

PTO Form 1960 (Rev 9/2007)

OMB No. xxx-xxxx (Exp. x/xxxx)

## Request for Reconsideration after Final Action

The table below presents the data as entered.

Input Field	Entered
SERIAL NUMBER	79035356
LAW OFFICE ASSIGNED	LAW OFFICE 105
MARK SECTION (no change)	
ARGUMENT(S)	
<p>Reconsideration of this application, in view of this proposed amendment and these remarks, is respectfully requested. In the final office action the only items objected to, for which a further description was required, were (1) "chemicals for use in industry" and for (2) "products for renovating vehicle bodywork...".</p> <p>Applicant has now amended the first phrase by adopting the language suggested by the examining attorney to describe the chemicals for use in industry and other accepted language for the articles which are manufactured: that is, "chemicals for use in industry in the manufacture of <u>motor vehicle parts and components, in the manufacture of tanks and containers for industry and for the collection of waste, in the manufacture of urban fittings and furniture, in the manufacture of transport and industrial handling units made of plastic material</u> and in the manufacture of display units for advertising purposes made of plastic material". The underlined portion of the description of the products which are manufactured was based on the description found acceptable for "dispersions of plastics...." and for "plastics casting and stripping products ...." also found in class 1 and for the subject matter of the printed material in class 16.</p> <p>The second phrase was amended to adopt exactly the language suggested by the examining attorney: "products, <u>namely chemicals</u>, for renovating vehicle bodywork in plastic....."</p> <p>It is requested that this amendment be accepted.</p> <p>First of all, it is appropriate to give deference to the language proposed by the applicant in the original description (TMEP1402.01(a). Terms need not be listed in the ID Manual to be proper. Moreover, it is respectfully asserted that the current description of the type of articles that are manufactured is sufficiently definite to describe the <u>chemicals for use in industry</u>. It is noted that it is not the articles themselves that are claimed in this application, but the chemicals for use in industry in manufacturing them.</p> <p>Furthermore, applicant's proposed amendment mirrors a description already accepted. Applicant respectfully suggests that if this description is deemed inappropriate after it was previously accepted, that it would be appropriate to withdraw the final rejection, since new issues have been raised.</p>	

Applicant has filed a Notice of Appeal with respect to this class and requests that this amendment be reconsidered and accepted, or alternatively, that applicant be given another opportunity to revise its description before the appeal brief is required.

OMB No. xxx-xxxx (Exp. x/xxxx)

**Request for Reconsideration after Final Action****To the Commissioner for Trademarks:**

Application serial no. 79035356 has been amended as follows:

**ARGUMENT(S)****In response to the substantive refusal(s), please note the following:**

Reconsideration of this application, in view of this proposed amendment and these remarks, is respectfully requested. In the final office action the only items objected to, for which a further description was required, were (1) "chemicals for use in industry" and for (2) "products for renovating vehicle bodywork...".

Applicant has now amended the first phrase by adopting the language suggested by the examining attorney to describe the chemicals for use in industry and other accepted language for the articles which are manufactured: that is, "chemicals for use in industry in the manufacture of motor vehicle parts and components, in the manufacture of tanks and containers for industry and for the collection of waste, in the manufacture of urban fittings and furniture, in the manufacture of transport and industrial handling units made of plastic material and in the manufacture of display units for advertising purposes made of plastic material". The underlined portion of the description of the products which are manufactured was based on the description found acceptable for "dispersions of plastics...." and for "plastics casting and stripping products ...." also found in class 1 and for the subject matter of the printed material in class 16.

The second phrase was amended to adopt exactly the language suggested by the examining attorney: "products, namely chemicals, for renovating vehicle bodywork in plastic....."

It is requested that this amendment be accepted.

First of all, it is appropriate to give deference to the language proposed by the applicant in the original description (TMEP1402.01(a). Terms need not be listed in the ID Manual to be proper. Moreover, it is respectfully asserted that the current description of the type of articles that are manufactured is sufficiently definite to describe the chemicals for use in industry. It is noted that it is not the articles themselves that are claimed in this application, but the chemicals for use in industry in manufacturing them.

Furthermore, applicant's proposed amendment mirrors a description already accepted. Applicant respectfully suggests that if this description is deemed inappropriate after it was previously accepted, that it would be appropriate to withdraw the final rejection, since new issues have been raised.

Applicant has filed a Notice of Appeal with respect to this class and requests that this amendment be reconsidered and accepted, or alternatively, that applicant be given another opportunity to revise its description before the appeal brief is required.

**EVIDENCE**

Evidence in the nature of Internet usages of "urban fittings" for example. has been attached.

**CLASSIFICATION AND LISTING OF GOODS/SERVICES**

**Applicant proposes to amend the following class of goods/services in the application:**

**Current:** Class 001 for Chemical products, namely, chemicals for use in the manufacture of plastics, chemicals for use in industry; unprocessed plastics; unprocessed artificial and synthetic resins; adhesives for industrial purposes; dispersions of plastics for use in the manufacture of motor vehicle parts and components, tanks and containers for industry and for the collection of waste, urban fittings and furniture, transport and industrial handling made of plastic material; plastifiers for use in the manufacture of motor vehicle parts and components; products for renovating vehicle bodywork in plastic, including bumpers, fenders, tailgates, floors, energy absorption systems integrated in the foregoing, semi-structural parts; plastics casting and stripping products for the manufacture of pieces and objects made of plastic, for use in the manufacture of motor vehicle parts and components, tanks and containers for industry and for the collection of waste, such as waste containers and underground containers, for urban fittings and furniture and for transport and industrial handling, all made of plastic material

Original Filing Basis:

**Filing Basis Section 66(a)**, Request for Extension of Protection to the United States. Section 66(a) of the Trademark Act, 15 U.S.C. §1141f.

**Proposed:** Class 001 for Chemical products, namely, chemicals for use in the manufacture of plastics, chemicals for use in industry in the manufacture of motor vehicle parts and components, in the manufacture of tanks and containers for industry and for the collection of waste, in the manufacture of urban fittings and furniture, in the manufacture of transport and industrial handling units made of plastic material and in the manufacture of display units for advertising purposes; unprocessed plastics; unprocessed artificial and synthetic resins; adhesives for industrial purposes; dispersions of plastics for use in the manufacture of motor vehicle parts and components, tanks and containers for industry and for the collection of waste, urban fittings and furniture, transport and industrial handling made of plastic material; plastifiers for use in the manufacture of motor vehicle parts and components; products, namely chemicals, for renovating vehicle bodywork in plastic, including bumpers, fenders, tailgates, floors, energy absorption systems integrated in the foregoing, semi-structural parts; plastics casting and stripping products for the manufacture of pieces and objects made of plastic, for use in the manufacture of motor vehicle parts and components, tanks and containers for industry and for the collection of waste, such as waste containers and underground containers, for urban fittings and furniture and for transport and industrial handling, all made of plastic material

**Filing Basis Section 66(a)**, Request for Extension of Protection to the United States. Section 66(a) of the Trademark Act, 15 U.S.C. §1141f.

**SIGNATURE(S)**

**Request for Reconsideration Signature**

Signature: /Kathleen A. Skinner/ Date: 04/21/2008

Signatory's Name: Kathleen A. Skinner

Signatory's Position: Attorney of Record

The signatory has confirmed that he/she is an attorney who is a member in good standing of the bar of the highest court of a U.S. state, which includes the District of Columbia, Puerto Rico, and other federal territories and possessions; and he/she is currently the applicant's attorney or an associate thereof; and to the best of his/her knowledge, if prior to his/her appointment another U.S. attorney or a Canadian attorney/agent not currently associated with his/her company/firm previously represented the applicant in this matter: (1) the applicant has filed or is concurrently filing a signed revocation of or substitute power of attorney with the USPTO; (2) the USPTO has granted the request of the prior representative to withdraw; (3) the applicant has filed a power of attorney appointing him/her in this matter; or (4) the applicant's appointed U.S. attorney or Canadian attorney/agent has filed a power of attorney appointing him/her as an associate attorney in this matter.

The applicant is filing a Notice of Appeal in conjunction with this Request for Reconsideration.

## Urban Equipment Market - Acrylic Sheet

### High tech in the city

#### Leisure and sport

The world's biggest aquariums are made of PMMA. More transparent than glass, it is the only material that, in very great thicknesses, can provide a perfect view of the fish and marine animals. Altuglas® PMMA is also used to create under-sea viewing tunnels, as well as swimming-pool shelters.

Altuglas® acrylic and Tuffak® polycarbonate sheet are the materials of reference for sports hall galleries and glazing, protective panels for stadiums and squash courts, basketball panels, etc. Last but not least, the victors' trophies are very often made of Altuglas®, chosen for its beauty and durability.

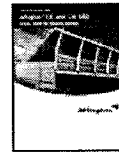

#### Urban fittings

Cleanliness and beauty have become priorities in our cities. This explains the success of urban fittings made of Altuglas® acrylic and Tuffak® polycarbonate sheet. Transparency, elegance, easy maintenance, resistance and lightness make it possible to reconcile aesthetics with durability. Information panels, bus shelters, newspaper kiosks, waiting-room benches in stations and noise barriers are modernising and enhancing our cities.

The use of Altuglas® CN SRD and Altuglas® EX SRD for noise barriers ensures that work will meet the following European standards:

Fifteen Year Guarantee on  
Altuglas® CN and EX SRD

Altuglas® Sheet for  
Acoustic Barrier

Altuglas International: Europe/Americas/Asia: Urban Equipment
