Opposition No. 91165072

NVIDIA Corporation

v.

INNOVIDIA, INC.

Elizabeth A. Dunn, Attorney:

On May 8, 2006, opposer filed a copy of applicant's March 6, 2006 consented motion to amend the opposed application and a cover sheet titled "Withdrawal of Opposition." While the attached motion refers to a settlement agreement between the parties, it does not refer to withdrawal of the opposition or include any provisions of the settlement agreement. Since the attachment does not support the title, it appears likely that this was an incomplete filing.

Moreover, opposer's paper fails to indicate proof of service on applicant, as required by Trademark Rule 2.119. In order to expedite this matter, a copy of the May 8, 2006 paper is forwarded herewith to applicant's counsel. Notwithstanding this action by the Board, strict compliance

with Trademark Rule 2.119 is required by opposer in all future papers filed with the Board.

Proceedings herein remain suspended for thirty days to allow opposer to withdraw its opposition, failing which this proceeding will go forward on the amended application.
