Looks good and feels good

I really loved how the style of this shoe caught my eye, today is the 1st day I am wearing this shoe and I already got several compliments, it's very comfortable and it looks great. I went with the leather because the suede was drooping by the buckle and did not look good.

I ordered the espadrille wedge shoe hoping they would not only be attractive but comfortable. Especially since the overview stated they have a padding system that features a memory foam insole. I'm not sure what BR was referring to, there doesn't appear to be any padding in the insole whatsoever. Very misleading! At full price they are definitely not worth the cost.
