Protecting Patient Safety

Patient safety is a top priority. Find out how we optimise patient safety throughout the lifecycle of a medicine.

[more](#)

Access to investigational medicines outside of a clinical trial

Some patients with serious or immediately life-threatening diseases may not be eligible for any clinical trials and may not have other options. Under specific circumstances and in compliance with applicable laws, we may provide patients with pre-approval access (PAA) to unapproved or investigational medicines outside the clinical trials process, before they are approved by regulatory authorities.
