 Applicant :

CONSENT MOTION TO SUSPEND

The parties move to suspend the above-captioned proceeding for six months to allow the parties an opportunity to continue discussion of the settlement of their controversy without the necessity of pursuing the opposition.

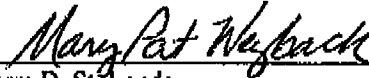

Despite the parties diligence in pursuing settlement negotiations, the parties have surpassed the one-year time period provided for in T.B.M.P §605.02. Thus, the parties proffer the following information as to the status of their negotiations in order to show good cause for further suspension. The parties advise that the additional suspension is necessary in view of the complicated nature of the science involved in the opposition. Settlement discussions necessarily include scientists, business people, and lawyers, and, due to the scientists' and business people's work and travel schedules, it has sometimes been difficult to receive the required feedback from all persons involved and arrange the required meetings. Applicant has proffered a settlement proposal which is being discussed within Opposer's organization. Because of these complications, additional time is required to finalize the settlement agreement. Both parties feel that if an agreement can be reached, that it will be reached within an additional six month period.

The parties feel that good cause is hereby shown and therefore request that this Consent Motion to Suspend be granted.

Respectfully submitted,

JOHNSON & JOHNSON
