[PREV](#) [Page 12 of 14](#) [NEXT](#)

Triple Diamond 2x3x4x5x Pay Triple Red Hot 777 Rainbow Riches 1 Double Diamond Mega Joker

Triple Diamond 2x3x4x5x Pay Triple Red Hot 777 Rainbow Riches 1 Double Diamond Mega Joker

follow-up games take 12-11 times pay.

There are quite a few 3-reel slot machines that exist in both 5-reel and 3-reel format. Examples would include [Wheel of Fortune slots](#), the [Wizard of Oz slots](#), games like Monopoly and also Tabasco slots.

For many players, 3 reel slots are still the best. What it is about them that makes them so much fun is hard to define and is probably different for different people.

For some people, it may be the beautiful simplicity of the games and the sense of anticipation that you get when you see the first two reels fall on the Jackpot, waiting to see what the third reel brings.

For others, the appeal of three reel slots games may be the hypnotic sounds in the background. The white noise style sound effects as the reels spin can take your mind away from all of the stresses in life and allow you to dream.

Did You know? ... players of [UK casino slots](#) in Britain tend to call the games Pub Bandits, Fruit Machines, Gamblers, One-Armed Bandits and Frutties?

More Classic Fruit Machine Slots

As well as this page of 3 reel slots, we have a number of other pages to enjoy.

Page 1 - This is our main slots page, which comprises our most popular games. As you would expect, this is the most visited page out of the entire site (along with our [slots blog](#) page)

Page 2 - gives you the chance to play [casino slots](#). These are games that you would find in regular casinos, like the ones in Las Vegas. Examples include monopoly slots and Cleopatra and the Lord of The Rings.

Page 3 - We also have a page called [online slots](#) which gives a selection of games that you can only find online and so you might not have ever played before

Classic Slots

Classic slots are the preferred form of gambling for many people. The simple act of trying to line up three cherries or lemons on a three-reel classic slot machine is as relaxing as it is potentially lucrative. The click of the reels as they spin and the simple pay tables that you can memorize in a short playing session bring back fond memories of a different time when both slot machines and life were simpler.

Of course over time there have been newer, flashier, and supposedly better slot machine games introduced, but you can still play on classic slot machines online and in casinos around the world.

What Are Classic Slot Machines?

The definition of a "classic slot machine" is different depending who you ask. My definition of a classic slot machine is any game that uses mechanical reels or any online slot game designed to imitate the look of mechanical slots. These games also usually have straightforward pay tables with no bonuses or extras.

TOP REVIEWS

When video slot machines start offering bonus rounds, stories, dozens or even hundreds of different pay lines and every other kind of bell and whistle you can think of, they're no longer classic slots games.

How do Classic Slots Work?

Classic slots games that are also video slot machines use a random number generator to decide which reels and symbols to display on the screen. This allows the newer classic slots games to offer higher top pay outs than the old ones that actually used reels that turned inside the machine.

The old machines that used actual reels could only have a limited number of combinations because the reels would only hold a certain number of symbols. Many players who enjoyed the old classic slot machines wanted the same game play look and feel but wanted a chance to win higher top prizes.

Using a random number generator program and a video slots platform the casinos started introducing games that these players wanted to play that reminded them of the old machines but were able to offer the higher paying top combinations.

Some of these machines are still in use today. While it's getting harder to find machines that use actual reels, the availability of video based classic slots games is as healthy as ever.

Where Can You Play Classic Slots?

Classic slots games and machines can be found around the world in most casinos and gambling establishments. They can also be found in most online casinos. Many online casinos even have a specific category in their software for classic slots so you can quickly find the machines you want to play.

When you are playing in a local casino or one in Las Vegas or Atlantic City the classic slot machines are mixed in with all of the other slots games. Don't expect to find too many mechanical games, as those are considered antiques. Instead, look for video slots with simple rules and interfaces.

You'll need to walk around the casino to find the classic slots games you want to play. If you make frequent trips, you'll learn where your favorite machines are so you don't have to spend as much time searching on your next trip. Casinos do sometimes move their machines, so if you can't find a machine ask one of the casino personnel if they know where it was moved.

100% authentic in every aspect. There is no other machine.

Are All Classic Slot Machines Three-Reel?

While the first thing that pops into most players' minds when they think of a classic slot machine is a three reel machine, there are also five and even seven reel classic slot machines. They can have one, three, or five rows and can either use mechanical old time reels or video screens that display the reels.

Are Classic Slots Better Than Video Slots?

Classic slot machines are better than many of the current slots games, but there are plenty of people who feel the other way. You need to play many different varieties of both old and new slots to see which ones are your favorites.

Even though I like classic slots, I also play newer games. I especially like the story based video slots games that have become popular over the past few years.

Also, many classic slots are now video based machines, so there isn't really a question about which is better. The real question is whether you like the simplicity of classic slots or all of the extras that are included with more modern machines.

Are Classic Slots Being Phased Out?

Casinos track the income created by every inch of the casino floor. They know exactly what slot machines are responsible for the most profit and which ones don't bring in as much money.

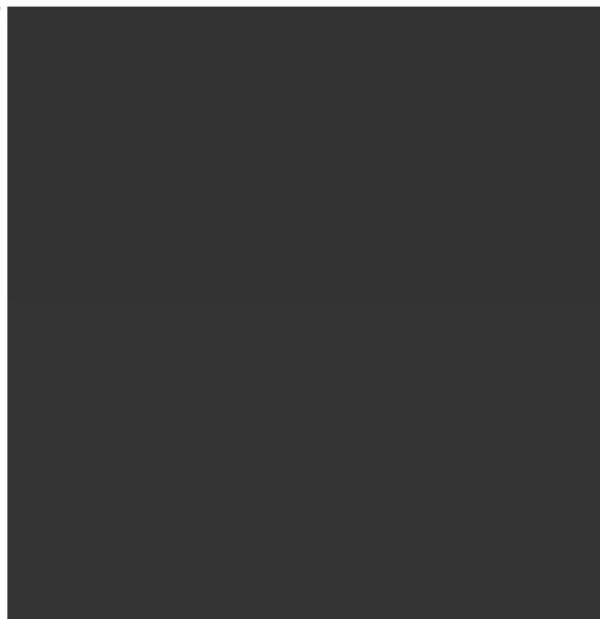

If classic slot machines can't keep making the casinos as much money as newer machines, they will eventually replace them. This is a simple business decision and one the casino owners won't hesitate to make.

One place where you'll probably always be able to enjoy classic slots is at online casinos. They don't have the same constraints on floor space as land based casinos, so their overhead for keeping classic slots games available is minimal.

The other nice thing about playing classic slots on the internet is you have a wider range of options available without leaving your home. There are hundreds of online casinos, dozens of software and slots developers, and new slot machine games are being developed every day.

If you start having trouble finding great classic slot machines in your local area, here's what you should do:

➡ Check out a few online casinos to see what games they have to offer. Most of them will let you play classic slot machines for free while you are checking them out, and they'll give you a bonus when you start playing for real money.

Classic Slots Strategy

If you've been playing slots for long at all you've probably figured out that there isn't much strategy involved with playing. You basically put your money in and spin the reels.

Some days you get lucky, but most days you end up losing money. That's because the casino has a built-in advantage. Slot machines are designed to entertain you, but they're also supposed to take your money in exchange for this entertainment.

You can do a few things to make your playing experience better and possibly make it last longer.

1. Play for the lowest coin amount that you can find.

If the machine you're playing doesn't offer a lower coin amount you can find a different machine that does.

2. Set limits for each playing session.

These can be as simple as dividing your entertainment budget for the week or month by the number of slots sessions you plan on enjoying or setting a standard loss limit. You could stop playing if you lose \$100, or \$50 or whatever you feel comfortable with.

3. Play these games for free.

Some players spend most of their time playing classic slot machines for free. While they never get the rush of hitting a big payout, they also don't lose money while playing either. Of course if you want to play slots for free you have to do it online. Land based casinos won't let you play their machines without putting money into them first.

CONCLUSION

Classic slot machines have been enjoyed by gamblers around the world for decades.
They won't be going away any time soon.

These types of slots games are the easiest to play and understand. From the simple pay charts to the limited number of symbols, classic slot machines are a simple and enjoyable way to pass the time.

le and enjoyable way to pass the time.
