*Ex Parte* Appeal

Application for GLOBAL BRANDS GROUP  
and Design

(Serial No. 86449519, filed Nov. 11, 2014)

**REQUEST FOR REMAND AND AMENDMENT TO APPLICATION**

Pursuant to Section 1209.04 of the Trademark Trial and Appeal Board Manual of Procedure (TBMP), Applicant GBG USA, Inc. hereby requests that its application, Serial No. 86449519, be remanded for good cause to the Examining Attorney for the reasons set forth herein.

Applicant acknowledges and appreciates the attention that the Examining Attorney and Board have paid to this application. Applicant also appreciates the extended period of time that the Board granted to Applicant to consider the prosecution of this very significant mark. Having actively engaged in internal business discussions involving the prosecution of this mark, as this mark is the namesake of Applicant's company and therefore integral to Applicant's operations, Applicant has now decided to move forward with this application in the manner described below, and as previously prescribed by the Examining Attorney. Applicant therefore now requests remand for reconsideration for the above-described good cause.

During the prosecution of this mark, the Examining Attorney requested that Applicant submit the following disclaimer:

**No claim is made to the exclusive right to use “GLOBAL BRANDS GROUP” apart from  
the mark as shown.**

Applicant now hereby accepts the above-shown disclaimer.

Furthermore, the Examining Attorney requested that Applicant amend its Identification of Goods in Class 42 to recite the following: **“Product development services, namely, consulting, new product design, and development, for businesses and/or individuals.”**

Applicant hereby accepts this amended recitation of goods.

In light of the foregoing, Applicant respectfully requests that the Board remand this application to the Examining Attorney, and that the Examining Attorney amend the Application as described above so as to approve the application for publication.

Respectfully submitted,

CROWELL & MORING LLP
