By the Trademark Trial and Appeal Board:

Applicant's request for remand (filed June 17, 2016) and request for withdrawal of representative (filed June 19, 2016) are both noted. Applicant's attorney requests withdrawal because he has been suspended from the practice of law. In view of the fact that the request for withdrawal was filed just two days before the request for remand was filed, the question arises whether Applicant's attorney was in a position to file the request for remand on June 17. Accordingly, the Board defers determination of Applicant's filings and allows Applicant twenty days from the mailing date hereof to either to confirm that its counsel was entitled to practice law on June 17, or to resubmit the request for remand filed by Applicant itself or, if Applicant has appointed new counsel, by that counsel, in which case Applicant should also provide a power of attorney for its counsel.

If Applicant fails to respond to this order, the request for remand will be denied.
