and does not require  
confusing sequential steps. With the Combi-Cam, if you are  
off one number, simply correct that number... NO NEED TO  
START OVER AGAIN (which is VERY frustrating!).

The Combi-Cam is the easiest cam to recombine and only takes seconds. You do not need any special tools or a mechanical degree to open the Combi-Cam. Simply follow these easy, quick instructions:

- Have the Combi-Cam set on the combination that opens the Cam
- Using a paper clip, push the set screw in while setting to the new combination
