HomeTools and SuppliesFertilizers

Fertilizers

Made in New England. Use these selected fertilizers for your seedlings, and to ease their transition from container to garden. The percentages of nutrients are listed in the order N-P-K: nitrogen (N) is associated with leaf growth; phosphorus (P) with flower, fruit, seed, and root growth; and potassium (K) with disease resistance, root, tuber and stem growth, and protein synthesis. In addition, many other minerals and microorganisms present in these fertilizers make an important contribution to plant health and the nutritional value of your crops.

Sea-Plus Liquid Seaweed/Fish Fertilizer 3-2-2 (OG) - 1 Gal.

Product ID: 9577

Tools and Supplies > Fertilizers

For seeding root drench when transplanting and foliar feeding of established crops.
