Piksters Interdental Brush Pack Of 40 Ultra Fine Size 00 Pink Piksters

★★★★★ 171 customer reviews | 4 answered questions

About the Product

- Piksters interdental Brushes Ultra fine size 00 (Bright Pink) in a convenient 40 pack. Small convenient plastic case holds 40 brushes. The case is resealable and perfect for travelling or your bag
- Perfect for cleaning in between tight spaces (especially for those with stripped incisors) or tight contacts between their teeth
- Suitable for daily at-home maintenance for healthy teeth and gums. Size 00 is also great for treating gum conditions below the gum line.

Product Description

Size: Size 00

Piksters are Australia's no 1 interdental brush and are made of stronger, stiffer wire which resists bucking and bending. Interdental brushes are like mini toothbrushes that get into the tiny spaces between teeth and clean effectively right down to the gum line. They are excellent for around the back teeth because they can get into areas your toothbrush and floss cannot reach. Piksters last longer, are better quality and offer better value (significantly less expensive per brush than many other brands). Extra durable PA612 bristles deliver superior cleaning ability, the quality nylon bristles compress on insertion and spring open on withdrawal. Every brush has a cap which acts as a handle extension. The cap also allows the brush to dry between uses and keeps the bristles clean. The slim compact handle allows the user to rotate the brush on insertion, resulting in an easy efficient cleaning action.

Customer Questions & Answers

Have a question? Search for answers

- Question:** are these single use?
Answer: No, they are NOT single use; I've bought them for many years since my dentist recommended them. They are designed to use as many times as you can, but after several uses of one, it will start to bend. You'll know when you have to replace with another. I think they're great!
By PT1 on January 6, 2016
See more answers (4)
- Question:** I am trying to avoid antibiotics. Do these brushes have an antibacterial coating? Some interdental brushes do.
Answer: I don't think so. There is no indication on the packaging. My Dentist recommends that I dip the brush in toothpaste before using so I seriously doubt he would recommend that if there were a special coating. They are very effective I might add.
By GA on August 31, 2015
See more answers (5)
- Question:** Does anyone know what size pikster would be comparable to "gum go-between" moderate size?
Answer: It's hard to say. I just purchased a set of 10 - one day f each size to see what worked. Everyone's teeth and mouth are a different size.
By Janis Keller on October 4, 2016
See more answers (2)
- Question:** Are the sizes the same as the Q Brush from Nexadental?
Answer: I would say they are similar.

★★★★★ Great product along with floss and electric toothbrushes

By Kenneth Sandberg **VINE VOICE** on April 7, 2014

Size: 5 Verified Purchase

The pikster products are well organized by size, the smaller sizes have smaller numbers (thus a 7 is the widest, largest one of all). So, you pick the size that fits best between your teeth to clean between the various teeth. The five (size I am reviewing) is fairly large, and it will not fit between some of my teeth that have a smaller distance between them. These brushes work in tandem with floss (I use dental tape as it is wider and very slick) to clean the small food particles out from between your teeth. Follow it up with a good electric toothbrush (and quality toothpaste) and you should be good. One note though, when you use them a few times, the blue plastic that is fairly small size the wire goes into the handle will start breaking down, and soon you will have very small blue plastic pieces breaking up and getting into your mouth (which can easily be swallowed, not that they would hurt you much), so you always need to look at the end of the handle and make sure it is still quite intact.

★★★☆☆ Three Stars

Not stiff enough to use on more than one or 2 teeth
Published 8 days ago by Susan P

★★★★★ Clean teeth

This I should a good item. I have been using them for years.

https://www.amazon.com/Piksters-Interdental-Brush-Pack-Ultra/dp/B01LWYJMS8/ref=sr_1_11_a_i?ie=UTF8&qd=1490028912&sr=8-11&keywords=dental%2Bpick&pf_rd_p=03202017_12_30_37_PM

The little white brushes can get meat and such stuck on them too, but that usually comes off easily in fast running water. All in all they are a relatively decent made product that are good for several uses if you keep them clean and watch the ends.

★★★★★ **The best pik-brushes out there.**

By Julia on December 12, 2016
Size: Size 0 | [Verified Purchase](#)

These things are life savers when I'm out and about. As I've reached 40 and now 50, the space between my teeth up around the gum line has gotten more and more apt to collect food, especially after eating fibrous foods like meat or celery for example, and feeling stuff between my molars pressing up against my gums drives me just about insane if I'm out and away from home. I always have one of these piksters in my 'emergency' dental hygiene kit in my purse, so I can excuse myself to the restroom and go between the molars and push out the offending foods, and oh what a relief it is. Occasionally I still have to resort to a little packet of disposable travel floss, but for the most part the piksters can provide enough relief to get me through until I get home where I can use my waterpik. I would like to add that I've tried just about every other brand of these same types of go-between tooth pick brushes and this Pikster brand is the absolute best - the others are harsh or ineffective or don't fit as well regardless of the size, or they just plain have stupidly thick/large handles and aren't really portable like these mini Piksters, which waste no space trying to look more substantial. Their performance speaks for itself. I had run out of my supply after buying a box years ago and couldn't remember the brand name and ended up searching on Amazon for HOURS until I finally found these again -- for some reason they are not high in the results when I do a search for this type of item, but they really SHOULD be number one.

★★★★★ **Piksters are great!**

By ahur111 on January 3, 2017
[Verified Purchase](#)

These are wonderful! I am unable to find them locally in places like CVS, Target, Walgreen's, so I'm glad they are easy to obtain through Amazon. I think they are best used in combination with floss, regular brushing, and waterpik. I have receding gums and my dental hygienist recommended these about a year ago. Since I started using them daily, I have been getting feedback from her about improvement in overall dental health. As others have mentioned they come in various sizes; I like the size 1 or even size 0 for smaller spaces. Highly recommended!

★★★★★ **so it is important to find one that fits comfortably between your teeth**

By Ann M. on March 25, 2015
Size: 2 | [Verified Purchase](#)

Many interdental picks are too delicate to last for long. These last. I have used two other brands, Doctors (very inexpensive) and G.U.M. Proxabrush (a little pricey). They both worked to but neither brand held up. Interdental picks are not a replacement for flossing, but they are often more effective than floss to clean between molars which have slightly concave surfaces. Piksters come in many different thicknesses, so it is important to find one that fits comfortably between your teeth. There are articles and even YouTube demos on the internet to help guide you in their proper use. If you find food is lodging between your molars and dental floss is not terribly effective in removing the leftovers, you will probably benefit from an interdental pick. I would suggest trying a "variety pack" to see what diameter pick works best for you. It may be that your teeth will require more than one diameter. If you floss and follow up with a pick, you will probably be amazed to discover what floss left behind!

★★★★★ **Handy little brushes are great**

By LovinRetirement on November 25, 2014
Size: Size 3 | [Verified Purchase](#)

My dentist recommended these little brushes and gave me a free sample. I have been using them ever since. I've had a lot of dental work done over the years and have some large gaps between my teeth. Seems like food gets stuck between my teeth all the time. These brushes are great since I can put one in my pocket and use it anywhere. They come in different sizes so you can pick the size that is right for you.

By **Agatha Istanbul** on March 8, 2015

Verified Purchase

An oral surgeon once gave me a few of these piksters to use between my teeth (in addition to first flossing) and I've used them ever since. Even after I floss (and I do a good job of flossing), when I use these piksters, I sometimes get a piece or two of food that was stuck in an awkward position between my teeth that the floss didn't remove. Each time I go to a dentist to get my teeth cleaned, they always tell me how clean my teeth are, how well I keep them up, and how strong my gums are. So these Piksters are definitely worth getting!

[Comment](#) | Was this review helpful to you? Yes No [Report abuse](#)

★★★★★ crown saver

By **Nuffaid1** on June 7, 2014

Verified Purchase

Dentist used these to get popcorn and nuts from beneath my temporary crown. I have a implant so losing it do to bacteria you can't reach would be expensive. These little brushes are wonderful for really getting small food particles to come up for air. I also use a electric toothbrush and floss to make sure I leave nothing behind.

[Comment](#) | 5 people found this helpful. Was this review helpful to you? Yes No [Report abuse](#)

★★★★★ Love the Piksters

By **Amazon Customer** on March 18, 2017

Size: Size 1 **Verified Purchase**

I love these and started by getting the 1st size and 3. But I need a larger size too for all the different openings in my teeth. These do last longer than the first ones I have used by someone else with a thinner wire.
