Beyond Medusa's Gate

Description

## Description

### Story Line

Welcome to the Animus. Greece 445 B.C. In an age of eloquent philosophers, merciless gods, and death-promising oracles. Somewhere on the Peloponnese peninsula, in a vast Aegean coastal cave, an old artifact has been hidden. It could be the legendary ship of the Argonauts. Using the Animus simulation program and our database of recorded genetic memories, we will send you back to Greece. Find the ship, if it exists...

Multi-player Escape Room Style game based on Ubisoft's Assassin's Creed Origins. Must have a minimum of 2 players. Plays with teams of 2 only. Maximum of 6 players at a time, however only a maximum of 4 players may play within the same game. 2 additional players may play a separate game at the same time. 3 teams of 2 may play at the same time.

Beyond Medusa's Gate is not a video game. It is an escape game experience set in the world of Assassin's Creed Odyssey. You will become the characters, choose your attire, dress the part! You will experience a larger-than-life adventure as if you were there, 445 BC in Ancient Greece. Never alone, as part of a team (of 2 or 4), you become the hero and experience in total safety, situations that would be far too dangerous or just impossible to experience in real life. Developed by Ubisoft Blue Byte, it is the next generation of social virtual reality experience.

It is HIGHLY recommended to experience "Escape the Lost Pyramid" first.
