IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

IN RE DONG-JUN MOON

Serial No.: 86553898

Mark: LILFANT

Filing Date: March 4, 2015

Law Office: 117

Commissioner for Trademarks
P.O. Box 1451
Alexandria, VA 22313-1451

REQUEST FOR RECONSIDERATION

Applicant respectfully submits that there is no likelihood of confusion between the applied-for mark, LILFANT in standard characters, and the cited mark LITTLEPHANT in standard characters, Registration No. 4697582. Applicant's mark and the registered mark are dissimilar when compared in their entirety as to sight, sound, meaning, and commercial impression. Furthermore, the high number of similar marks in use with similar goods severely narrows the scope of protection for the cited mark to an extent that does not reach Applicant's mark. As such, the relevant facts do not support a finding of likelihood of confusion and Applicant requests that its LILFANT mark be approved for publication.

ARGUMENT

There is no mechanical test for determining likelihood of confusion. Instead, each case must be decided upon its own facts. TMEP § 1207.01. In determining likelihood of confusion, the threshold inquiry is "not whether people will confuse the marks, but rather whether the marks will confuse people into believing that the goods they identify emanate from the same source."

Paula Payne Prods. Co. v. Johnson's Pub'g Co., Inc., 473 F.2d 901, 902, 177 USPQ 76, 77 (CCPA 1973). The principal factors for determining whether a likelihood of confusion exists between marks are set out in *In re E.I. Du Pont de Nemours & Co.*, 476 F.2d 1357, 177 USPQ 563 (CCPA 1973). While the court recognized that there is no "litmus rule" for determining likelihood of confusion, it asserted that "[i]n every case turning on likelihood of confusion, it is the duty of the examiner...to find, upon consideration of *all* the evidence, whether or not confusion appears likely." *Du Pont*, 476 F.2d at 1361-62.

The *Du Pont* factors that are both applicable and relevant in this case are discussed below and favor a finding of no likelihood of confusion between the marks. Applicant's mark and the cited mark are sufficiently different when compared in their entireties, and considering the diluted nature of the cited mark, so as to avoid confusion.

A. The Marks Themselves Are Dissimilar in Their Entireties

In a likelihood of confusion determination, the conflicting marks must be viewed and compared in their entireties under the anti-dissection rule. TMEP § 1207.01(b). The anti-dissection rule holds that a likelihood of confusion finding cannot be predicated on a dissection of a mark. *See In re Nat'l Data Corp.*, 753 F.2d 1056, 1058, 224 USPQ 749, 751 (Fed. Cir. 1985). "The use of identical, even dominant, words in common does not automatically mean that two marks are similar...rather, in analyzing the similarities of sight, sound, and meaning between two marks, a court must look to the overall impression created by the marks and not merely compare individual features." *General Mills, Inc. v. Kellogg Co.*, 824 F.2d 622, 627, 3 USPQ2d 1442, 1445 (8th Cir. 1987). Even "close similarity between two marks is not dispositive of the issue of likelihood of confusion." *McGregor-Doniger Inc. v. Drizzle Inc.*, 599 F.2d 1126, 1133, 202 USPQ 81, 89 (2d Cir. 1979). Rather, even the slightest variation can distinguish marks and

avoid a likelihood of confusion. *Interstate Brands Corp. v. Celestial Seasonings, Inc.*, 576 F.2d 926, 927, 198 USPQ 151 (CCPA 1978). “All relevant facts pertaining to appearance, sound, and connotation must be considered before similarity as to one or more of those factors may be sufficient to support a finding that the marks are similar or dissimilar.” *Recot, Inc. v. M.C. Becton*, 214 F.3d 1322, 1329, 54 USPQ2d 1894, 1899 (Fed. Cir. 2000); TMEP § 1207.01(b); *see also AutoZone, Inc. v. Tandy Corp.*, 373 F.3d 786, 795 (6th Cir. 2004). Assessing the marks here in their entireties as to appearance, sound, meaning, and overall commercial impression, the clear conclusion is that confusion is not likely between the marks.

1. Compared in their entireties, Applicant’s mark and the registered mark are dissimilar in overall appearance, sound, and meaning

The first step in a comparison of the marks is an assessment of the marks’ appearances. Similarity of appearance between marks is really nothing more than a subjective “eyeball test.” J. Thomas McCarthy, *McCarthy on Trademarks and Unfair Competition* § 23:25 (4th ed.) (citing *Exxon Corp. v. Texas Motor Exchange, Inc.*, 208 USPQ 384 (5th Cir. 1980)). The standard for comparing two marks is not a side-by-side comparison. Instead, the marks must be considered sequentially in the context of the marketplace. *Louis Vuitton Malletier v. Dooney & Bourke, Inc.*, 454 F.3d 108, 117, 79 USPQ2d 1481, 1487 (2d Cir. 2006). When considered in their entireties, Applicant’s mark and the registered marks are largely dissimilar in appearance upon a visual “eyeball test” comparison. Applicant’s LILFANT mark is significant shorter than the cited LITTLEFANT mark (with seven letters vs. the eleven letters appearing in the cited mark). Applicant’s mark also does not contain any actual cognizable words upon brief viewing, differentiating it from the cited mark, which contains the English word “LITTLE.” Due to the lack of visual commonality, consumers will have no reason to believe the goods under the respective marks are related in any way upon seeing such goods sequentially in the marketplace.

Further, Applicant's unique LILFANT mark may not be refused registration after a dissection of the mark into constituent elements. *See* TMEP § 1207.01(c)(ii) ("the fundamental rule in this situation is that the marks must be considered in their entirety"); *see also In re Shell Oil Co.*, 992 F.2d 1204, 1206, 26 USPQ2d 1687, 1688 (Fed. Cir. 1993); *Massey Junior Coll., Inc. v. Fashion Inst. of Tech.*, 492 F.2d 1399, 1402, 181 USPQ 272, 273-274 (CCPA 1974). Applicant's mark fundamentally differs in appearance from the registered mark when the marks are compared in their entirety. There is no evidence or case law to suggest that consumers will break down Applicant's unitary, fanciful mark into constituent elements. Consumers in the marketplace will simply see Applicant's goods bearing the unitary LILFANT as a coined term, and will not associate Applicant's mark with the term "LITTLE" upon visual analysis; plainly put, Applicant's mark has the look and feel of a unique English word without clear relation to any other existing English words, including "LITTLE." Thus, a visual comparison of the marks themselves indicates that confusion between the marks is not likely.

Similarity or dissimilarity in sound is another important factor in determining whether the marks are confusingly similar. *See Du Pont*, 476 F.2d at 1361; *In re White Swan, Ltd.*, 8 USPQ2d 1534, 1535 (TTAB 1988). Considering the marks in their entirety, Applicant's mark is pronounced as one word consisting of two total syllables: LIL-FANT. The registered mark on the other hand is pronounced disparately as three syllables: LITT-LE-PHANT. Even if the first syllable of the marks is given greater weight in the analysis, the marks differ ("LIL" vs. "LITT"), enabling consumers to differentiate the parties' goods upon hearing the respective marks. Further to this point, there is no basis to equate the first part of Applicant's mark, "LIL" with the first part of the cited mark "LITTLE" in the sound comparison. Not only do the marks differ in their first syllables (which consumers may be focusing upon as dominant, though Applicant

alternatively argues that Applicant's mark must always be considered in its entirety), but again, there is no evidence to suggest that consumers will dissect Applicant's unitary mark into separate elements. Consumers will encounter Applicant's mark aurally as the unitary, coined LILFANT, and will not correlate Applicant's mark with the element "LITTLE."

The present case shares striking resemblance to multiple prior cases in which the Trademark Trial and Appeal Board and other authorities deemed marks sufficiently aurally dissimilar to avoid confusion. Perhaps of greatest significance is *Lever Bros. Co. v. Babson Bros. Co.*, 197 F.2d 531, 94 USPQ 161 (CCPA 1952), in which the predecessor of the Federal Circuit held SURGE and SURF for laundry and general-purpose detergents not confusingly similar, despite commonality of first part of mark and somewhat related meanings. The court found the ending parts of the marks, and overall sounds of the marks, sufficiently different, and reasoned that "the two words do not ordinarily have the same significance or connotation, notwithstanding that one of the six dictionary definitions of the word 'surge' is similar to the definition of the word 'surf.'" *Id.* at 534. The marks at issue here are at least as unrelated as SURGE and SURF. *See also In re Reach Electronics, Inc.*, 175 USPQ 734 (TTAB 1972) (REAC and REACH for electronics products not confusingly similar as deletion of one letter deemed enough to take REAC mark outside scope of REACH mark on assessment of sound and meaning). Applicant's mark here is similarly shorter than the cited mark in both the first and second elements. The marks are dissimilar in sound, and this factor weighs against a likelihood of confusion finding.

The marks are further dissimilar in overall meaning. *See* TMEP § 1207.01(b)(v). This factor is sufficient in and of itself to find no likelihood of confusion here. Again, the Board and other tribunals have found no confusion in prior cases where the marks at issue were closer in meaning (and other factors) than those here. In *Procter & Gamble Co. v. Master Kleens of*

America, Inc., 487 F.2d 550, 179 USPQ 735 (CCPA 1973), the court found MR. CLEAN, connoting a courtesy title, for cleaning products and MASTER KLEEN, connoting mastery in cleaning, for dry cleaning services not confusingly similar based upon distinction in meaning of respective marks, despite some overlap in sight and sound, and despite aural identity in the second word of the marks. Similarly here, Applicant's mark and the cited mark differ in meaning. The respective marks are both coined words and thus have no meaning; as such, their meanings are not similar. But even breaking the marks down and considering the dictionary evidence cited in the Office Action, Applicant's mark connotes an infant or child while the cited mark connotes an elephant, the large land mammal. The marks differ as to their meanings, thus avoiding confusion. *See also Aloe Creme Laboratories, Inc. v. Estee Lauder, Inc.*, 533 F.2d 256, 195 USPQ 471 (5th Cir. 1976) (AFTER TAN not confusingly similar with APRES SUN, both for after sunning lotion, despite congruency of each element of the marks); *Claremont Polychemical Corp. v. Atlantic Powdered Metals, Inc.*, 470 F.2d 636, 176 U.S.P.Q. 207 (CCPA 1972) (DURAGOLD for bronze pigment not confusingly similar to EVERGOLD for metal powder); *ConAgra, Inc. v. George A. Hormel & Co.*, 990 F.2d 368, 26 USPQ2d 1316 (8th Cir. 1993) (HEALTH CHOICE and HEALTH SELECTIONS, both for food products, not confusingly similar); *House of Worsted-Tex, Inc. v. Superba Cravats, Inc.*, 284 F.2d 528, 128 USPQ 119 (CCPA 1960) (IVY LEAGUE for clothing and IVY HALL for neckties not confusingly similar).

2. Compared in their entirety, Applicant's mark and the cited mark are dissimilar in commercial impression

The dissimilarity of the marks in their entirety as to commercial impression is a critical factor in the likelihood of confusion analysis (especially here) and weighs strongly in Applicant's favor. *See Du Pont*, 476 F.2d at 1361. Additions or deletions to marks may be

sufficient to avoid a likelihood of confusion if: (1) the marks in their entireties convey significantly different commercial impressions; or (2) the matter common to the marks is not likely to be perceived by purchasers as distinguishing source because it is merely descriptive or diluted. *See, e.g.*, TMEP § 1207.01(b)(iii); *Citigroup Inc. v. Capital City Bank Group, Inc.*, 637 F.3d 1344, 1356, 98 USPQ2d 1253, 1261 (Fed. Cir. 2011). “Commercial impression” is used to denote the ultimate conclusion of similarity or dissimilarity of marks resulting from a comparison of sight, sound, and meaning. *Palm Bay Imps., Inc.*, 396 F.3d at 1372. The impression that a mark is likely to project upon consumers should be determined not only from the sight, sound, and meaning of the mark itself, but also from the context in which the mark is used. *In re Nationwide Industries, Inc.*, 6 USPQ2d 1882, 1884 (TTAB 1988). Again, the marks are to be compared in their entireties as though being viewed sequentially in the marketplace. *In re National Data Corp.*, 753 F.2d 1056, 224 USPQ 749 (Fed. Cir. 1985).

Here, considering the marks themselves and their context of use, Applicant’s mark differs markedly in its commercial impression from the cited mark. The impression imparted to the consumer by Applicant’s mark is, first and foremost, Applicant unique brand, the coined LILFANT. Alternatively, considering the constituent elements of Applicant’s mark, the mark gives the impression of children’s products. The cited mark first gives the impression of the cited mark owner’s unique brand, wholly separate from Applicant’s brand. Alternatively, the cited mark imparts to consumers a playful elephant (which is arbitrary to the cited mark owner’s goods) due to use of the term “PHANT.” *See also* Evidence showing elephant design in the cited mark owner’s actual use. Due to these significantly disparate commercial impressions created by the respective marks, confusion is avoided and Applicant’s mark should accordingly be approved for publication.

Additionally, the alleged common elements appearing in the respective marks are not likely to be perceived as source-identifying because they are diluted, thereby avoiding confusion. *See infra*. Instead, consumers are likely to view the marks in their entireties when assessing source of the parties' goods. *See* TMEP § 1207.01(b)(iii). As the marks differ markedly when considered in their entireties, there is no likelihood of confusion. *See The Land-O-Nod Company v. Paulison*, 220 U.S.P.Q. 61, 1983 WL 51867 (TTAB 1983) (CHIROPRACTIC v. CHIROMATIC for mattresses not confusingly similar because "chiro" is weak as suggestive of healthful support); *The Wooster Brush Co. v. Prager Brush Co.*, 231 USPQ 316, 1986 WL 83707 (TTAB 1986) (POLY PRO v. POLY FLO, both for paint brushes, not confusingly similar because of weak, descriptive "poly" (made of polyester or polymers) and weak "pro" (professional quality) and "flo" (flows easily)).

B. The Number and Nature of Similar Marks in Use on Similar Goods Establishes that the Cited Mark Is Diluted

Evidence of third-party use of the marks falls under the sixth *du Pont* factor – the "number and nature of similar marks in use on similar goods." TMEP § 1207.01(d)(iii); *In re E. I. du Pont de Nemours & Co.*, 476 F.2d 1357, 1361, 177 USPQ 563, 567 (CCPA 1973). If the evidence establishes that the consuming public is exposed to third-party use of similar marks on similar goods, it "is relevant to show that a mark is relatively weak and entitled to only a narrow scope of protection." *Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondée en 1772*, 396 F.3d 1369, 1373-74, 73 USPQ2d 1689, 1693 (Fed. Cir. 2005).

The "LITTLE" and "PHANT" elements appearing in the cited mark here are diluted due a high number of similar third party marks in use with similar goods. A search of the Office's database reveals 551 live marks which incorporate "PHANT" – Applicant attaches in its Evidence hereto eight marks in class 21 which are particularly relevant and show the cited mark

is diluted. Of particular note is the mark “BABY ELEPHANT” and design (Serial No. 87055007) (which has been approved for publication), which is submitted for goods related to those under the cited and is a close variation in sight, sound, and meaning of the cited mark. A search of the Office’s database further reveals 154 live marks which incorporate “FANT,” six of which begin with “L” and end in “FANT” (including the similar LEXNFANT (Reg. No. 4475614) in class 21 for related goods, which Applicant attaches hereto. Finally, there are 169 live marks in class 21 which incorporate “LITTLE”; Applicant attaches in its evidence only those marks which are the most relevant and similar to the cited mark – “LITTLE plus one other element” marks – such marks still number to fifty.

Due to its diluted nature, the cited mark is entitled to just a narrow scope of protection which does not encompass Applicant’s mark. *See Palm Bay Imps., Inc. v. Veuve Clicquot Ponsardin Maison Fondée en 1772*, 396 F.3d 1369, 1373, 73 USPQ2d 1689, 1693 (Fed. Cir. 2005); *Giersch v. Scripps Networks, Inc.*, 90 USPQ2d 1020, 1026 (TTAB 2009); *In re Box Solutions Corp.*, 79 USPQ2d 1953, 1957-58 (TTAB 2006); *In re Cent. Soya Co.*, 220 USPQ 914, 916 (TTAB 1984). Although weak marks are entitled to some protection, it is against identical registrations in connection with identical goods. Applicant’s mark and goods are not identical to the cited registration. Applicant’s mark in fact is not identical, or even highly similar, to any of the third party marks included in Applicant’s Evidence. Consumers have shown the ability to differentiate amongst many “LITTLE” “PHANT” marks used with class 21 goods as demonstrated by the longtime concurrent registration and use of the third party marks attached hereto. *See Jack Wolfskin Ausrüstung Fur Draussen GmbH & Co. KGAA v. New Millennium Sports, S.L.U.*, 797 F.3d 1363, 116 USPQ2d 1129 (Fed. Cir. 2015) (consumers look to other elements to distinguish source where the common element is diluted); *see also Juice Generation*,

Inc. v. GS Enters. LLC, 794 F.3d 1334, 1338-40, 115 USPQ2d 1671, 1674-75 (Fed. Cir. 2015); *In re Hartz Hotel Servs., Inc.*, 102 USPQ2d 1150, 1153-54 (TTAB 2012); *In re Melville Corp.*, 18 USPQ2d 1386, 1388 (TTAB 1991); *In re Dayco Products-Eagle Motive Inc.*, 9 USPQ2d 1910, 1911-12 (TTAB 1988); *Plus Prods. v. Star-Kist Foods, Inc.*, 220 USPQ 541, 544 (TTAB 1983).

Applicant's mark should merely be allowed to join the likes of the many attached third party marks which consumers have proven capable of distinguishing. As the various third party marks have shown not likely to cause consumer confusion, Applicant's mark will similarly be able to coexist and will not cause consumer confusion. The diluted cited mark (which itself was necessarily registered into a narrow open niche of protection amidst the backdrop of the many third party marks) simply cannot now extend its grasp to preclude registration of Applicant's mark.

CONCLUSION

For the foregoing reasons, Applicant respectfully submits that there is no likelihood of confusion between its mark and the cited mark, and requests that the Examiner withdraw the pending refusal under § 2(d) of the Lanham Act and approve the mark for publication.

Respectfully submitted,

By: Otto O. Lee

Mark: BABY ELEPHANT

US Serial Number: 87055007

Application Filing Date: May 31, 2016

Filed as TEAS RF: Yes

Currently TEAS RF: Yes

Register: Principal

Mark Type: Trademark

Status: Approved by the examining attorney for publication but has not yet published for opposition. Although rare, withdrawal of approval prior to publication may occur after final review. The opposition period begins on the date of publication.

Status Date: Sep. 14, 2016

Mark Information

Mark Literal Elements: BABY ELEPHANT

Standard Character Claim: No

Mark Drawing Type: 3 - AN ILLUSTRATION DRAWING WHICH INCLUDES WORD(S)/ LETTER(S)/NUMBER(S)

Description of Mark: The mark consists of the stylized wording BABY ELEPHANT above a design of two elephants standing on an elliptical shape. Four Chinese characters appear below the elephants

Color(s) Claimed: Color is not claimed as a feature of the mark.

Disclaimer: "BABY"

Transliteration: The non-Latin characters in the mark transliterate to "Hong", "Se", "Xiao", "Xiang" from left to right respectively and this means "Red", "Color", "Small" "Elephant" from left to right respectively. The first two Chinese characters as a whole are translated as "red" and the last two Chinese characters as a whole are translated as "small elephant". The four Chinese characters are translated as "red small elephant" as a whole in English.

Design Search Code(s): 03.01.24 - Stylized cats, dogs, wolves, foxes, bears, lions, tigers
03.03.01 - Mammoths; Elephants; Mastodons
28.01.03 - Asian characters; Chinese characters; Japanese characters
