IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Application Serial No.	79174009
Applicant	Akastor AS

Notice of Appeal

Notice is hereby given that Akastor AS appeals to the Trademark Trial and Appeal Board the refusal to register the mark depicted in Application Serial No. 79174009.

Applicant has filed a request for reconsideration of the refusal to register, and requests suspension of the appeal pending consideration of the request by the Examining Attorney.

The refusal to register has been appealed as to the following classes of goods/services:

- Class 006. First Use: 0 First Use In Commerce: 0
All goods and services in the class are appealed, namely: Common metals and their alloys; metal building materials, namely, metal mooringbuoys for drilling ships or oil tankers, portable risers made of steel to transport oil and gas from subsea well to oilplatform, flexible composite metal pipes and branching tubes of metal for pipelines composed primarily of steel for transportation and transfer of hydraulic fluids and petroleum and electric power and electric signals; transportable buildings of metal; non-electric cables and wires of common metal; pipes and tubes of metal; common metal pulls; drilling platforms of metal; oilfield processing equipment of metal, namely, pumps of metal, mud pumps of metal, drill floors of metal, derricks of metal, hoisting compensators of metal, top drives of metal, rotary table of metal, roughnecks of metal, catheads of metal, mud buckets of metal, piperackers of metal, fingerboards of metal, belly boards of metal, blow-out preventers of metal, blow-out preventer cranes of metal, blow-out preventer trolleys of metal, Xmas tree cranes of metal, Xmas tree trolleys of metal, Xmas tree skids of metal, Xmas tree stack-up guides of metal, riser gantry cranes of metal, riser in-hull gantry cranes of metal, winches of metal, moon-pools (wet porch) of metal, degassers of metal, mud cleaners of metal, mud agitators of metal, mud pumps of metal, surge tanks of metal, flow dividers of metal, bulk storage tanksof metal, mud mixing tanks of metal, mud standpipe manifolds of metal, cement standpipe manifolds of metal, hose loading stations of metal, compensators of metal for maintaining a constant weight on drilling bits, mouse holes of metal, traveling blocks of metal, gear-able traveling blocks of metal, draw-works of metal, back up stabbers of metal, drilling risers of metal; wellheads of metal; metalpipes; fittings of metal for pipes and drilling; well pipes of metal; drilling templates of metal; piping systems of metal, namely, joints, clips, branching pipes, collars, junctions, muffs, pipeworkand expansion joints for piping; manifolds of metal for pipelines; reinforcing materials of metal for pipes; pipe and drilling couplings of metal; pipe and drilling coupling components of metal; coupling systems of metal comprising metal couplings for use with hydraulic and pneumatic systems; structural joint connectors of metal; metal valves not being parts of machines
- Class 007. First Use: 0 First Use In Commerce: 0
All goods and services in the class are appealed, namely: Machines and machine tools, namely, drilling equipment, drilling equipment for drill ships and oilfield service boats, drilling rigs, jack-up rigs, draw-work machines, cathead machines, drilling fluid additive machines, sack cutting machines, oil pump machines, slurry pumps, riser elevator machines, riser feeding machines, tubular high pressure riser feeding machines, machine tensioners, hydraulic lifting machines, crane machines, mud bucket machines, pipe deck pipe handler machines, shale shaker machines, oil processing machines, gas processing machines, machines and machine tools used for separation and treatment of liquids, gases and solids, gravity separators and skimmers, flotation machines, water treatment machines, hydraulic and mechanical flotation system machines, mechanical coalescers, filtration machines, cyclone machines; separation machines used for separation of liquids, gases and solids, water injection machines for enhanced oil recovery, sulphate removal machines, replacement parts for all the aforesaid goods; motors and engines other than for land vehicles; machine coupling and transmission components except for land vehicles; pumps being machines and machines fortransportation, distribution, management and control of fluids; valves being parts of machines or pumps; clack valves being machine parts; machines for installation of drilling equipment; machines and machine systems for control, testing and monitoring of drilling equipment, downhole functions, pressure, fluids, gas; all for use in the field of oil and gas production

- Class 009. First Use: 0 First Use In Commerce: 0
All goods and services in the class are appealed, namely: Data processing equipment, computers; software for monitoring drilling equipment, drilling operations, and oil and gas production; software and hardware used in relation to the separation and treatment of liquids, gases and solids; human machine interface (HMI) software; software for real-time control and monitoring of drilling data and alarms; software for drilling and well intervention; hardware and software for drilling control cabins and instrument rooms (for conducting and remotely operating drilling operations); software for remote control and supervision of drilling rigs and drilling operations; software and hardware for viewing drilling operations apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, electric switches

Respectfully submitted,
/Leah D. Leyendecker/
