## What is 4G LTE?

Appalachian Wireless 4G LTE is the next generation of our mobile data offerings. 4G LTE allows Appalachian Wireless to provide cutting-edge mobile network technology with the same great quality and service you've come to expect.

The faster transfer speeds that 4G LTE provides will allow you to use your smartphone as you see fit. Watch an HD video on YouTube or perform a face-to-face video conversation with someone overseas using Skype, the possibilities are endless. You'll find that the blazing fast speeds allow you to get work done quickly and more efficiently versus standard 3G data.

If you have questions regarding our LTE service, [click here](#) or feel free to give us a call at (800) 438-2355.
