v.

Electric Power Research
Institute, Inc.

Frances S. Wolfson, Interlocutory Attorney:

On September 29, 2006, applicant filed a proposed amendment to its application Serial No. 78568998, with opposer's consent.

By the proposed amendment applicant seeks to change the identification of goods **from** "Computer software used to perform quantitative assessment of proposed turbine upgrades" **to** "Computer software used to perform quantitative assessment of proposed turbine upgrades, none of the foregoing for use on or in connection with database management for utilities and other energy distribution business."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(b), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

If this resolves the dispute herein, opposer is allowed until thirty days from the mailing date of this order to file a withdrawal of the opposition, failing which the opposition will go forward on the application as amended. See Trademark Rule 2.106(c).
