** * Great walking flip flops

I bought these to go on a cruise as they have a very supportive arch and they were super comfortable. I'd buy another pair.

Yes, I recommend this product.

** * So small!!

April 23, 2015

Got these for my wife and I was blown away by how narrow they are. They run VERY small. If you feet are larger than your car keys these will not fit you. We are returning them.

This is the best fitting flip flop ever!!! bought two pairs in the same color.. it's very comfortable has a great arch, fits a narrow foot perfectly.. has cute style.. you may need to wear it a week to get adjusted to the arch show, but don't give up it's absolutely fabulous once your foot bed adjusts...

Yes, I recommend this product.
