**ANSWERS AND OBJECTIONS OF APPLICANT TO OPPOSER'S
FIRST SET OF INTERROGATORIES TO APPLICANT**

Applicant CROUSER AND ASSOCIATES, INC. ("Applicant"), by and through its undersigned Attorneys, responds to Opposer CERTIFIED PRINTERS, INC.'s ("Opposer") First Set of Interrogatories as follows:

PRELIMINARY STATEMENTS

A. By providing the information requested, Applicant does not waive objection to admission of the information in evidence on the grounds of relevance, materiality or on any other proper grounds for objection, nor does Applicant submit to the instructions and definitions listed at the beginning of the discovery requests, except as those instructions and definitions conform to the Federal Rules of Civil Procedure and the applicable case law. Specific objections are noted without waiver of the general objections reserved herein.

B. The information supplied herein is not based solely upon the knowledge of the individual who executed these Answers, but comes from various sources, including Applicant's agents, employees and representatives, and, unless privileged, attorneys. The

word usage and sentence structure is that of the attorneys who prepared these Answers and does not purport to be the exact language of the executing person.

C. Applicant reserves the right to correct, amend, or supplement these Answers if and when it has other, or more accurate, information with respect to these Interrogatories prior to trial.

D. Subject to the following general objections and conditions and subject to the understanding that by responding to the Interrogatories Applicant does not waive any objection asserted herein, Applicant restates below each of Opposer's Interrogatories verbatim, followed by its answers and/or objections thereto, as follows:

GENERAL OBJECTIONS

1. Applicant objects to these discovery requests to the extent they seek information that is not relevant to a claim or defense of any party and is not reasonably calculated to lead to the discovery of admissible evidence.

2. Applicant objects to these discovery requests to the extent they are unreasonably vague, broad, repetitious, unduly burdensome, or purport to require the disclosure of information beyond the scope of permissible discovery under the Federal Rules of Civil Procedure.

3. Applicant objects to these discovery requests to the extent they seek confidential, proprietary or trade secret information. To the extent that Applicant produces confidential, proprietary or trade secret information in response to these requests, it does so with the understanding that the information produced is subject to the terms of the confidentiality order agreed upon by the parties.

4. Applicant objects to these discovery requests to the extent they purport to require the disclosure of documents or information that is protected from discovery by the attorney-client, work product, or other privilege, or that is otherwise immune or protected

from disclosure. Applicant does not intend to waive any protections or privileges by the supplying of information in response hereto.

5. Applicant incorporates each of the General Objections set forth above into each of its specific responses to the discovery requests. In addition to these General Objections, Applicant will also state specific objections to discovery requests where appropriate, including objections that may not be generally applicable to all of the discovery requests. By setting forth such specific objections, Applicant does not limit or restrict the General Objections set forth above. To the extent that Applicant responds to discovery requests to which it objects, its objections are not waived by furnishing information or providing documents. In addition, the inadvertent disclosure of privileged information or release of privileged documents shall not constitute a waiver of any applicable privilege.

INTERROGATORIES

INTERROGATORY NO. 1

State the type of business in which Applicant is engaged, and identify any subsidiaries, parent companies or related companies which use Applicant's Mark or any other name or mark in which the term CERTIFIED PRINTERS or CPRINT appears.

ANSWER: Applicant incorporates herein by reference its General Objections. Without waiving said Objections, Applicant states that Crouser & Associates, Inc. is a West Virginia corporation that was incorporated on July 1, 1998. Its predecessor, Crouser & Associates, a sole proprietorship owned by Thomas P. Crouser, was formed January 1, 1985. There are no other predecessors, subsidiaries or affiliated companies.

Applicant is engaged in franchising, as well as in business consulting, specializing in providing commercial printing companies and other businesses with techniques to improve the operation and management of their business.

Businesses meeting and maintaining certain minimum competitive requirements can become franchisees and members of Applicant's CROUSER PROFESSIONAL PERFORMANCE ALLIANCE® and CPRINT CERTIFIED PRINTERS INTERNATIONAL™ networks. Applicant licenses its franchisees the right to utilize Applicant's trademarks, operational marketing, and selling systems in the operation of their commercial printing companies.

INTERROGATORY NO. 2

Identify the person(s) most knowledgeable about the selection, adoption and application for registration of Applicant's Mark and identify all documents which are relevant to Applicant's selection, adoption and application for registration of Applicant's Mark.

ANSWER: Applicant incorporates herein by reference its General Objections. Applicant further objects to this Interrogatory No. 2 on the grounds that it is overly broad and unduly burdensome. Without waiving said Objections, Applicant states that Thomas P. Crouser, President, Crouser & Associates, Inc., and its counsel, McNees Wallace & Nurick LLC, are the most knowledgeable about the selection, adoption and application to register the Applicant's Mark. Applicant further states that Thomas P. Crouser has produced or will produce relevant, non-privileged documents, including a 15-page log, describing Applicant's selection and adoption of its trademark, and a 5-page spreadsheet, outlining trademarks and domain names considered by Applicant. Please see documents produced in response to Opposer's First Set of Requests for Production of Documents No. 1.

INTERROGATORY NO. 10

Describe each channel of trade through which Applicant's services and products are being offered for sale under Applicant's Mark.

ANSWER: Applicant incorporates herein by reference its General Objections. Without waiving said objections, Applicant states that it offers its services to prospective customers via direct mail, magazines and the Internet. Specifically, Applicant advertises in the magazine, Quick Printing, and sends direct mailings to commercial printers based on mailing lists provided to Applicant by Quick Printing and/or InfoUSA. Prospective customers who read the advertisements in Quick Printing and/or receive a direct mailing are directed to Applicant's web site, www.cprint.org, where Applicant provides additional information about its services and prospects can fill out an information request form. Applicant, thereafter, directly contacts these individuals or companies.

INTERROGATORY NO. 16

State the month, day, and year when Applicant first adopted Applicant's Mark.

ANSWER: Applicant incorporates herein by reference its General Objections. Without waiving said objections, Applicant states that on or about December 8, 2003, Applicant modified its originally intended mark, i.e., CPRINT CERTIFIED PRINTERS ALLIANCE INTERNATIONAL, by dropping the term "Alliance," and adopted the CPRINT CERTIFIED PRINTERS INTERNATIONAL and Design mark. By way of further answer, Applicant incorporates herein by reference its Answer to Interrogatory No. 2, above.

INTERROGATORY NO. 29

State in detail the circumstances for each meeting in which Thomas P. Crouser, Applicant's president, personally met Michael Druyen, Opposer's vice-president, including the month, day and year.

ANSWER: Applicant incorporates herein by reference its General Objections. Applicant further objects to this Interrogatory No. 29 on the grounds that it is overly broad, unduly burdensome and requests information that is in Opposer's possession, as Opposer's Vice President, Michael Druyen, was present at any such meeting. Without waiving said Objections, Applicant states that Mr. Druyen has informed Thomas P. Crouser that the two met on June 8, 2002 at a California Business Printers meeting in Palm Springs, California. By way of further answer, Applicant states that Mr. Crouser has no specific recollection of personally meeting Mr. Druyen on June 8, 2002 or at any other time.

INTERROGATORY NO. 30

State the circumstances, including the month, day, and year when Applicant first began using Applicant's Mark.

ANSWER: Applicant incorporates herein by reference its General Objections. Without waiving said Objections, Applicant states that in late February or early March, 2004 Applicant first began using Applicant's Mark on its web site, www.cprint.org.

INTERROGATORY NO. 32

State the month, day, and year for each event, seminar, or meeting with its name which Thomas P. Crouser attended or gave a presentation for printers in California in any capacity.

ANSWER: Applicant incorporates herein by reference its General Objections. Applicant further objects to this Interrogatory No. 32 on the grounds that it is overly broad and unduly burdensome. Without waiving said objections, Applicant states that Thomas P. Crouser has been making presentations to commercial printing companies and other businesses since 1972. As Applicant has not retained records of every presentation it or Mr. Crouser has made in California, Applicant limits this Interrogatory to presentations made by Mr. Crouser since 2000 and offers the following chart delineating such presentations:

Identify with the month, day, and year of each directory of each printers' trade association or group that listed Applicant and/ or Thomas P. Crouser and Opposer and /or Michael Druyen as members. [sic] in sufficient detail for a request to produce.

ANSWER: Applicant incorporates herein by reference its General Objections. Applicant further objects to this Interrogatory No. 33 on the grounds that it is overly broad, unduly burdensome and requests information that is in Opposer's possession, as Opposer would have had to be a member of these associations or groups to meet the conditions of this Interrogatory. Without waiving said Objections, Applicant states that it has been a member of the Printing Industries of America regional affiliates, Printing Industries of the Virginias and Printing Industries Association of the South, Inc., since 1970. Applicant is in possession of copies of the 1999-2000, 2001-2002 and 2006-2007 Printing Industry Association of the South, Inc. Applicant is not in possession of any directories for either of these organizations such that it can identify the date of each and/or the members listed therein.

**SUPPLEMENTAL ANSWERS OF APPLICANT CROUSER & ASSOCIATES, INC. TO
OPPOSER CERTIFIED PRINTERS, INC.'S FIRST SET OF INTERROGATORIES**

Applicant CROUSER & ASSOCIATES, INC. ("Applicant" or "Crouser") by its undersigned attorneys, submits supplemental answers and objects to Opposer CERTIFIED PRINTERS, INC.'s ("Opposer" or "Certified Printers") First Set of Interrogatories as follows:

I. PRELIMINARY STATEMENTS

A. By providing the information requested, Applicant does not waive objection to its admission in evidence on the grounds of relevance, materiality or on any other proper ground for objection, nor does Applicant submit to the instructions and definitions listed at the beginning of the discovery requests, except as those instructions and definitions that conform to the Federal Rules of Civil Procedure, the Rules of Practice in Trademark Cases

and applicable case law. Specific objections are noted without waiver of the general objections reserved herein.

B. The information supplied herein is not based solely upon the knowledge of the individual who verified these Supplemental Answers, but comes from various sources, including Applicant's agents, employees and representatives, and, unless privileged, attorneys. The word usage and sentence structure is that of the attorneys who prepared these Supplemental Answers and does not purport to be the exact language of the executing person.

C. Applicant reserves the right to correct, amend, or supplement these Supplemental Answers if and when it has other, or more accurate, information with respect to these Interrogatories.

D. Subject to the following general objections and conditions and subject to the understanding that by responding to these Interrogatories Applicant does not waive any objection asserted herein, Applicant restates below each of Opposer's Interrogatories verbatim, as pertinent, followed by its responses and/or objections thereto, as follows:

II. GENERAL OBJECTIONS

1. Applicant objects to these discovery requests to the extent they seek information that is not relevant to a claim or defense of any party and is not reasonably calculated to lead to the discovery of admissible information.

2. Applicant objects to these discovery requests to the extent they are unreasonably vague, broad, repetitious, unduly burdensome, or purport to require the disclosure of information beyond the scope of permissible discovery under the Federal Rules of Civil Procedure and the Trademark Rules of Procedure.

3. Applicant objects to these requests to the extent they seek confidential, proprietary or trade secret information. To the extent that Applicant produces confidential, proprietary or trade information in response to these requests, it will do so subject to the terms of the Protective Order entered in this proceeding.

4. Applicant objects to these discovery requests to the extent they purport to require the disclosure of documents or information that is protected from discovery by the attorney-client, work product, or other privilege, or that is otherwise immune or protected from disclosure. Applicant does not intend to waive any protections or privileges by the production of documents or the supplying of information in response hereto.

5. Applicant incorporates each of the General Objections set forth above into each of its specific supplemental answers to the discovery requests. In addition to these General Objections, Applicant will also state specific objections to discovery requests where appropriate, including objections that may not be generally applicable to all of the discovery requests. By setting forth such specific objections, Applicant does not limit or restrict the General Objections set forth above. To the extent that Applicant responds to discovery requests to which it objects, its objections are not waived by furnishing information or providing documents. In addition, the inadvertent disclosure of privileged information or release of privileged documents shall not constitute a waiver of any applicable privilege.

INTERROGATORY NO. 15: Identify each use in any form by third parties of
Opposer's Mark, either alone or together with another word or words, known to Applicant.

reference its General Objections. Without waiving those objections, Applicant states
that Applicant has no knowledge of any third party use of Opposer's Mark.

Applicant further objects to this Interrogatory on the grounds of relevancy, that it is vague and ambiguous with respect to the term "elsewhere" and that Applicant has already provided a complete answer to this Interrogatory No. 31. Without waiving said objections, Applicant states that Applicant's first use of Applicant's Mark on its website in late February or early March, 2004 is also evidence of Applicant's first use of Applicant's Mark in connection with its business and advertisements.
