INTERMODAL TRANSPORTATION SERVICES

Intermodal services from *Wellsville Terminals Company* include intermodal transportation of goods between barge, truck, rail or warehouse. "Intermodal" refers to transportation by more than one means of conveyance, as by barge, truck and rail.

Managing the intermodal transport of raw materials and industrial products is a key to maintaining a properly efficient system of delivery, and keeping transportation costs to a minimum.

Our expertise in intermodal logistics is well known in the transportation industry. We transport a wide variety of bulk materials, including coal, coke, lime, and steel products. We also specialize in moving oversized cargo.

CLIENT LOGIN

Wellsville Terminals Company is located on the northern most point of the Ohio River and on the [Norfolk Southern rail line](#). Our location near Ohio State Route 7 gives us intermodal truck access to locations north and west of the Ohio River. Our intermodal services allow us to serve markets in Pennsylvania, Ohio, New York and Michigan.

Please click on the following links to learn more about our location and the commodities we handle. To learn more about our intermodal operations, call us at 330-532-1527, send us an [e-mail](#). We would be happy to speak with you more about your intermodal transport needs and design a solution that is right for your company.
