Filed: 11/14/2012

Amy Matelski, Paralegal Specialist:

Applicant filed on May 19, 2015 a request for remand and or in the alternative, a request to extend the time to file its appeal brief and to strike all evidence and arguments contained in the Examining Attorney's January 5, 2015 office action.

Upon a review of applicant's request, the Board is unable to find a reason to remand the application to the Examining Attorney. The request fails to include a showing of good cause as required to remand or to strike all evidence and arguments contained in the Examining Attorney's January 5, 2015 office action. *See* TBMP § 1209. In view thereof, the request for remand and to strike is denied.

Applicant's request to extend time to file its brief is granted and Applicant is allowed until until **SIXTY DAYS** from the mailing date hereof in which to file its brief herein. A request for an oral hearing, if desired, must be made not later than ten days after the due date for applicant's reply brief.
